ANNAMALAI UNIVERSITY

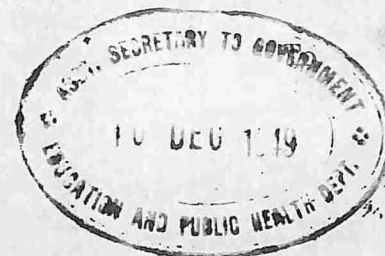

Roc No. 3213/B1

14th December 1949.

From

THE VICE-CHANCELLOR,
ANNAMALAI UNIVERSITY
ANNAMALAINAGAR

The Secretary to Government,
Education and Public Health Department,
Fort St. George,
MADRAS.

Sir,

Sub: University - Annamalai - Teaching Staff - Scales
of pay - Revision of - Creation of Associate
Professorship - Grant.

Ref: My letter R.O.C. 3213-B1/49 dated 18--5--1949 and
Government's letter in No. 38809-G2/49-2 Edn.
dated 7--7--49.

In continuation of my communication referred to above,

I have the honour to inform you that the Senate at its recent
meeting held on the 3rd December, 1949, has approved of the
recommendation of the syndicate and of the Academic Council
to revise the rates of salaries for the Teaching Staff as
under:-

professors	Rs. 400--20--700,
Associate professors	250--15--400--20--500,
Lecturers	150--10--300,
Tutors and demonstrators	75--5--125.

The scale for professors indicated above was, I now
learn, the scale in existence in 1929 when the University
was founded. This scale has been gradually reduced in the
course of the last 15 years or so, much to the discontent
of the staff, to its present figures of Rs. 250--15--400--20-500
now proposed in the above scheme for Associate professors.
On the other hand, prices and the cost of living have been
growing higher and higher. The scale passed by the Senate
recently is the minimum which can be given to teachers in a
University.

A comparison of the tables of scales of salaries forming
Appendix B on pages 626 to 631 of the Report of the University
commission recently issued by the Government of India will

Stallup 9/12/49
9010735 Edn
4/4/46
(X)

definitely show that the scales of salary existing at present in the Annamalai University is the lowest (ridiculously low) amongst the Indian Universities. A perusal of the table will show that there is no other University which has got such a low starting salary as Rs.250/- for professors. The minimum starting salary for professors in other universities in the list is Rs.450/- in the Travancore University while the next higher is Rs.600/- in the newly started Saugor University.

3 There is therefore full justification for the statement that the Annamalai University pays the lowest rates for its staff. There is also a constant complaint that there is frequent exodus of teachers in this University. It cannot but be otherwise when the scale of pay is so low.

4 I therefore beg that Government will give its earliest and best consideration to this University's request in the face of its inelastic income for a grant in order to enable the University to give decent salary for its staff who are in no way less qualified than their compeers in the other Universities in South India and elsewhere. I have already addressed you on this matter and I shall be glad if Government could let me know sufficiently early so as to enable us to include the revised rates of pay in the next budget proposals. I request that government be pleased to give us an extra grant of Rs.1 lakh which has been estimated, as shown in Appendix A, to cost the University as additional expenditure on the introduction of the new scales of pay.

5 The revised scales of pay is proposed to be given effect to from 1--4--1950. As shown in the Appendix, the average pay on the present scales for five years and the average pay on the new scale, for five years, has also been worked out and the difference between the two averages is Rs.88,320/- per year. A sum of Rs.5,520 towards provident fund and a sum of Rs.4,692/- towards leave salary etc., are also required. Adding these the net extra cost per year will be Rs.98,532/- or Rs.1,00,000/- in round figures. This grant may be sanctioned as a block grant for five years beginning from 1950--51. The question of sanctioning the

1000/185-1874(F)

P7 infra

P7 infra

grant may be reviewed once in five years and sanctioned based on the then existing strength and grades of pay.

