Roc.No.183-K2/46 dated 21-12-1949.

Sub: Arthur Hope College of Technology, Coimbatore
Shifting to new premises.

In enclosing herewith copies of letters C.No.191-A/49 dated 27-10-1949 dated 15-12-1949 from the Principal, Arthur Hope College of Technology, Coimbatore, I request that Government may kindly sanction the incurring of the expenditure on items 1 to 5 mentioned in the letter dated 27-10-1949. The request of the Principal in paragraph 2 of his letter dated 15-12-1949 to meet the expenditure from the existing provision may be agreed to.

2) In item 6 of his letter provision has been made for the payment of special remuneration to the staff who will be engaged in shifting the machinery from the present building to the new premises. I consider that the grant of such special remuneration is objectionable on principle and I am therefore unable to recommend it. I would however invite attention to the statement in paragraph 5 of the letter dated 27-10-1949 wherein the Honorable Minister, Public Works Department is reported to have recognised the grant of special remuneration as reasonable and legitimate. Government may kindly decide this question.

Yours faithfully,

for Director of Public Instruction.

BR. 21-12.

Copy of Letter C.No.191-A/49 dated 27-10-1949 of the Principal, Arthur Hope College of Technology, Coimbatore, Peelamedu, Po., to the Director of Public Instruction, Madras.

I invite a reference to letter from the Secretary to the Government, of Madras, Education and Public Health Department, Madras No.40481-6/49 dated 21-7-1949 to the Registrar, University of Madras, wherein the Government have indicated the arrangements for the shifting of this college to the new premises under construction in the Agricultural College and the Forest College Estates. It is stated in the above that the entire college equipment and machinery will be transported and re-erected at the new site during the summer vacation in time to enable the college to function in the new premises by July 1950. In order to keep up the above programme of Government, I consider that more concentrated attention to the arrangements for shifting and re-erection of the entire equipment in their respective laboratories and workshops, etc. is to be given even from now. This work of layout, erection and building up of the laboratories occurs once in the life time of a college and it will have the effect of making or marring the future of the college. As such, this important work should not be left to be done in a hurry till the last moment such as the Summer Vacation when the entire college staff will be anxiously looking for the annual rest period after strenuous work during the sessions.

2) The equipment consists entirely of costly precision machinery, which cannot be handled by outside contractors. The total weight of equipment and machinery involved is about 130 tons, besides, furniture, library, stores etc. all of which work out to approximately 150 truck loads as detailed in Enclosure (1). The time required for dismantling and transporting alone is worked out at 45 working days or 2 months including holidays and sundays.

3) Further, even before the machines and equipment can be shifted from the present premises, a considerable lot of initial work has to be carried out at the new place, such as:

- Providing concrete foundations;
- Constructing water ways; ducts and passages etc.
- Constructing overhead tanks, low level tanks, stagings, platforms, etc.
- Laying of waterpipes hydraulic power pipes, steam pipes, gas pipes, etc with all the necessary stagings, fixtures etc.
- Providing electrical installations for lighting as well as power with all the necessary connecting individual machines and equipment, etc., etc.
- Installing Gas Producers, Gas Tanks and pipe lines. etc., etc.

It is essential that all this work should be done simultaneously with the Public Works Department, as otherwise, it will mean breaking up the floors, walls, etc. involving wastage and delays which will have the effect of hampering the shifting of the college. It is expected that the construction work now being carried out by the Public Works Department would by January 1950 come to a stage when the side walls and roofing will be sufficiently ready so that thereafter the college staff can work in co-ordination with the Public Works Department.

4) In this connection, I wish to bring to your notice that the Advisory Committee of this college, in their recent meeting, has indicated;

"The Committee feels that in order to enable the staff of the College to have the costly and heavy precision machines and equipment shifted from its present premises and re-erected at the new site, the Public Works Department should expedite the completion of the sheds much earlier than April 1950 i.e., 15th January 1950. The Committee further feels that in order to expedite the removal and erection of these machinery all facilities should be provided by Government for the transport and re-erection and if necessary additional staff may be employed. If this work is expedited, Government stands to gain over half a lakh of rupees each year which they are paying by way of rent. Otherwise, in the opinion of the Committee, the payment of this huge amount will be a waste of public funds".

