From The Director of Public Instruction,
Madras.

To The Secretary to Government,
Education Department, Madras.

Rc.No.282 A2/50 dated 28-10-1950.

Sir,
Colleges - College of Engineering, Guindy - Purchase of
Compression Testing machine capacity 200 tons with
extra double plunger Pump and low pressure gauge -
expenditure - sanction - Requested.

Ref: Letter Rc.59 SK/50 dated 5-10-1950 from the Principal,
College of Engineering, Guindy.

In submitting herewith a copy of the letter referred to
above I request that in the circumstances stated therein Government
may sanction an expenditure not exceeding Rs.17,000/- (Rupees seventeen
thousand only) towards the purchase of the machine under reference.
The original sanction for the expenditure on the purchase of this
machine was accorded in G.O.Ms.No.212 Edn., dated 28-1-1949.

The expenditure is debitable to the head "37.Edn. - University
- (d) Government Professional Colleges - B. Engineering Colleges -
(d) B.5. Workshop maintenance - Voted - Apparatus and materials for
workshops" in the Budget Estimate for 1950-51.

Yours faithfully,

for Director of Public Instruction.

KHR.30-10.

Copy of the letter referred to above.

In this office letter Rc.No.71 SK/48 dated 9-10-48, per-
mission was requested for the purchase of a 200 ton compression test-
ing machine for the S.M.Laboratory of the college under the allotment
Europe Stores to be got in India sanctioned for that year. The
firm Messrs. Avery Limited with whom an order was placed for the
supply of the machine at a cost of Rs.16350/- have delivered the same
in good condition and have billed Rs.17,000/-. An extract of para
1 of their letter dated 30-9-50 for the increased cost is herewith
submitted for favour of perusal and their explanation for the same
which works out to an increase of 4% over their original cost may
be accepted in view of the general fluctuating rise in the cost of
labour and materials. There is sufficient amount to meet the ex-
penditure in the current year under the allotment Europe Stores to
be got in India.

Orders are solicited for incurring the expenditure of Rs.17000/-
towards the cost of the machine during the current year.

Copy of the Avery Company Ltd. No.MD61 dated 30-9-50
to the Principal, College of Engineering, Guindy.

Dear Sir,

With reference to your letter of the 19th instant:
1. Avery No.71 N-compression Testing Machine, capacity 200 tons.

The reason for the difference between the amount of the bill and
the figures given in our letter of the 17th May is that that letter
was written on hearing from Birmingham of the F.O.B.cost of the
machine from which we worked out what would be the selling price and

: 2 :

advised you, since an increase seemed likely; when, however, the machine actually arrived, the amount of increase of which Birmingham advised us was not quite maintained and furthermore the actual charges in clearing and other incidental expenses connected with shipping showed a reduction over the estimated figure. We were thus able to invoice you at Rs.17,000/- instead of Rs.17,515/- although Rs.17,000/- does indeed show an increase over the quoted price of Rs.16,350/-.