P7 up to 6
X The figures worked out in the Appendix are based on the existing staff in the University. The question of appointment of existing professors to the new higher grade will be considered on individual merits though the figures have been worked out for purposes of this calculation on the general presumption that the present men by their seniority of service may be entitled for promotion and weightage.

Encl:

P.N.14/12.

Yours faithfully,

S. C. Manavale Ramanyam
Vice-Chancellor.

ANNAMALAI UNIVERSITY

26th December, 1939..

LOC No 3213-B1.

From

THE REGISTRAR,
ANNAMALAI UNIVERSITY,
ANNAMALAINAGAR.

To

The Secretary to the Government of Madras,
Education and Public Health Department,
Fort St. George, Madras.

Sir,

Sub: University - Annamalai - Teaching Staff - Scales of pay -
Revision - Application for Grant.

Ref: Your letter No. 98398 G2/49-1 Ddn. d. 19-12-49.

The audited accounts for the year 1948-49 are submitted herewith for favour of information. A perusal of the accounts will show that a sum of Rs. 50,000/- has been shown as closing balance and a sum of Rs. 60,725/- has been taken over to the Reserve Fund.

The Finance Committee of which Dr. D.W. Dodwell, I.C.S., Finance Secretary, was a member, met in Madras on 23rd January, 1948 and decided to have a closing balance of Rs. 50,000/- in the General Funds. This is based on the general presumption that at least 5% should be kept on hand at the end of the year to enable the University to meet expenditure during the months of April, May and June when there will be no collection of fees or income owing to the closing of the University for the summer. According to the above decision, a sum of Rs. 50,000/- has been retained as closing balance.

The surplus of Rs. 60,725/- is accounted for as follows:-
During the year 1948-49, owing to unforeseen circumstances, we were not able to spend the money as provided for in the budget under the following and other heads:-

1948-49.		
	Provision.	Expenditure.
1. Physical Education.	Rs. 34,160	Rs. 20,893.
2. Research Publications.	Rs. 20,000	8,400.
3. Furniture.	Rs. 55,000	50,922
4. Lands and Buildings--		
Repairs.	Rs. 63,000	23,982.
	172,160	104,197

The chief causes which prevented us from spending the money are want of adequate quantity of steel and cement which are controlled

can be considered only after the audited accounts of the University become available for 1948-49 ^{together with} the statement of the financial position of the University, as already mentioned in letter No 38809 G2/49-1 Ddn. d. 7/7/49

Yrs Hly,

RS

Note: The orders in circulation in the matter are on p 37 n f in 8072 424 F on dated 17.2.49. It is possible that the way refer to this subject ^{in the conn of this} talk with Secy. on 19-12-49.

17.12.49

5/12/49

12
commodities. The other important factor was the lack of Engineering personnel. The few men we had, had to devote their time and attention to the works of immediate necessity, such as the construction of the Engineering College Buildings and laboratories and hostels. We had to rush through the above works as otherwise the laboratory training for the Engineering and Technology students who were in the fourth year would suffer. This naturally led to other items of work for which provision has been made, remaining unattended to. There were other causes also which led to some casual savings. As the Government are aware, the teaching personnel particularly for the Engineering and Technology classes were very difficult to get. In spite of numerous advertisements in Madras and North Indian Dailies, very few men applied for the posts and therefore many of the posts had to be left unfilled during the course of the year. In the Research Department it was expected to spend Rs.20,000 towards the cost of publication of books, but owing to the scarcity of paper and good presses, the work could not be pushed through, though we have manuscripts ready for printing 25 books on various subjects of research and other matters. Similarly we were not able to make all furniture we required owing to the unwillingness of the cabinet makers to tender at reasonable rates. The absence of Burma teak was also another important factor.

All these causes contributed to the little savings that were effected during 1948-49. Such savings will not be a normal feature and only ~~can~~ be considered as casual.

