Have we received this &

7th Octr. 1950.
Dear Sri Madhava Menon,

With reference to our conversation the other day at the Vani Vastre, I write to say that our letter appealing for the reversion of the Half Grant in respect of the Sarada Vidyalaya High School Building, was despatched on 10-8-1950 through the Inspectress. It bears Rc. No. A/29/49.

Kindly forgive me.

With my best regards,

I remain,
Yours sincerely,

To
The Hon'ble
Sri K. Madhava Menon,
Minister for Education,
Government House Estate,

Reus. No. 31935 B/50-1 Edn. d/14.10.50.

The Secretary Ramakrishna Mission Students
Home, Mysore, has reported that an application has
been made through the Inspector on 10.8.50 bearing
RC. no A/29/49 for the reversion to the half grant
in respect of the Sarada Vidyalaya High School building
for which a grant was sanctioned in G.O. no 2406 Son
225-7-49. The Director of Public Instruction is
requested to state whether it has been received ^{in his office} ~~at~~
so at what stage the matter now is. He is requested
to forward it with his recommendations ^{as early as}

R.C.No. A-29 /49

Dated 10th. August 1950.

From

Rao Bahadur Dr. S. Ramakrishnan,
Correspondent,
Sri R.K.M. Sarada Vidyalaya Girls' High School,
Thyagarayanagar, MADRAS.

To

The Secretary to Government of Madras,
Education,
Fort St. George, MADRAS.

Thro'

The Inspectress of Girls' Schools,
Third Circle, MADRAS

And
The Director of Public Instruction,
MADRAS.

Sir,

Subject:- Building Grant- Sri Sarada Vidyalaya Girls'
High School, Thyagarayanagar- Restoration of half grant-
Prayed for.

I beg to request that the question of grant in respect
of the construction of buildings for the Sarada Vidyalaya
Girls' High School, Thyagarayanagar, may be re-opened in
the circumstances stated below:-

2. The last order on the subject was G.O.No. 147 Edn.
dated 21-1-1949 (D.P.I's Proceedings R.C.No. 661 D/46 dated
7-3-1949), and it sanctioned a grant of Rs. 35,000/- towards
a scheme costing Rs. 1,53,000/- which itself was, in magni-
tude and value, only a third of the scheme originally con-
templated.

3. The provision of pucca buildings for the institution
has been incubating for the last ten years. Thyagarayanagar
being a new suburb of the city, educational and other ame-
nities had to be provided newly; and the Ramakrishna Mission
had to step in at the insistent request of the people of
the locality. A small mixed school opened in 1932 has now
developed into a network of ten institutions, including
(on) the girls section a full fledged High School, a Training

4

School of the Secondary Grade with Model and Montessori Sections and a Higher Elementary School as its component parts. The Training School which makes teachers of destitute widows is an outstanding charity. The Mission, having no fluid cash not earmarked for a particular purpose, had to depend upon public generosity for the starting, development and maintenance of its institutions. While the amount it has to find annually for the upkeep of its free schools and Hostels in the city comes upto one lakh of rupees, the amount needed for capital expenditure is much more, as most of the institutions have not stepped out of the formative stage. Any problem confronting the Mission in respect of its institutions, has therefore to be viewed with this background.

4. The development of the Sarada Vidyalaya at Thyagarayanagar as a separate set of institutions for girls was phenomenal. While we had to provide for only 100 girls in 1932, we are now called upon to be in charge of the education of over 2700 girls in that locality. The beginning of every year saw the large influx of pupils seeking admission leaving the Management little time to consider and consolidate and no opportunity to apply for Government aid also. Temporary sheds had to be erected then and there to accommodate the increasing numbers; and the expenditure incurred in that direction amounted to nearly Rs. 40,000/-. The resources of the Management are meagre and threaten to dwindle, but the responsibility is great and increasing. Though these sheds served their immediate purpose, they have since deteriorated completely, demanding replacement imperatively.

5. A comprehensive scheme for a pucca building with 36 class rooms to accommodate both the High School and the Training classes with the Hostels was prepared and submitted in April 1940. It was estimated to cost Rs. 1,62,000/-.

5

The plans and estimates were scrutinised by the P.W.D. and the scheme went through all its stages regularly as indicated below:-

Scheme was submitted to the Department on the 28th. April 1940.