5) Considering all these circumstances, I feel it necessary to place the entire college staff from 1st January 1950 on special duty of dismantling, transporting and re-erecting the equipment at the new premises as well as build up all the laboratories and workshops. As the nature of the work involved is special and not forming part of their normal duties, I recommend that some additional remuneration of 20 to 25% of salary may P.T.O.

may be granted. During the recent inspection visit of the Honourable Minister Sri M. Bhaktavatsalam to the new college premises, he had recognised this as reasonable and legitimate, and wanted it to be specially pointed out that such remuneration should not be considered as additional expenditure but should be set off as savings in the rent that Government will be paying to the Argus Engineering Company @ Rs.3,750/- per mensem if the shifting of the College is delayed. I request, therefore, that commencing from 1st January 1950 all existing staff may be treated as on special duty connected with shifting of the College and an extra remuneration not exceeding 2 months' rent (Rs.7,500) now paid to the Argus Engineering Company be sanctioned for the 6 months from January 1950 to June 1950.

It would be possible for the staff to commence work connected with the shifting of the College from 1st January 1950 as we have already been working part of mid-term holidays in addition to part of Christmas holidays yet to come. These have been prearranged, so as to enable the staff to do the extra work without detriment to normal teaching work.

In addition to the above, I estimate the following as the approximate cost involved in dismantling, transporting and re-erecting the classes, laboratories and workshops at the new premises.

(1) Total cost of dismantling, loading and unloading at site for 150 truck loads (3 - 4 ton trucks) @ Rs.100/- per truck load, at railway contractors rate.	Rs.15,000
(2) Miscellaneous charges for appliances, lifting tackle and labour.	1,500
(3) Cost of providing concrete foundations for boiler engines and machinery.	3,000
(4) Electrical fittings, wire conduits, electric cables, etc.	4,000 1,500
(5) Unforeseen expenditure.	
(6) Special remuneration to staff on special duty subject to a maximum of 2 months' rent for the existing premises.	7,500
Total	Rs. 32,500

I request that necessary sanction may be obtained.

Summary of Rough Estimate of Tonnage, time and cost involved in Dismantling Transport and unloading at Agricultural college site the equipment, machinery and furniture of the Arthur Hope College of Technology, Coimbatore, now located at Peelamedu.

	Machine Shop.	Foundry & Auto Shop.	Carpentry Shop.	Mech. Lab. Hydr. Lab. S.M. Lab.	Survey Electric Lab.	Library & Electric Lab. and office furniture	Total.
Tonnage	40	24	18	40	10	47	111
Truck Loads.	14	8	18	14	810	1800	7150
Man Hours	1840	760	780	1200	4	9	35
No. of days.	8	4	4	6	240	540	2100
Labour cost.	480	240	240	360	1000	4700	11100
Transport	1400	800	1800	1400	1240	5840	13200
Total cost	1880	1040	2040	1760	21	21	
TRUCKS per day	1 1/2	1 1/2	4 1/2	2 1/2	2 1/2	5 2/9	3 Average.

Basis of calculation:
Total labour 30 persons @ Rs.2/- per head per day (Railway contractor's rate)
charge per truck trip. Rs.100/-

A

p.t.o.

Adding 25% to above estimate:

Total truck loads (approximate)	= 150 Trucks.
Total number of days.	= 45 working days.
Total cost for dis-mantling & unloading at site.	Rs.15,000
Miscellaneous charges for appliances lifting, tackle, labour etc.	1,500
Total.	16,500

Total working days involved in dismantling, transporting and unloading at site = 45 continuous working days & e., 61 days or two months approx.
Total tonnage of machinery and equipment excluding furniture = 104 tons.
Total cubic content of furniture and similar equipment to be removed = 18000 c.ft.

No. of lorry loads of truck loads involved (in standard 3-4 ton truck) = 150
Average number of trucks working per day = 3
Total cost in dismantling, loading and unloading at site at Railway contractor's rate @ Rs.100/- per truck load and Miscellaneous lifting, tackle & labour charges. 16,500 Rs. approx.

The above do not include the Hostel furniture and Kitchen utensils.
The above also do not include additional machinery (worth about Rs.4 to 5 lakhs) expected to be received hereafter estimated say at 10 pm to 12 truck loads. This has got to be further provided.