The revised estimates for 1949-50 worked out on the basis of actuals for six months in the year show a receipt of 11.57 lakhs against a charge of Rs.12.44 lakhs, leaving a deficit of Rs.87,000/-. It is possible that at the end of the year when the actuals are known the deficit may be less, but it is definitely certain that there will be no surplus. Therefore it is clear that the present resources of the University cannot afford to meet the extra cost involved in the revision of scales sanctioned by the Senate on the 3rd December, 1949, unless Government comes to its rescue by generally sanctioning a grant of Rs.1 lakh towards the extra cost.

If the revision of scales are given effect to from a grant of Rs.75,000/- will be sufficient for the 9 months in

13
year 1950-51. At least this amount may be sanctioned as block grant, for the year 1950-51. It may be raised to Rs. 1 lakh from 1951-52.

Yours faithfully,

K.V.26-12.

K. V. Ramdas
Registrar.

(VIA) CHIDAMBARAM

4th January, 19 50.

18

Sub: Grants for the Annamalai University --
request for a special grant of Rs. one lakh
to enable the University to bring into
effect the revision of the scales of
salary sanctioned by the Senate.

As I tried to impress upon you the other day,
this University is paying its staff the lowest scales of salaries
among the Universities in India, as could be seen from the com-
parative statement published in the Appendix of the Universities
Inspection Commission's Report published recently. I am hopeful
that you will see the reasonableness of our request. You would
be earning the gratitude and good-will of the members of the
staff of the University if you will kindly push the papers
through as expeditiously as possible, so as to be placed before
the Finance Committee meeting on the 11th.

Top priority may be given to this request
of ours, if necessary even postponing the grant for the Tamil
Research Institute. This is an imperative need of the Univer-
sity.

I have seen the Minister for Education on
this matter and he appeared to be very sympathetic towards the
proposal. I have also seen the Finance Minister on the matter.

Thanking you,

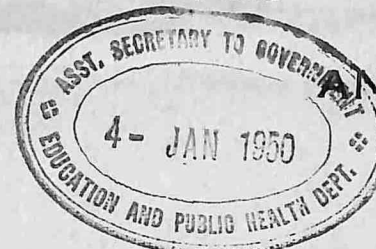

Yours sincerely,

S. G. Manavala Ramanujan

ANNAMALAI UNIVERSITY

29th December, 1949.

Rec. No. 3213/Bl.

From

THE REGISTRAR,

ANNAMALAI UNIVERSITY,

ANNAMALAINAGAR

To

The Secretary to the Government of Madras,
Education and Public Health Department,
Fort St. George,
Madras.

sir,

Sub: University - Annamalai - Teaching Staff - Scales of pay -
Revision - Application for grant.

Ref: Your letter No. 98398 G2/49-1 Edn. dated 19--12--1949 and
my letter Roc 3213/Bl dated 26--12--49.

In continuation of my letter No. ROC 3213/Bl dated 26--12--49, I
enclose herewith some particulars to show how the Revised Estimates for
the year 1949--50 is expected to close with a deficit of Rs. 87,000/-
In the annexure A, the audited figures of the year 1948--49 under
receipts and the revised estimate for 1949--50 are shown for purposes
of comparison. It will be noticed that under 2 heads, the estimated
receipts for 1949--50 are considerably less than the actuals of 1948--49.

This calls for an explanation and it is given below.

Examination Fees: The fall in the year 1949--50 is due to the
fact that in the years 1946--47 and 1947--48 the admissions of the
students to the University were heavy in all branches in the Arts,
Science and Oriental Studies, including the Engineering courses, where
the number admitted was over 100. The number of admissions had to be re-
duced considerably in subsequent years owing to the lack of accommodation
in the hostels. The number of students admitted to the Engineering
courses was also reduced to about 60 under instructions from the Govern-
ment of India. This explains for the fall under examination fees during
1949--50.

Miscellaneous Receipts: Laboratory Breakages: During the year
1948--49 the value of breakages for the three years namely 1945--46,
1946--47, and 1947--48 for all the students in the II, III and IV
years of the Engineering courses were adjusted from their caution deposits.