Foundation Stone was laid by H.H. Swami Madhavananda, General Secretary of the Ramakrishna Mission, on 10th. May 1940, with the permission of the Director of Public Instruction.

Thereafter references were made by the Director on 1-8-40, 7-8-41 and 8-8-41 in respect of site plan, assurance regarding admission to the Hostel, the programme of expenditure etc.

The scheme was placed in the approved list, rendering it eligible for grant, on 16-6-1941.

Tenders were called for on 30-9-1941 and opened on 3-10-41.

Approval was sought for accepting the lowest tender on 15-10-41.

The Director subsequently thought that the estimates needed revision with reference to the Chief Engineer's remarks and the non-availability of steel, cement etc. estimates. The revised ~~estimates~~ were called for on 10-11-41 and were submitted on 26-11-41.

The revised scheme was again placed in the list of approved works (eligible for grants) on 2-2-42, and calling of fresh tenders was directed by the Department.

In G.O. No. 653 Education, dated 5-5-42, the Government sanctioned a grant not exceeding one half of actual cost of the scheme subject to a maximum limit of Rs. 78,350/-.

P
not received
Shortly after, conditions changed quickly on account of the war, essential materials for building like timber, cement and iron becoming absolutely unavailable. We asked for instructions from the Director as to what we should do. In the Director's Proceedings dated 21-7-42, we were informed that the scheme would be kept in the approved list till 1945; we were also permitted to keep the scheme in abeyance till then.

(F)/M/14-154
Immediately after the Government sanction of the 5th. May 1942, application was made to the Corporation for licence to build and the required fees were paid and the permit obtained.

K
vide item 1 of Part II on P 5 of (J)
not received
As soon as the period of abeyance of the scheme was over, the estimates were revised with reference to the then prevailing rates which had gone up enormously. The total cost then rose from Rs. 1,66,834/- to Rs. 3,23,450/-.

In his Proceedings dated 19-9-46 (R.C.No. 3827-D2), The D.P.I. stated that he had sought the orders of the Government to permit the Management to begin the construction and enquired whether the Management could proceed with the work using only controlled building materials and complete it and claim the grant before the end of 1947-48. He was informed that if the scrutiny of the revised estimate by the P.W.D. was favourable, we would be willing to begin the work immediately, but that it was impossible to finish the work before the close of the year 1947-48 and that we would undertake it only if proportionate grant would be sanctioned for the work turned out upto the end of 1947-48.

not received
In his Proceedings, dated 22-2-1947, the Director informed us that the Government were deferring sanction to the

-3-
estimate pending issue of cheap type designs for Secondary Schools. Later in G.O. No. 391, dated 28-2-1948, the Government promised a grant of only Rs. 30,000/- against the estimate of Rs. 3,23,450/-. The grant promised being very low and the Management not being in a position to find the whole of the balance, we had to confine ourselves to a portion of the scheme, building only the ground floor. Even this was estimated to cost Rs. 1,53,000/- and it was submitted to the D.P.I. on 10-9-1948.

In G.O. No. 147 Education, dated 21-1-49, the Government sanctioned a grant of Rs. 35,000/- on this portion of the scheme. With the amount with which we originally contemplated to put through the full scheme, we are now in a position to carry out only a portion of it.

Even to carry out this part scheme, the Mission is not in a position to find the balance amount required. The construction has been started and is proceeding rapidly; for, the work cannot be postponed. As has been pointed out before, the sheds haphazardly constructed, as occasion needed, have all been damaged, imperatively requiring replacement.

7. It will thus be seen that the scheme for the construction of buildings for the Sarada Vidyalaya has been under consideration from 1940 and had twice been placed in the approved list and half grant sanctioned by the Government. The amount needed at present for the construction of the 15 class rooms (over and above the Government grant) cannot all be found by the Management. They have to borrow money on payment of interest and there are not easy facilities for repaying it. Public Contributions are not readily forthcoming. The Management has already to beg incessantly for maintaining the orphanage, the Ramakrishna Mission

Item 9 on p. 14 of (F)

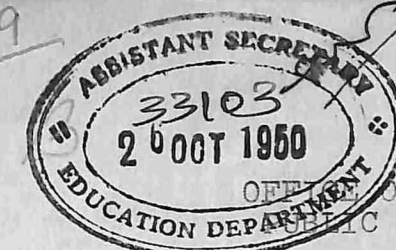

R.