Copy of Letter Rc.No.191-A/49 dated 15-12-1949 from the Principal, Arthur Hope College of Technology, Coimbatore to the Director of Public Instruction, Madras.

Sub: Proposals for shifting the Arthur Hope College of Technology, Coimbatore, to the new buildings.

I invite your kind attention to my letter C.No.191-A/49 dated 27-10-1949 wherein I had put up proposals for the shifting of the college together with its equipment etc., during the months of April, May and June 1950, after getting all the preliminary work done in conjunction with the P.W.D. from January 1950.

Since writing the above, the progress made by the P.W.D. has been such as to enable to start on the work of shifting even from January 1950. I had indicated that the greater part of the College staff will also be free from routine work since arrangements have been made to cover the syllabus and requirements of the University Examinations by foregoing part of the Michaelmas Holidays and postponing the Christmas Holidays by a week. A few members of staff will, however, be busy in connection with the annual Survey, Camp, project work, Inspection Tours, etc. for the II, III, and IV year classes. But these members will be available from February onwards for the shifting work.

The Municipal Council, Coimbatore, at a meeting held on 16-11-49, has agreed to supply drinking water to a maximum of 2,000 gallons per day from hydrants in lorries to be provided by the College at the rate of Rs.2/- per 500 gallons subject to government approval when the College shifts to its new buildings in the Forest College Estate. Under these circumstances, it will be possible to effect the transfer of this college to its new buildings during the months of January, February and March 1950. if Government will issue the necessary sanctions and allot funds. By this process, government will be in a position to effect a saving of 3 months' rent to the Argus Engineering Co. viz., 3 x 3,750 = Rs.11,250. Of course, the work of erection of the machinery and equipment in the new premises will have to be carried on beyond March 1950 during vacation but this work need not entail our detention of the present premises of Argus Engineering Co., beyond 1st April 1950.

Regarding the financial expenditure involved my proposals stand as stated in my letter C.No.191-A/49 dated 27-10-1949. However, the funds required can be made available from existing Budget Grant for the p.t.o.

Adding Rs. to above estimate:
Total truck loads (approximate) = 150 trucks
Total number of days = 45 working days
Total cost for dismantling & re-erecting at site = 1,10,000
Miscellaneous charges for appliances, fitting, tackle, labour etc. = 1,000
Total = 1,11,000

Total working days involved in dismantling, transporting and unloading at site = 45 continuous working days i.e., 90 days or two months approx.
Total tonnage of machinery and equipment including furniture = 104 tons.
Total cubic content of furniture and similar equipment to be removed = 18000 c.ft.
No. of heavy loads of truck loads involved (in standard 3-4 ton truck) = 150
Average number of trucks working per day = 3
Total cost in dismantling, loading and unloading at site at railway contractor's rate @ Rs.100/- per truck load and miscellaneous fitting, tackle & labour charges = 16,500 Rs. approx.

The above do not include the cost of furniture and kitchen fittings. The above also do not include additional machinery (such as crane, etc.) expected to be received before the work is completed. This has not to be further provided.

Copy of letter No. 191-A/49 dated 18-12-1949 from the Principal, Arthur Hope College of Technology, Coimbatore to the Director of Public Instruction, Madras.
3. The proposals for shifting the Arthur Hope College of Technology, Coimbatore, to the new buildings.

I invite your kind attention to my letter No. 191-A/49 dated 27-10-1949 wherein I had put up proposals for the shifting of the college together with its equipment etc., during the months of April, May and June 1950, after getting all the preliminary work done in connection with the P.W.D. from January 1950.

Since shifting the above, the progress made by the P.W.D. has been such as to enable to start on the work of shifting even from January 1950. I had indicated that the greater part of the College staff will also be free from routine work since arrangements have been made to cover the syllabus and requirements of the University examinations by foregoing part of the Christmas holidays and postponing the Christmas holidays by a week. A few members of staff will, however, be busy in connection with the annual survey, camp, project work, inspection tours, etc. for the II, III, and IV year classes. But these members will be available from February onwards for the shifting work.