34
ANNAMALAI UNIVERSITY

Recd. No. 2212/50

From

THE REGISTRAR,

ANNAMALAI UNIVERSITY,

ANNAMALAINAGAR

To

The Secretary to the Government of Madras,
Education and Public Health Department,
Fort St. George,
Madras 5.

During the year 1949--'50 the breakages for only one year has been taken credit.

In the Annexure B, the audited figures under charges for the year 1948--'49 and the revised estimate for 1949--'50 are shown for purposes of comparison. Here also explanation is called for for the increase under 2 heads:

(1) Departments of Studies: This head covers the pay of the teaching staff, labour establishment, contingencies, equipment etc. The revised scales of pay for all the teaching staff were given effect to from 1--7--1948, that is, in the year 1948--'49 they were getting for three months their old scales of pay and for nine months at the revised rates: but in the year 1949--'50, they have to be paid at the revised scale for twelve months. During the year 1948--'49, there were a number of vacancies in the posts of teachers including those of professors, but in the year 1949--'50 almost all the posts have been filled up and some of the professors have been paid a higher grade of salary. In some of the departments, new posts have also been created. Owing to the dearth of engineering personnel, Government were addressed to spare the services of some of their own men and we have to pay them a bigger scale of pay as well as pensionary contribution and leave salary.

The scales of pay of the Engineering and Technology staff were revised with effect from 1--12--1948 and the actuals of 1948--'49 show the effect of revision for three months only, but the higher rate of pay has been provided for twelve months in the year 1949--'50. The usual annual increments to the members have also been provided. In a few cases advanced increments have been given to the professors for special reasons. This also accounts for the increase during 1949--'50.

It will also be noticed that the actuals of 1948--'49 under equipment, Engineering and Technology, was Rs.82,370/- whereas we have made provisions for a lakh in the revised estimates for 1949--'50. It is expected to get more equipment during the year 1949--'50 as the market is easier now and equipments are readily available. For the same reasons a slightly increased provision has been made under equipment for the Departments of Studies such as for Chemistry, Zoology etc.

VICE-CHANCELLOR

ANNAMALAI UNIVERSITY
ANNAMALAINAGAR
(VIA) CHIDAMBARAM

D.O. 10/1/50

4th January, 1950.

Dear Mr. Madhava

I shall try my best regarding the grants. We shall discuss with H.H. Sir together. But I will be away from Madras from 7th to 11th.

I will return Madras on 11th morning. I will fix a day after that, with kind regards.

Yours faithfully,
S.G. Manavala Ramanujam

interview to press before you the financial needs of the University. I should have called on you again, but for the fact that you were pressed for time in view of your engagements as a member of the Partition Committee and the visit of Dr. Rajendra Prasad Babu. I am taking the privilege of writing to you this D.O. in order to press before you again the urgent necessity of improving the scales of salary for the staff of this University and to request you to give priority of consideration for a grant of Rs. one lakh in order to enable the University to bring into force the granting of salaries on the revised scales from 1-4-1950, failing which, at least from 1-7-1950 as indicated in our correspondence. You will be conferring a great boon on the University and earning the gratitude and good will of the members of the staff, if this grant is sanctioned.

If necessary, I am prepared to discuss the matter with the Finance Minister and with you at a Conference, if you should so desire, any day before the 11th. I am anxious that the question should be decided with the Finance Minister before the Finance Committee meets on the 11th, so as to ensure a safe passage of the grants in the Committee. I had a talk with the Finance Minister about this, but as he was leaving for an engagement, I could not explain the position more clearly to him on that occasion.

I am leaving for Annamalainagar tonight for the re-admission of the dismissed students, the College reopens day after tomorrow, the 6th instant, and making arrangements for private hostel facilities in town for the students who have been so re-admitted. I shall be back in Madras on the 7th morning.

