Schools - Secondary - Opening of high schools in villages with a population of 5000.

From Sri V. Ramakrishnan, Secretary, The Taluk Congress Virasagiyal Sangam d/1-7-49.

Memo No. 61724 B/49-2 Ednd/30-8-49

An extract of the resolution passed at the Sankaran koil Taluk Congress Agriculturists Conference at Thiruvengadam on 8-6-49 is referred to the A.P.S for remarks. He is requested to report the number of villages with a population of 5,000 which are not served by even middle schools ^{for boys} and the number of those which have middle

30/8/49

2 3

middle schools but no high schools. The Director is also requested to indicate the additional cost to Govt. by way of grants to local bodies or private managements if the resolution were to be implemented.

2 The Director is also requested to state whether for in view of the fact that secondary education for girls is still in a very backward state it will not be sufficient to proceed with the scheme of providing at least middle schools in towns with a population of 10,000 & above by granting special aid to local bodies & private managements which come forward to open new schools in such centres.

Re.2186 G2/49

Office of the
Director of Public Instruction
Madras. 28-1-1950

From

The Director of Public Instruction
Madras.

To

The Secretary to Government,
Education and Public Health Department,
Madras.

Sir,

Sub:- Schools - Secondary - Opening of Schools in
villages with a population of 5000
Ref:- Government Memorandum No. 61724-B1/49-2
Education dated 30-8-49

With reference to para of the Government Memorandum
quoted above I may state that there are 607 villages with a
population of 5000 and above which are not served by even Middle
Schools while the Number of those which have Middle schools
but no High schools is 31. Of the latter, 16 Middle schools are
under the management of Local bodies while 15 Middle Schools
are under aided management.

2 The cost ~~of~~ to Government, by way of grants towards
the opening of Middle Schools in the 607 centres, referred to
above will be Rs. 12,32,210 if they are to be opened by Local
bodies and Rs. 18,08,860 if they are to be opened by private
agencies (on half and 2/3 net cost basis respectively)

3 Regarding the development of the 31 Middle Schools
into High Schools, the cost to Government will be as follows.

16 Kocal Board Middle Schools (at Rs.2000/- per each)

Rs. 32,000 (1/2 net cost
basis)

15 aided Middle Schools (at Rs.2700/- per each)

Rs. 40,500 (2/3 net cost
basis)

Rs. 72,500

File sent to Finance

Return to C.P.A.

4 Regarding para 2 of the Memorandum, attention is invited
to Government Memorandum No.74045-B1/49-4 Education dated
21-12-49 wherein Government have stated that the question of
opening of Girls' Schools in centres with a population of over
10,000 may be deferred for the present.

5 I may add for the information of Government that the number
of villages with a population of 5000 and over was arrived at
with the aid of census statistics of 1941.

Yours faithfully,

J. S. Sautanah

For Director of Public Instruction

Public (Miscellaneous) Department H.O. 2812/1-1

E & P. H. (B.)

The copy of Resolution no 22 at p.1 of. and
the minutes of H. Pr. and the notes of Pub (Misc) Dept.

above may be perused.

The request contained in Res. no 22 is that Govt
2. The resolution requests for the opening of

should open high schools in all villages of the Province with a population of 5,000. It is ^{not} clear whether the request relates to Secondary schools for boys or girls or for both

2 The policy of govt in regard to Secondary education is to rely on local bodies and private agencies for the expansion of facilities for Secondary education especially for boys and to open secondary schools for girls under their own management in centres with a population of over 10,000 where there are not even middle schools when no local body or private management comes forward to establish such schools. The Retrenchment & Reorganisation Committee has also recommended that govt should not open a school in an area which is already provided for or a private agency is likely to open one, and that even the existing schools should be transferred to the management of local bodies or private agencies if they are willing to take over.