The Municipal Council, Coimbatore, at a meeting held on 16-11-49 has agreed to supply drinking water to a maximum of 2,000 gallons per day from hydrants in four to be provided by the College at the rate of Rs. 2/- per 500 gallons subject to government approval when the College shifts to its new buildings. It will be possible to effect the transfer of this college to the new buildings by effecting the transfer of the staff and equipment to the new buildings during the month of January, February and March 1950. If Government will issue a sanction for the shifting of the college, the Government will be in a position to effect the transfer of the college to the new buildings during the month of January, February and March 1950. At present, the work of shifting of the college is being carried out by the P.W.D. and the College staff. The P.W.D. has been engaged in the work of shifting of the college since January 1950. The College staff has been engaged in the work of shifting of the college since January 1950. The P.W.D. has been engaged in the work of shifting of the college since January 1950. The College staff has been engaged in the work of shifting of the college since January 1950.

Budget Grant for the year 1949-50 without further allotment as certain items of machinery ordered will not be delivered before March 1950. Provision should, however, be made in the next financial year for work connected with the building up of concrete and brickwork foundations for boilers, engines and machinery as well as electrical fittings work, conduits, etc. for the machines. For this, an amount of Rs.8,000 is estimated.

Summing up, I request:

K (1) Government may approve the shifting of the College to be undertaken in the months of January, February and March 1950 thus relinquishing the present rented premises of the Angus Engineering Co., by 1st April 1950 and thereby saving to government 3 months' rent.

(2) Approval and sanction of expenditure connected with shifting and re-erection of the entire equipment, machinery, furniture etc., as detailed, namely Rs.32,500/-

(3) Approval for meeting Rs.24,500 out of above sum from budget grant already available for 1949-50.

(4) Provision of a sum of Rs.8,000 in the next financial year 1950-51, for erection of machinery, providing concrete foundations, electrical fittings, etc.

N The above proposals necessarily involve very hard and intensive work on the part of the entire college staff. Nevertheless, myself and the entire staff are willing to make the greatest contribution to effect economies in view of the present financial stringency and hard times.

As the matter is very urgent, I request you to obtain orders of Government immediately and authorise me to proceed with the work in anticipation, as there are only two weeks' time before January 1950 and unless orders are received before January 1950, the above proposals cannot be carried out and the rented building of Angus Engineering Company cannot be vacated by 1st April 1950.

/True Copy/

Budget Grant for the year 1948-50 without further allotment as certain items of machinery ordered will not be delivered before March 1950. Provision should, however, be made in the next financial year for work connected with the building up of concrete and brickwork foundations for pillars, engines and machinery as well as electrical fittings work, conduits, etc. for the machines. For this, an amount of Rs. 2,000 is estimated.

Summing up, I request:

(1) Government may approve the shifting of the College to be undertaken in the months of January, February and March 1950 thus relinquishing the present rented premises of the Argus Engineering Co., by 1st April 1950 and thereby saving to Government 3 months' rent.

(2) Approval and sanction of expenditure connected with shifting and re-erection of the entire equipment, machinery, furniture etc., as detailed, namely Rs. 32,500/-

(3) Approval for meeting Rs. 24,500 out of above sum from budget grant already available for 1948-50.

(4) Provision of a sum of Rs. 2,000 in the next financial year 1950-51, for erection of machinery, providing concrete foundations, electrical fittings, etc.

The above proposals necessarily involve very hard and intensive work on the part of the entire college staff. Nevertheless, myself and the entire staff are willing to make the greatest contribution to effect economies in view of the present financial stringency and hard times.

As the matter is very urgent, I request you to obtain orders of Government immediately and authorize me to proceed with the work in anticipation, as there are only two weeks' time before January 1950 and unless orders are received before January 1950, the above proposal cannot be carried out and the rented building of Argus Engineering Company cannot be vacated by 1st April 1950.

To
The Secretary to Government,
Education Department,
Madras.

Roc. 123 K2 /46 dated 14/6/50 ~~dated 14/6/50.~~

Sir,

Sub:- Arthur Hope College of Technology, Coimbatore -
Shifting to the new premises -

I have the honour to enclose for the information of
Government copies of letters Rc. 191 A/49 dated 30/3/50 dated
2/5/50 requesting me to provide funds for the payment of T.A.
to the members of the staff who are engaged in the work of
shifting the equipment to the new premises. The Principal
has actually submitted a Travelling Allowance bill for Rs.144/-
being daily allowance for 16 days in connection with his visits
to the new buildings.