Sympathetic
Thanking you for a kind consideration

of this request,

Yours sincerely,

S.G. Manavala Ramanujam

Lr. Ms. No.

Edn., dated

To

The Registrar, Annamalai University, Annamalai Nagar.

Sir,

Sub:- University - Annamalai - Scales of pay of the Teaching staff - Revision - Grant for.

Ref:- Your letters Nos. Roc. 3213-B1 dated 26-12-1949, and Roc. No. 3213/B1 dated 29-12-1949 and V.C.'s letters dated 4-1-1950 to the Secretary and the Hon'ble Minister for E. & L.

I am directed to state that the question of additional grant to the Annamalai University for the revision of scales of pay of the teaching staff should be deferred for the present and that the proposal for a grant for the purpose may be renewed by the University, early in August 1950, if the introduction of the new scales of pay actually results in a deficit.

Yours faithfully,

Sub:- University - Annamalai - Teaching staff - Revision of scales of pay - Grant for.

C.No.98398/49.

From the Vice-Chancellor, Annamalai University, Roc.No.3213/Bl dated 14.12.1949.

From the Registrar, Annamalai University, ROC.No.3213-Bl dated 26-12-1949.

In April 1946 the Govt. sanctioned a recurring grant of Rs. 1 lakh to the Annamalai University for the revision of scales of pay of its teaching staff. In 1948, the University applied for the payment of an additional grant for the purpose of meeting the extra expenditure on the revision of pay of the teaching staff and the grant of dearness allowance at Govt. rates to them. The question of payment of a grant to the University was considered at great length and the proposal was treated as a Part II Scheme for 1949-50. The Standing Finance Committee which considered this scheme along with other Part II Schemes for the year 1949-50 decided that the proposal might be deferred and be revived, if necessary, after a detailed examination of the audited accounts of the University for the year 1948-49. The Registrar was accordingly informed in February 1949 that the University might ^{renew} ~~revive~~ its ^{request} ~~proposal~~ for a grant for the above purpose, after the audited accounts for 1948-49 became available, together with a detailed statement showing the financial position of the University.

2. With reference to the above orders of Govt., the University has now renewed its request for a grant for revision of scales of pay of the teaching staff. The Vice-Chancellor of the University states that based on the recommendations of the Syndicate and the Academic Council, the Senate has recommended the payment of the following revised rates of salaries for the teaching staff of the University:--

They are unable to sanction ~~an~~ an additional grant to the University towards the revision of scales of pay of the teaching staff, over and above the grant of Rs. 1 lakh already sanctioned for the purpose, in G.O. No.

735 Gen El- 4/4/46.

ms jffey,

RS
24/2/50.

25.2.50

27/4/50

28/2

Professors - Rs.400--20--700.
Associate Professors - Rs.250-15-400-20--500.
Lecturers. - Rs.150--10--300.
Tutors and Demonstrators- Rs.75--5--125.

The Vice-Chancellor states ^{that} the scales of pay of the staff in the Annamalai University are ^{the lowest} ~~very low~~ when compared to those of the staff of other Universities ^{in India} as will be seen from the table ^{under the heading} ~~xxxx~~ salaries of the staff of the various Universities ^{that} annexed to the Report of the Universities Commission. He ~~also~~ points out the exodus of a large number of members of the staff ~~xxxx~~ of the Annamalai University to other places is also to be attributed to the low scales of pay given to the staff of the University. ~~xxxx~~ ^{Appendix} A statement showing the existing scales of pay and the proposed scales of pay of the ~~xxxx~~ teaching staff of the University is given on p.7 c.f. The ~~estimated~~ extra expenditure to the University on this account is estimated by the Registrar at nearly a lakh of rupees. He requests that a grant of this sum may be made to the University, for a period of 5 years at the first instance, from 1950-51, to be reviewed later on. He however mentions that if the above scales are to be given effect to from 1.7.1950, instead of from 1-4-1950, then a grant of Rs.75,000/- would be sufficient for the 9 months in 1950-51 and thereafter Rs. 1 lakh every year.