8-6-
students' Home and for maintaining the Training School and hostel chiefly intended for destitute widows. And it is not possible to persuade people to pay in addition to their annual help, money for capital expenditure. The days are very hard. We therefore pray that the new rule of limiting grant to a maximum of Rs. 35,000/- be not applied to this case. A half grant was sanctioned very much earlier than the promulgation of the new rule limiting the grants. We appeal to the Government with all the earnestness we can command, to exempt this case from the operation of the new rule and revive the original order sanctioning a half grant.

I may be permitted to mention that in the case of the Ramakrishna Mission Boys' School at Thyagarayanagar a similar trouble arose. The grant for its school building which was originally fixed at half the estimated cost was under the operation of a new policy subsequently reduced to one-fourth, confining the grant to Rs. 38,353/- as against the estimated cost of Rs. 1,67,170/-. An appeal was made for the restoration of the half grant as the construction had proceeded on the strength of the originally promised grant. The previous (British) Government generously restored the half grant. A similar generous gesture will give a much needed relief to the Sarada Vidyalaya and minimise the load of loan which will otherwise be weighing it down.

S. Panikshian
CORRESPONDENT.

R.C.No.661 D2/46.
Dated 17-10-50.

Sub:-Grant--Building--Sri Sarada Vidyalaya Girls High School, T'Nagar--Construction of building--enhanced grant--claimed.

Ref:-1. Letter Rc.No.A.No.A.29/49 dt.10/8/50 from The Correspondent Sri R.K.M. Sarada Vidyalaya Girls' High School, T'Nagar.

Submitted.

2. Government in their order No.391 Edn. dt.28/2/48, sanctioned the inclusion in the list of approved works, of the scheme for the construction of a building for the High School and the training section and for a Hostel for Sri Sarada Vidyalaya Girls High School T'Nagar at an estimated cost of Rs.3.23.450/- rendering the institution eligible for a grant not exceeding Rs.30,000/- But the management did not proceed with the scheme, as the grant promised was low and as they were not in a position to meet their large share of the cost.

3. Subsequently the management submitted a revised scheme for the construction of a building to meet the immediate needs of only the High School Department. Costing about Rs.1.53.250/- as against the original cost estimated at Rs.3.23.450/- This scheme, after revision, has been treated as a fresh one and Government in their order No. Ms.147 Edn. dt.21-1-49 sanctioned the inclusion in the approved list of the revised scheme rendering the institution eligible for a grant not exceeding Rs.35,000/- the maximum admissible for secondary schools. The scheme was actually started only in 1949. An advance grant of Rs.25,000/- has been paid so far.

4. Though the application for building grant for the High School, the Training School and for a hostel was made in 1940 and the scheme at an estimated cost of Rs.1.66.834/- was placed in the approved list in March 42, the scheme was not started for the reasons explained in the Director's letter C.3827 D2/46 dt.19/8/46. The scheme approved in G.O.No.Ms.No.391 Edn. dt.28-2-48 was not executed. The scheme for the High School alone approved in G.O.No.Ms.147 Edn. dt.21-1-49 is under execution.

5. The claim for half grant on the scheme merely because the application for building grant was made in 1940, is not tenable, when a revised scheme for the High School block alone has been started in 1949- The management have started the building scheme under execution after knowing definitely that the grant would not exceed Rs.25,000/- In the circumstances there is no justification for complying with the request for half grant towards the cost of construction of a building for the girls' High School.

6. The analogy of the Boys' High School, cited in the concluding para of the correspondent's letter, is not correct. The building grant for that school was sanctioned before the maximum grant was fixed at Rs.35,000/- vide G.Os.Ms.1352 Edn. dt. 22-6-47, No.433 Edn. dt. 28-2-46 and Ms.No.131 Edn. dt. 28-1-47.

For Director of Public Instruction.

10th Nov. 1950

11 NOV 1950

Dear Sri Madhava Menon, 18/11

You may remember my appealing to you for the restoration of the half grant originally promised in respect of our Sarada Vidyalaya building in Thyagarayanagar. The formal representation in this matter which we have made must now be under the consideration of Government.

