EDUCATION DEPARTMENT. ②

8 - DEC 1949

From
The Director of Public Instruction,
Madras.

To
The Secretary to Government,
Education and Public Health Department,
Fort St. George, Madras.

Sir,

Roc.No1 53-H/49 dated 5-12-1949.

Sub: Supply of Apron Coats to the personnel working in Chemistry Laboratory of Government Colleges. Sanction - Requested.

95831

I have the honour to state that the Principals of Government Colleges request ~~for~~ the supply of Apron coats to the members of the staff working in the Chemistry Laboratories of Colleges.

2. The work in the Chemistry department involves the handling of acids and other corrosive chemicals which in spite of the greatest care generally spill on one's clothes and destroy them. The work in the gas house is also injurious to the work[illegible] dress. In view of the facts explained by the Principals, I consider that it is very essential to supply a pair of Apron coats to each member of the staff including store keepers, gas man, attenders and sweepers working in the Chemistry Laboratory of each college. There are 203 members on the staff of the Chemistry Department in Government Colleges requiring the dress and at the rate of a pair of Apron Coats for each the total number comes to 406. The supply may also be permitted to be renewed once in two years. Khadi coats may be supplied.

Apron coats do not come under the list of made-up garments supplied to menials by this office. However they can be supplied on the following scale, if sanction is accorded.

Description of the menial	Particulars of clothing per head.	Period of wear.
1. Gasman 2. Attenders and 3. Sweepers working in the Chemistry Laboratory of Government Colleges.	2 Khaki khadi drill apron coats	2 years.

2. As Store keepers do not come under the category of menials, they are not eligible for the free supply of clothing.

3. I request that Director of Public Instruction, Madras, may be instructed to send a specimen Apron coat to this office urgently so as to arrive at the estimate of cloth required to stitch it and also to incorporate the same in the tender notice for tailoring during 1950-51.

In continuation of my letter Roc.No.53-H/49 dated 5-12-1949, I have the honour to state that Apron Coats may be supplied to the teaching staff and store keepers also in the Chemistry and Zoology Laboratories. In this connection, I wish to point out that in Medical Colleges, the teaching staff and the Laboratory servants are supplied with Aprons. The teaching staff and the store-keeper are always handling acids and other Corrosive chemicals which generally spill on one's clothes and damage them.

2) In the circumstances explained, it is quite necessary that apron coats may kindly be sanctioned to all the personnel recommended in my letter quoted above.

Yours faithfully,

for Director of Public Instruction.

There is no provision in the Stationery Manual for the free supply of clothing to the teaching staff and storekeepers as they do not come under the category of menials.

The Supply of Apron coats to the teaching staff and the laboratory servants in Medical colleges is not arranged by this office, presumably it is being done departmentally.

The supply of apron coats to the teaching staff and attenders is in vogue in the Madras Medical College for the past several years (since 1925) but the authority for the supply is not traceable.

As regards the agency for stitching and supplying the same, the necessary cloth was obtained from the Central Jail, Coimbatore and the work of stitching was, in the year 1947, given to Madras Tailors Co-operative Society for ex-servicemen and subsequently to private contractors.

As per G.O.No.5959-PH. MS. dated 19-12-1940, six yards of unbleached Twill/is sanctioned for each occupied bed

in the General hospital for making special linen required for the Theatres. Out of this material, Doctors Coats, Aprons operation coats, trousers, gowns, surgeon trousers vests, screens curtains are made. All stitching work is done by the hospital Tailors.

The proposal in this file is for the free supply of a pair of Khadi Apron coats ~~re~~renewable in every two years to the members of the staff working in the Chemistry and Zoology Laboratories of the Govt. Colleges. It is stated that there are 203 members on the staff of the Chemistry dept. alone ~~requ~~ requiring the dress and at the rate of a pair of apron coats for each, the total number comes to ~~Rs~~ 406. The extra cost involved in the proposal is not known. — MCF — p. 2 MCF

At present free supply of clothing is made only to menials and low paid Govt servants. As stated by the Supdt. of Sty, there is no provision ~~of~~ in the Stationery Manual for the free supply of clothing to the ~~teaching~~ staff and storekeepers as they do not come under the category of menials. It may be mentioned that several desirable proposals are being deferred on account of the present financial stringency. The DPI's attention may be drawn to the need for deferring proposals of the kind which involve addl. expre to Govt. ~~unless there is a compelling necessity for the same~~ Finance may therefore advise against the proposal. — p. 17 CF

P.T.O.

The Govt. have ordered cuts in the provision included in the current year's Budget estimates under several heads due to the difficult financial position. The proposal in this case may be deferred to better times.

If desired, the proposal may be brought forward as a Part II Scheme for 1951/52 & an estimate of the cost involved may be obtained.