3. The Registrar has furnished ~~xxxxxx~~ a copy of the audited annual accounts of the University for the year 1948-49. Please see the statements on p.p.15-29 c.f. He states that in pursuance of the recommendations of the Finance Committee in 1948, the University ~~has~~ decided to have a closing balance of Rs.50,000/- in the General Funds. ~~According to the xxxxxxxx of the University~~ ~~xxxx~~ a sum of Rs.60,725/- has been taken over to the Reserve Fund and this surplus is attributed by the Registrar to the reduction ^{actual} in/expenditure during the year 1948-49 when compared to the Budget Estimates, owing to ~~the~~ very many unforeseen circumstances, ~~the~~ and the non-availability of materials etc. He states that the R.E. for 1949-50 worked out on ^{the basis of the} actuals for the six months would show a

This is another argument to proceed with the proposal. 4-1-50. PP 626-631 of the Annamalai University Commission Report

P3 of

PP4-508

PP12-1308

P11 of

P11-12 of

(PTO)

receipt of Rs. 11.57 lakhs as against an expenditure of Rs.12.44 lakhs, leaving a deficit of Rs. 87,000/-, which may be less if the actuals for 1949-50 are definitely known. However, he estimates that there will be no surplus.

4. A comparative statement showing the scales of pay of the teaching staff in the three Universities of the Province is ~~xxxx~~ ^{Sett below} ~~xxxx~~. It is seen therefrom that the scales of pay ~~in~~ ~~the Annamalai~~ of the staff in the Annamalai University are the lowest.

5. It is ~~therefore~~ for orders whether a grant will be given to the Annamalai University for the ~~xxxxxx~~ revision of scales of pay of the teaching staff of the University as now proposed by the Senate, and if so, whether a grant to cover one-half of the estimated expenditure, i.e. Rs. 50,000/- will be given to the University ~~will be given~~ as a ~~xxxxxx~~ recurring ~~xxx~~ block grant from 1950-51 ~~xxxxxx~~ 1950-51, ~~xxxxxx~~ Govt. have of late been ~~giving only~~ meeting only half the cost of the Universities' schemes, as ~~grants~~ in the case of the provision of the work benches etc. in the Annamalai University. Last year also, the ~~xxxx~~ Govt. considered the sanctioning a grant of Rs.50,000/- to the University for its revision of scales of pay of the teaching staff -vide Part II note on p.p.35-36 c.f. of Ir.No.424 Edn., dated 17.2.1949. Finance may offer their remarks prior to circulation.

Hon (Est) said on 30-12-49 that he would take up the question at the S.F.C meeting. 4-1-50.

The previous Secretary considered this as inadequate and suggested nearly an increase by 100%. But the S.F.C did not then approve the scheme. 4-1-50

*2000-937892/49-2
2/1/50.*

Hon (Est) desired to have this file in time at the S.F.C meeting to be held on 11-1-50 for considering Part II schemes. 5/1/50

Finance (Exp.A) Dept.

Please see the letters from the Vice Chancellor of Annamalai University, on pp. 1-5 and 11-13 c.f. and the note of E.& P.H. on pp.1-3 above.

2. The recurring grants ~~in aid of~~ ^{provided for in aid of} the general resources of the three Universities ~~are~~ ^{in the Budget for 1949-50} as shown below:--

(i) The Madras University ..	Rs. 4,10,200
(ii) The Andhra University ..	3,34,100
(iii) The Annamalai University..	5,02,000

It will be seen that, as compared to the other two Universities, the Annamalai University gets a more liberal grant which includes a grant of Rs.1 lakh sanctioned in G.O.No. 735 Edn. dated 4-4-46 towards the cost of revising the scales of pay of the teaching staff employed by it. The University had asked for a recurring grant of Rs.2.04 lakhs for this purpose; but it was considered that Rs.1 lakh was as much as would be justifiable - please see the orders in circulation on pp.15-16 N.F. of the G.O. ibid. It is ~~observed~~ ^{significant} that even out of this grant of Rs.1 lakh, the University actually spent only Rs. .66 lakh for revision of pay and the balance of Rs. .34 lakh was utilised for the employment of additional staff.