2. In G.O.No.43 Edn. dated 6/1/50 Government have sanc-
tioned an expenditure of Rs.7500/-towards the payment of remune-
ration to the College staff who will be engaged in the work of
shifting machinery etc., at the rate of 20 or 25% of their
monthly salary. I would invite attention to para 2 of my letter
Rc. 123 K2/46 dated 21/12/49 disposed of in the above G.O.
wherein I had pointed out that the Grant of such special remun-
eration was objectionable on principle, Government, however, did
not accept my recommendation. I consider that the action of
the Principal in claiming Travelling Allowance in addition to
the remuneration is unjustified and irregular and calls for serious
notice on the part of Government. I recommend that Government
may take suitable action.

Yours faithfully,

to the Director of Public Instruction.

R.C. No.191 A/49 dated 30/3/1950.

Sir,

Sub:- Shifting - Arthur Hope College of Technology-
sanction of T.A. -provision of funds.

In connection with the shifting of this College, it will
be necessary for the following*members of staff to proceed to
the new College Site in the Agricultural College Estate every-
day or once in two days or once in three days as the case may
be according to the day-to-day nature of the work involved.
This will continue till shifting is completed. As this item
involves T.A. over and above the normally budgetted amount,
I am writing this in advance for your approval and allocation
of funds.

* Staff Members proceeding to the new site in
connection with the shifting of the College.

Copy of letter R.C. 191 A/49 dated 2/5/1950 from Prof. A. Vis-
wathanath, Principal, Arthur Hope College of Technology,
Coimbatore. to the Director of Public Instruction, Madras.

Sir,

Sub:- T.A. - Arthur Hope College of Technology,
Coimbatore - shifting of the College to
the new buildings.

Ref:- Your Proceedings R.C. No.525.L3/50 dated
18/4/1950.

The new College Building is $7\frac{1}{2}$ miles from the present
premises and outside the Municipal Limits of Coimbatore. I
submit that under existing rules members of staff living in
the present College premises and having to work at a place
 $7\frac{1}{2}$ miles distant, are entitled to T.A. This College is pro-
vided with a bus; but, this bus is being used for transporting
workmen as well as articles and instruments of a delicate
nature which cannot be safely transported by a lorry. Some
of the members of staff, particularly the Non-gazetted Members,
are using it and thereby I am avoiding excessive T.A. claims.
In the case of Gazetted Officers, Professors, Instructors, etc,
I think, it is not proper to ask them to go in the bus or sit
along with the workmen.

The T.A. claimed is restricted only to such officers
who reside in the present College premises and whose presence
in the new site is essential. Under the circumstances, I re-
quest the Director to approve the grant ^{of} T.A. to such members.
Care will be taken to ensure that T.A. claimed is kept to a
minimum.

Edn and P.H. Dept

G. No. 100645 A. From the D.P.S No. 183-K2/46 D 21.12.49.

A. H. College of Technology, Coimbatore - Shifting to new premises.

The Principal, A. H. College of Technology, Coimbatore, requests sanction for an expenditure of Rs 32,500/- in connection with the shifting of the college from its present premises to the new buildings in the Agricultural college estate - please see A on page 5 of. The D.P.S recommends that the expenditure on items (1) to (5) may be sanctioned. As regards item (6), the Director considers that the grant of such special remuneration is objectionable in principle and that he is therefore unable to recommend it.

A on page 5 of

Fin (Exch B)

new buildings in the Agricultural College and Forest College. It involves the incurring of the items of expenditure detailed at A on p. 5 CF. The total expense involved is Rs 32,500/-

2 It is proposed:

(1) to meet a portion of the above expense viz Rs 24,500 out of the budget provision in the current year

(2) to make an additional provision of Rs 8,000/- in the BE for 1950-51 for the rest of the expense and

(3) to allow a special remuneration of Rs 2,500/- ^{out of the total of Rs. 32,500} to the staff who will be engaged in shifting the machinery from the present building to the new premises. ~~subject to a maximum of 2 months' rent for the existing premises~~

The above proposals may be agreed to in Finance.

As the amount involved is large, H.M. (Fin) may see.