The notes of Fin. above may be perused. The proposal here is for the free supply of khadi Apron coats to the personnel working in the chemistry and zoology Depts. of the Govt. colleges viz. to the teaching staff, storekeepers, gasman, attenders and sweepers. Finance suggest that in view of the need for utmost economy at present, the proposal may be deferred for better times or brought forward as a Part II scheme for 1951-'52 with an estimate of cost involved. Part II Scheme for 1951-52

The proposal is to supply free of cost a pair of Khadi apron coats renewable ~~in~~ every two years to the members of the staff working in the Chemistry and Zoology laboratories of the Govt Colleges. At present free supply of clothing is made only to menials and low paid Govt servants. There is no provision in the Stationary Manual for the free supply of clothing to those who do not come under the category of menials.

2 Finance Deptt suggested that the proposal might be deferred to better times but that if it was so desired, it might be brought forward as a Part II Scheme for 1951-52, after obtaining an estimate of the cost involved. p 4 ante

3 The DPI who was asked ~~to asked~~ to report the cost has stated that the approximate total cost amounts to Rs 6,090, the cost of an apron coat being Rs 12 to Rs 15. This estimate does not seem to be correct. The DPI has already reported that there are 203 members on the staff of the Chemistry Deptt alone requiring the dress. The cost reported by him is thus for a pair of coats for 203 members at the rate of Rs 15 per coat. The estimate therefore does not include the ~~number~~ cost of coats required for members of the Zoology Deptt. The DPI has not reported the number of members in that Deptt who are to be supplied with coats. This ~~Deptt~~ information may not be readily available in ~~this~~ his office. The Zoology Deptt has been opened only in a few Govt Colleges. It may therefore be stated that if a provision of Rs 8,000

p 33 cf

p 1 cf

203 x 2 x 15 = Rs 6,090.

B

B

is made in the B.E., the needs of members of the staff in both the Chemistry and the Zoology Deptts may perhaps be met.

4. The DPI has stated that necessary provision needs to be made in the Stationary Manual for the supply of apron coats to all those who work in the laboratories and that if the S of S cannot arrange for the supply of coats, the Principals of the Colleges may be permitted to meet the expense from the provision under "Contingencies." The S of S who was consulted states that the necessary number of coats can be stitched and supplied by his office but that their supply to the superior Govt servants, including Store-keepers, is a new one and if sanctioned by the Govt, will be a deviation from the policy so far followed in supplying uniforms only to low paid Govt servants. p 15 cf

5. Since the supply of apron coats to the teaching staff and attenders in the Medical Colleges has been in vogue for the past several years, similar supply of apron coats to all those working in the laboratories of Govt Arts colleges seem justifiable and the Principals of the Colleges may be permitted to meet the expenditure from the provision under contingencies. This need not be incorporated in the Stationary Manual. p 29 cf

Part II Scheme for 1951-52

Free supply of Khadi apron coats to the members of the staff working in the Chemistry and Zoology Laboratories of the Government Colleges- Provision of Rs 8,000.

....

The D.P.I. has submitted a proposal for the free supply of a pair of Khadi apron coats renewable every two years, to the members of the staff working in the Chemistry and Zoology Laboratories of the Government Colleges. The extra cost involved in the proposal has been estimated at Rs 8,000 (for every 2 years). The D.P.I. states that the work in the laboratories involves the handling of acids and other corrosive chemicals which in spite of the greatest care generally spill on one's clothes and destroy them. He therefore considers that it is very essential to supply a pair of apron coats to each member of the staff including store keepers, gasman, attenders and sweepers working in the laboratories of each college. As the supply of apron coats to the teaching staff and attenders in the Medical colleges has been in vogue for the past several years, Education consider that similar supply of apron coats to those working in the laboratories of Government Arts Colleges is justifiable.

pp. 1+7 CF

B on pp. 6-7 above.

p. 1 CF

It seems that the laboratory work in the Medical Colleges cannot be compared with that in the other colleges. The fact that the laboratory staff of Govt. Arts Colleges has not been supplied with aprons all these years shows that there is no real need for them. In any case, the proposal cannot be considered to be imperatively essential (for the proper running of Govt Arts Colleges). Finance may therefore suggest that the proposal be deferred. ~~[illegible]~~

This Dept. suggested that the proposal of the D.P.I. for the free supply of a pair of Khadi apron coats renewable every two years to the members of the staff working in the Chemistry and Zoology Laboratories of the Govt. Colleges may be considered as a Part-II Scheme for 1951-52. (The extra cost is Rs 8000 for every two years.) Finance, suggest that the proposal may be deferred.

The file may be circulated to H.M. (Edn) for orders (whether the suggestion of Finance may be accepted.
