From

The Director of Public Instruction,
M a d r a s.

To

The Secretary to the Government,
Education and Public Health Department

Rc.994 D2/47 Dated 14-2-1950.

Sir,

Sub: Grant - Building - T.T.V.High School, Madras - Construc-
tion of building for the School without inviting tenders -
Permission requested.

In G.O.Ms.No.2279 Education dated 28-10-47 Government sanc-
tioned the inclusion in the list of approved works of the Scheme
for the construction of a building for the T.T.V.High School, Madras
at an estimated cost of Rs.3,60,000/- rendering the institution
eligible for a grant not exceeding Rs.30,000. Government in their
orders Ms.2080 Education dated 28-6-49 have also sanctioned the
payment of an advance grant during the current year.

2. The plans and estimates in respect of the above scheme were
scrutinised and recommended for approval by the Joint Consulting
Architect only in October 1949. The Correspondent reported in
December 1949 that the plans were pending sanction with the Corpora-
tion of Madras and that they had suggested the incorporation of
overhead tank for the latrines in the plan. Again in February 1950,
he reported that as the time was short the management had decided to
carry out the work themselves under their personal supervision with-
out calling for tenders and entrusting the work to contractors.

3. I submit copies of the letters dated 1-2-50 and 11-2-50
from the Correspondent of the school. As the plans and estimates
have been scrutinised by the Joint Consulting Architect, as the
Correspondent has promised to carry out the work under the Super-
vision of ~~the~~ a qualified Engineer, I recommend that, in relaxa-
tion of the provisions of Rule 53 of the Grant-in-aid Code, the
management themselves may be permitted, as a special case, to
carry out the construction of the building. The advance grant for
the scheme during the current year may be based on the value of
work done as certified by the Engineer in Charge. But the balance
of grant may be based on the valuation of the Public Works Department
after the construction has been completed.

4. It may be mentioned here that similar permission for pro-
ceeding with the construction without entrusting the work to a
tenderer was accorded in G.O.Ms.No.3830 Education dated 14-12-49 in
the case of the National High School for Girls, Triplicane.

Yours faithfully,

D. P. Paul

For Director of Public Instruction.

vs.16.2.

Copy of letter No.78/49-50 dated 1-2-50 from the Correspondent, T.T.V.High School, Madras to the Director of Public Instruction, Madras through the District Educational Officer, Madras.

Sub: Grants Building - T.T.V.High School, Madras.
Ref: Rc.994 D6/47 dated 18-1-50 of the Director of Public Instruction, Madras.

It is requested that the advance grant provided for 1949-50 need not be diverted as arrangements have been made for laying the foundation on 6-2-1950 and it is hoped that sufficient work will be completed by the end of February to entitle us to draw the advance grant provided for in 1949-50. Provision for drawing the balance of the total grant in 1950-51 may also be made.

As the time is short the management has decided to carry out the work themselves under their personal supervision without calling for tenders and entrusting the work to contractors. Necessary permission for the execution of the work, waiving the regular procedure of calling for tenders, may be granted early to help us to proceed with the work and finish it in good time to claim the advance grant provided for.

Copy of letter No;78/49-50 dated 11-2-1950 from the Correspondent, T.T.V.High School, Madras to the Director of Public Instruction, Madras through the District Educational Officer, Madras.

Sub: Grants Building - T.T.V.High School, Madras.
Ref: Rc.994 D6/47 dated 18-1-50 of the Director of Public Instruction, Madras and my letter No.78/49-50 dated 1st February 1950.

In continuation of my letter No.78/49-50 dated 1st February 1950, I have the honour to state that the work will be carried out under the supervision of a qualified Engineer and the construction of the Building by us will help us to reduce the total cost by about Rs.50,000/-.

In the circumstances explained above and particularly for the reason that we will be able to reduce the total cost by a fairly good sum, it is requested that necessary permission for carrying out the work without calling for tenders, may be granted at an early date.

From the D.P.G. Re. No. 994 D₂/47 d/ 14-2-50

Order No 603 Edn. dated. 25-2-50

In the circumstances stated, permission is accorded, as a special case, to the management of the T.T.V. High School, Madras, to proceed with the construction of the building for the school, under the supervision of a qualified engineer, without entrusting the work to a tenderer, relaxing the provisions of rule 53 of the Grant-in-Aid code.

2. The D.P.G. is informed that the advance grant ~~payable~~ ^{may be paid} towards the scheme during the current year ~~may be~~ based on the certificate of valuation of the work issued by the engineer in ~~in regard to the value of the work done~~ ^{charge} and that the balance of grant should be based on the valuation by the local P.W.D. authorities after the construction has been completed.

Building for the future is the only way to ensure a better future for all.

From the 5.31 to 6.45 of 1945

1938

The first thing I noticed when I stepped out of the car was the cold. It was a sharp contrast to the warm blanket I had been sitting under. I looked up at the sky, which was a deep, dark blue, and felt a sense of peace. The stars were visible, and I knew that I was in a good place. I took a deep breath and felt the cool air fill my lungs. I was alone, but I felt like I was part of something bigger. The night was quiet, and I could hear the soft rustle of leaves in the trees. I was in a good place, and I knew that I was exactly where I needed to be.