3. Again, in 1948, the Annamalai University asked for an additional recurring grant of Rs.3.53 lakhs on account of the further revision of scales of pay of teaching staff in Arts, Science and Oriental faculties, with effect from 1-7-48 and payment of dearness allowance to the staff at the increased Govt. rates. E.& P.H. then proposed that a recurring grant of Rs. .50 lakh might be given and suggested that the proposal might be treated as a Part II Scheme for 1949-50. Finance however strongly advised against the proposal to make a recurring grant to the University ~~for~~ ^{in aid of} the further revision of pay made in 1948, as it was held that, according to the audited accounts for 1947-48, the financial position of the University should be deemed to be sound/that the University should be able to meet the extra cost on account of the revision of salaries from its own funds— Please see Finance notes on pp.7-9, 11-15, 22-26, 32-34 and 35-37 N.F. of G.O. No.424 Edn. dated

17-12-49. Finally, it was ordered in circulation that the University might revive the request after the audited accounts for 1948-49 became available.

4. The University has now come up with a request for a recurring grant of Rs.1 lakh p.a. being the estimated extra expenditure on account of the revision of salaries, as shown in the statement on p. 7 c.f., made up of:--

	Rs.
(i) difference between the average of pay on the present scales for 5 years and the average pay on the proposed new scales for 5 years based on the existing staff in the University ..	88,320
(ii) provision for Provident Fund contribution ..	5,520
(iii) provision for leave salaries ..	4,692
Total	98,532
or	
	Rs. 1,00,000 (in round figures)

(The figures are not susceptible of check in the Sectt.)

It may be mentioned that usually only half the cost of the scheme is given as grant and on this basis, the grant admissible in this case, if the scheme is approved, would be Rs.44,000 p.a. roundly, leaving items (ii) and (iii) out of account as they are ~~only~~ ^{trivial} and can be easily met by the University.

5. The audited accounts of the University for 1948-49 will be found on pp.15-29 c.f. The figures are as follows— Cf. page 27 CF:—

	Rs. lakhs.	Rs. lakhs.
A. OPENING BALANCE.		0.28
B. RECEIPTS.	12.38	

Rs. lakhs. Rs. lakhs.

University. However, the transfers to "the Annual Repairs Fund", "Gratuity Fund" and "Electricity Depreciation Fund" have been held as transfers which are necessary to keep the University going. ^{three}Allowing for these transfers (Rs. .40 lakh in all), there is still a surplus of Rs. 2.95 lakhs even after meeting the increased expenditure on salaries and dearness allowance consequent on the introduction of the revised scales from 1-7-1948 for which ^{a fresh} Govt. grant was applied for, but ^{and} refused. In the circumstances, there seems to be ^{no strong} ~~even a shadow~~ of justification for the request of the University for a further increase in ^{the} ~~its~~ recurring grant now, as the University may well be able to meet ^{from} its own existing resources the extra expenditure of about Rs. 99,000 involved in the further ^{proposed} revision of pay scales, ^{as now of} ~~the staff~~ contemplated by it.

b. Attention is specifically invited in this connection to the note of Finance Secretary on pp. 25-26 N.F. of G.O. No. 424 Edn. dated 17-2-1949. The Secretary has observed that the Govt. cannot agree to increase their grant to enable the University to go on adding to its resources. In view of the imperative need for economy in Government expenditure in all possible directions, ^{Finance may suggest that} the University may be definitely ^{held} ~~informed~~ that its request for a further increase in the recurring grant-in-aid of Rs. 5.02 lakhs ^{cannot be} ~~considered~~ ^{Complied with.}

H.M. (Fin.) should see before the proposal is brought up for consideration at the S.P.C. meeting on the 11th Jan'y. 1950 for consideration of the Part II Scheme for 1950-1 - cf. M on page 3 above.