14-3-8ante
2 As explained in our official letter, the work was imperatively urgent and could not be put off and to complete the work funds have to be borrowed. Fee income cannot be made use of for purposes of this kind and private benefactions are not forthcoming. The Mission has no funds which could be diverted for this. The School is one of the biggest and most popular one. I therefore implore you to secure the help which we now seek at your hands.

With my best regards,

Yours sincerely,

Ramanujachari

To
The Hon'ble Sri K. Madhava Menon,
Minister for Education,
Secretariat,
Fort St. George,
Madras.

THE RAMAKRISHNA MISSION STUDENTS' HOME
MADRAS

As explained in my letter of 28/12/50, the request for a half grant towards the cost of construction of a building for the school, instead of limiting the grant to Rs 35,000/- as admissible under the existing rules, is being considered by the Government. The request is being considered by the Government and the result will be communicated to you as soon as it is decided.

Yours sincerely,

The Hon'ble Mr. V. V. Srinivasulu
Minister for Education,
Government of Madras,
Madras.

[Issued as Memo No 31935 B/50-1 Edn d/14.10.50]

From the correspondent of the Sri Sarada Vidyalyaya

Girls' High School, Thyagarayanagar Re.M.A.29/49 d/10.8.50.

C.No. 33103. From the D.P.G. Re.No. 661 B2/46 d/17.10.50

The D.P.G. has forwarded the application from the management of the Sri Sarada Vidyalyaya, Thyagarayanagar for the payment of a grant towards one half of the cost of construction of a storeyed building for the school, instead of limiting the grant to a maximum of Rs 35,000/-

2. As early as in 1941, the management submitted a scheme for the construction of buildings to provide accommodation for the high and training schools and for the hostels. The scheme was placed in the list of approved works by the D.P.G. at an estimated cost of Rs 1,56,700/- and a grant towards one half of the cost, ~~as was the practice prevailing in those days~~, was sanctioned in G.O.M. 633 Edn d/5.5.42. However for want of essential building materials, the management were forced to postpone the question of taking up the 'P' on p6 of construction till 1946 by which time it was found that the estimated cost of the scheme had shot up to Rs 3,23,450/. Because of the ~~wide disparity~~ ^{large increase} in the estimated cost, the management was asked to defer the scheme till a decision was reached on the question of adoption of cheap type designs for secondary schools. However as the school was in urgent need of accommodation, the scheme was again included in the list of approved works rendering it eligible for a grant not exceeding Rs 30,000/- the ~~revised~~ maximum limit of grant admissible for any building scheme. As the management could not proceed with this scheme with a grant of Rs 30,000/- only, they submitted a revised scheme to meet the immediate needs of the high school at ^{cost of} Rs 1,53,250/. The Govt. sanctioned the inclusion of the revised scheme in the approved list rendering it eligible for a grant ^{not} exceeding Rs 25,000, the revised maximum limit for building

grants. It is reported that the scheme is in progress and that a grant of Rs 25,000/- has ~~already~~ been paid so far.

3. The management has now claimed a half grant for this scheme on the ground that the original scheme which could not be taken up for want of building materials, was sanctioned a half grant in 1942. They also state that as the financial position of the school is not satisfactory, it will not be possible for them to meet their share of the cost of construction of the building viz Rs 1,18,250/. They have pointed out that a similar half grant was sanctioned in respect of the scheme for the construction of buildings for the Ramakrishna Mission Boys' School, Thyagarayanagar. The D.P.G. however does not recommend this claim for a half grant. He has pointed out that the scheme now in progress is quite different from the one which the management wanted to take up in 1942 and later in 1946. He has further stated that the management commenced the scheme after fully knowing that the grant would be limited to Rs 35,000/. The Director considers that there is no similarity between the present case and that of the Ramakrishna Boys' High School, Thyagarayanagar as the building grant for the latter school was sanctioned ~~by~~ before any maximum limit was imposed. In the circumstances explained by the D.P.G. ~~his contention~~ that the claim for a half grant in the present case is not tenable. ~~may be accepted particularly if a half grant is sanctioned as a special case~~ ^{but} will create an inconvenient precedent and ~~and~~ it will be difficult to resist such requests from other managements similarly placed.

4. The file may be sent to Finance U.O for remarks prior to circulation.

3/11/50
11/11/50

Finance may agree with Edn that the request of the management of the J.V. Girls High School, Thyagarayanagar need not be considered.

