No. 111(21)/B-49
GOVERNMENT OF INDIA
DEPARTMENT OF SCIENTIFIC RESEARCH

New Delhi, the 1st December, 1950.

OFFICE MEMORANDUM

Indian
Sub:- Employment of Scientists for non-scientific
purposes outside India.

The undersigned is directed to say that the question of conservation and proper utilization of the Scientific Manpower of India and the methods to be adopted to see that no Scientists are sent away for non-scientific purposes or for employment outside India has been engaging the attention of the Government of India for some time. While it is recognized that there may be difficulties in placing all Scientists in appointments for which they are specially qualified, the Government of India feel that a beginning should be made to bring this about, and as a rule Scientists in the service of Government, should not be sent abroad on duties which could be performed equally well by others. In cases where it is necessary and in the public interest to employ a Scientist on non-scientific work or to send him abroad on non-scientific duties, this Department should be consulted, as it can take the advice of the Advisory Committee for Co-ordinating Scientific work in such cases as may be necessary.

The term 'Scientist' for this purpose may be taken to mean as 'a person who has completed a recognised course of training in scientific or technological subjects and is engaged either in research or in educational activities in his field or in professional work, or is employed in an administrative capacity in a Scientific or Technical Department.'

T. W. P. Alves
(T. Gonsalves)
OFFICER ON SPECIAL DUTY.