3. With a view to ensure, that there is at least one high school for boys in each taluk, the govt undertook to give special aid to local bodies & private agencies which open new middle schools or convert one existing middle school into a high school in a taluk which is not served even by a middle school or high school. There are a few such taluks to be provided for. There are a number of taluk centres which have not even a high school and it will be necessary to encourage the establishment of high schools in those centres before further expansion is aimed at. In recent years, local bodies and private managements are opening a large ^{number} of secondary schools under the revised system of payment of teaching grants on half the and two thirds of the approved net cost of maintenance of those institutions and it may be left to those bodies to open new secondary schools in villages with a population of 5000. Perhaps the D.P.S. may be asked to furnish information in regard to the number of such villages to be provided for

23-8-49 M.

4 So far as secondary schools for girls are concerned there are a large number of towns with a population of over 10,000 which have not even a middle school for girls and the govt have undertaken to give special aid to schools newly opened in such centres by non-govt agencies. It will take a long time for this scheme to be completely given effect to and it is only after this is done, the question of providing villages with a population of over 5000 with a separate secondary school for girls can be taken up even though it has been admitted in principle that Co-education is not desirable at higher forms in Secondary schools.

A draft memo to the D.P.S. is subd. with reference to paragraph 3 on page 2 ante

[Issued in Memo No. 61724 B/49-2 Edn d/30-8-49]

C.No. 7343. From the D.P.S. Re. No. 2186 G2/49.

The D.P.S. has reported that there are 607 villages with a population of 5000 and more which are not served by high schools. Out of these 31 centres are however having the benefit of a middle school at least. The

E.A.

Director has estimated that the proposal to have at least a middle school in each of the 607 villages with a population of 5000 and more will involve an additional recurring expenditure of Rs 12,32,210/- per annum by way of payment of teaching grants to the towards the maintenance of the schools if they are opened by local bodies. The teaching grants payable are estimated at Rs 18,08,860 per annum recurring if all the schools are opened by private managements. The conversion of the existing 31 middle schools into high schools will involve an additional recurring liability of Rs 72,500/- per annum. In view of the existing financial stringency, it will not be possible to launch such an ambitious programme involving a heavy recurring liability. In ^{the circumstances} ~~view of this~~ it is for consideration whether it may be left to local bodies and private managements to open secondary schools in villages with a population of 5,000 and more. The schools, if opened, will receive assistance from Govt. in the form of teaching grants assessed on the basis of two thirds of the net cost of maintenance if they are opened by private managements and on the basis of half the ^{net} cost of maintenance if they are opened by local bodies, as is being done now by Govt.

2. As regards opening of secondary schools for girls it may be mentioned that the question of opening middle schools ^{for girls} in centres with a population of 10,000 and more which ^{are} ~~was~~ not served by such schools was considered by Govt. and was ordered to be deferred. In view of this, the question of opening middle schools for girls in ~~which~~ with a population of 5000 or more can hardly be contemplated ~~more~~ in the foreseeable future.

The file may be sent to Finance U.O. for remarks prior to circulation.

E & P.H. (B.I.)

The file relates to the request of the Sankaran Koil Taluk Congress & Agriculturists Conference for the opening of a Govt. High School in every village with a population of 5,000 and more. The notes ~~of~~ on pages 3-5 ante may be perused. Finance have agreed with the views of this Dept. that it may be left to local bodies and private managements to open secondary schools in such schools subject to the usual grant-in-aid from Govt. They have also agreed that in the existing financial stringency, the question of opening high schools for girls in villages with a ~~total~~ population of 5000 can hardly be contemplated. In view of this no further action seems called for in the matter.

2. The file may be circulated to ~~H.C.M.~~ H.C.M. through H.M. (E&L) with reference to the former's minutes at p 1 ante.

The first school is the subject of the committee's report. The committee has been working for the opening of a first night school in every village with a population of 2,000 and more. The work on paper is not very far advanced. The committee has agreed that the plan of the first night school is to be a local board and private management is also necessary. The committee has also agreed that in the existing financial state in each village subject to the local board, it is not possible to start a first night school. They have also agreed that in the existing financial state, the question of giving first night school for girls in villages with a population of 2,000 and more is not possible. The committee has also agreed that in the existing financial state, the question of giving first night school for girls in villages with a population of 2,000 and more is not possible.

2. The first night school is established in the village of H. N. 1. through H. N. 1. (1894) with reference to the financial state.