11/11/50 Edn

Edn. (B)

The file deals with the request of the management of the Sri Sarada Vidyalaya Girls' High School, Thyagarayanagar, for the payment of a half grant towards the cost of construction of a storeyed building for the school, instead of limiting the grant to Rs 35,000/- as admissible under the existing orders. The case is set out in the note of this Deptt at pp 2-3 ante. The D.P.G. has explained that the request for a half grant is not tenable. In the circumstances explained by the Director, it is considered that it is not necessary to comply with the request of the management. The Finance Deptt. have agreed with this.

2. The file may be circulated to H.M. (E&L), for orders with reference to his minutes on p1ef and p11ef for orders whether the request of the management of the Sarada Vidyalaya Girls High School, Thyagarayanagar, for a half grant may be negatived.

'K' on p6ef

note remarks of the D.P.G. against item 1 of Part II on p5 of (F)

Item 6 on p10 of (F)

para 2 on p1 of (F)

With reference to the query of H.M. (E&L) above it is submitted that a grant towards one half of the cost of construction of buildings for the Sarada Vidyalaya Girls' High School, Thyagarayanagar, in G.O. No. 653 Edn d/5-5-42, according to the policy then in vogue. For want of essential building materials the management had to postpone the question of taking up the construction till 1946 by which time it was found that due to the inflation of prices and wages, the cost of the scheme which was estimated at Rs 1,56,700/- in 1942 had shot up to Rs 3,23,450/-. In view of this large increase in the cost, the management was asked to defer the scheme till a decision was reached on the question of cheap type designs for buildings for secondary schools. However as the school was in urgent need of accommodation the scheme was included in the list of approved works in G.O. No. 391 Edn d/28-2-48. But the grant admissible to the scheme was limited to Rs 30,000/-, the maximum limit which was allowed to any building scheme for secondary schools. In view of the smallness of the fort. grant, the

6/12

management could not undertake the execution of this costly scheme. They therefore submitted a modest estimate to meet the immediate requirements of the school. The revised scheme was placed in the approved list at an estimated cost of Rs 1,53,250/- rendering it eligible for a grant of Rs 35,000/- the revised maximum limit. It is reported that the scheme is now in progress and that a grant of Rs 25,000/- has been paid so far.

2. In regard to the present request of the management for a half grant towards the cost of construction of the buildings immediately for the school, the D.P.G. has stated that the request is not tenable as the scheme under execution is different from the one for which a half grant was sanctioned in 1942. He has pointed out that the management launched on the present scheme after knowing that the grant ^{under} be limited to Rs 35,000/- only. It may, however, be submitted that the scheme for the construction of a building for the school for which a half grant was sanctioned ^(in 1942) could not be taken up due to scarcity of essential building materials. Subsequently when the management was promised a grant of Rs 30,000/- towards the same scheme, it had to abandon the scheme on account of the smallness of the grant and take up a less ambitious scheme. In the circumstances it may be stated that the management was ^{originally promised} a half grant (in 1942) for the construction of a building and that due to the various factors stated above, it was forced to execute a less costly scheme.

3. The file may be circulated to H.M. (E&L) with reference to his minutes at p.5 ante for orders whether the request for half grant should be complied with.

H.M. (Fin) may consider above

Please see the orders in circulation on p.6 ante on the request of the management of the Sarada Vidyalaya girls High School, Thyagarayanagar for a half grant towards the scheme for the construction of a building at a cost of Rs 1,53,200/- The scheme has already been admitted to aid and it is reported that a grant of Rs 25,000/- has been paid so far. In view of this it does not seem necessary to treat the proposal for ^{the} enhancement of the maximum grant due to the scheme in connection with the Part II of B.E. for 1951-52. Necessary provision on this account may be made in Part I of the B.E. for 1951-52. Finance may be requested to state whether the position set out above is correct.

Finance (B.E.I)

The notes and the orders in circulation on pp.5-7 above may be perused.

The orders of H.M. (Fin) seem to be that no special treatment need be shown to the institution in view of A on p.6 above, i.e., the maximum grant will ^{remain} be at Rs 35,000. As a grant of Rs 25,000 has already been paid to the institution, the balance amount payable will therefore be only Rs 10,000, and this may be paid in the current year, if claimed. No provision will be necessary in 1951-2 as Part I or Part II.