H.P. also may see as the cost of providing concrete foundations for boiler engines and machinery, and electrical fittings exceeds Rs 5000/-

29.12.49 (u) The rent for the Argus Engineering Coy.'s Bunting, where the College is now located is Rs. 3,750 p.m. The Principal of the College has indicated a sum of Rs. 7,500 in the total expense of Rs. 32,500 for which he wants the sanction of Govt. The sum of Rs. 7,500 represents 2 months' rent. In suggesting a special remuneration of 20 to 25% of salary to the staff of the College subject to a maximum of Rs. 7,500, the Principal has stated that the entire college staff will have to put in very hard & intensive work in helping to shift & re-erect the entire equipment

100645/49A

A (2)

K on p. 9 of the work of shifting & re-erecting of the equipment is to be attended to by private men in the summer vacation, but beyond 14.50 may have to be paid - vide B's p. 9 c.f. c.f. & K on p. 9 c.f.

equipment in their respective laboratories & workshops and that with this help the Argus Engineering Buildings could be vacated on 1-4-1950. The work will be spread out during the period Jan - March 1950.

Fin. may agree to the proposals including the grant of special remuneration to the staff - please see EPH dept.'s note on p. 1 above.

H.M. (Fin) & H.P. should see.

COLLEGES - Govt. College of Technology-Coimbatore
shifting to new premises -

Ref: From the D.P.I. No.183 K2/46 dated 14-6-1950.

In G.O.No.43 Education dated 6-1-50 the Govt. sanctioned an expenditure not exceeding Rs.32,500/- in connection with the shifting of the Govt. College of Technology, Coimbatore from the Argus Engineering Coy buildings to its new premises. They also approved the proposal of the Principal to incur an expenditure of Rs.7,500 out of the above amount towards the payment of remuneration to the College staff engaged in the work of shifting the machinery etc., at the rate of 20 or 25% of their monthly salary. The Principal has now submitted proposal for the grant of travelling allowance to the members of the staff who are engaged in the work of shifting the equipment to the new premises. The D.P.I. takes strong objection to the action of the Principal in claiming t.a. in addition to the remuneration sanctioned in the G.O. referred to. He considers that this irregular action of the Principal calls for serious notice on the part of Government. As pointed out by the D.P.I. the claim for T.A. is unjustified and may be negatived. With reference to the recommendation of the D.P.I. for taking suitable action, The Principal may be informed that ^{this} ~~the~~ Government ^{with view} ~~with displeasure~~ his action in ^{preparing} ~~preparing~~ claims for t.a. in addition to the remuneration sanctioned by Govt. in the G.O. referred to.

May be circulated to H.M.(E.&L.), and H.M.(P.W) for orders.

It seems that we need not object to the payment of the t.a. ^{if the total} ~~expenditure~~ ^{expenditure} on account of ~~remuneration~~ ^{remuneration} and t.a. does not exceed Rs 7,500/- Finance may see

From

The Director of Public Instruction,
 Madras.

To

The Secretary to Government,
 Education Department, Madras.

Roc.1095 K1/49 dated 12-7-1950.

Sir,

Sub: Government College of Technology/- Opening in the
 new buildings by the Hon'ble Minister for Public
 Works.

I have the honour to state that the Hon'ble Minister
 for Public Works has agreed to open the new College buildings
 on the 14th July 1950. In connection with this marble tablet
 with the inscription as shown in the annexure has to be made
 and unveiled by the Hon'ble Minister. Originally it was thought
 that Public Works Department might be asked to undertake this
 work so that all expenses connected with the making of the tablet
 and arrangements for fixing and unveiling the same would be
 incurred by the Public Works Department. In view of the subse-
 quent alteration in the name of the College, the Principal
 proposes to undertake the work himself and has requested
 sanction for incurring an expenditure of Rs.300/- for this
 purposes. The expenditure is proposed to be met from the
 funds sanctioned in G.O.No.43 Edn., dated 6-1-1950. In view
 of the short time at the disposal of the Principal, I am
 authorising the Principal to incur the expenditure in
 anticipation of sanction of Government and I request that
 my action may kindly be approved and sanction accorded to
 incur the expenditure.

Yours faithfully,

Thiruvananthapuram

for Director of Public Instruction.