8.1.50 AS.1/ADSS/S.
8.1.50

The estimated extra expenditure in respect of the three items mentioned on p. 5 above is Rs. 98,532. On the basis of half grant, the maximum recurring grant admissible to the University is only Rs. 49,266. This

amount the University can easily meet from its own resources as the accounts for 1948-9 show a surplus of Rs. 2.95 lakhs. There is, therefore, no case for sanctioning a half grant to the ^{Annamalai} ~~University~~ University as ^{requested} ~~required~~. If the proposal is approved, it will only amount to helping the University to add to its resources which the Government in ^{these} ~~this~~ present state of finances cannot afford to do. In the circumstances, Finance may strongly advise against the proposal.

H.M.(Fin.) should see.

*I agree entirely with

E.P.H.

E.&P.H.(G.2D)

In no 814 EA-1

- C.No.2259/50. From the Vice-Chancellor, Annamalai University, D.O. dated 4-1-1950
- C.No.639/50. From the Registrar, Annamalai University, Roc.No.3213/BI dated 29.12.49.
- C.No.1457/50. From the Vice-Chancellor, Annamalai University, D.O. dated 4-1-1950.

The file relates to the request of the Registrar, Annamalai University for an additional grant of Rs.1 lakh from the Govt. from the year 1950-51 towards the cost of revision of scales of pay of the teaching staff of the University, over and above the recurring grant of Rs. 1 lakh already sanctioned to the University in 1946 for the purpose. Even last year, the University applied to the Govt. for an additional grant. The question was considered as a Part II scheme for 1949-50 and on the recommendation of the S.F.C. which considered the scheme along with other Part II Schemes for the year, the University was told that the Govt.would consider the question of a grant for the purpose after the audited accounts of the University for 1948-49 became available together with a statement showing the financial position of the University. The University has now renewed its proposal and has forwarded the ^{audited} statement of accounts for the year 1948-49. As the scales of pay of the staff in the Annamalai University are the lowest when compared

P.T.D

to those of the staff of the other Universities in the Province and also in the whole of India, and with a view to avoid the ~~large~~ exodus of the staff of the University to other places on account of the ~~unattractive~~ scales ~~there~~ in the University, this Department suggested that a ^{recurring} grant of Rs.50,000/- may be paid to the University as a block grant for the purpose from 1950-51. But Finance advise strongly against the proposal. They state that the ~~grant~~ grant which the University would be eligible ^{on a half grant basis} would be ~~only~~ Rs.49,266/- which it can easily meet from its resources, as the accounts for the year 1948-49 show a surplus of Rs. 2.95 lakhs, and that if the Govt. were to make a grant to the University for the purpose now, it would only mean helping the University to add to its resources, which the Govt. in their present financial position cannot afford to do. As ^a ~~the question of~~ revision of scales of pay of the staff of the Annamalai University is long overdue in the interest of efficiency of the staff, it is for orders whether this Department will press their proposal ~~for~~ for a grant of Rs.50,000/- to the ~~Annamalai~~ University for the revision of scales of pay of its teaching staff and recommend that the proposal be considered as a Part II Scheme for 1950-51 by the S.F.C. which meets on 11-1-1950. The file may now be circulated to H.M.(E.&L) and H.M.(Fin), for orders on above.

KS Patre. The advice of the Finance Dept. not to give any grant is based on the audited figures for 1948-49. In a letter since received from the Registrar, he has given the revised estimate figures for the current year and says that this year is expected to close with a deficit of Rs 87000. As noted on p.3 ante, Hm(Ext)

has asked that this file should be submitted to him in time before the S.F.C. meets ^{on 12.1.50} to consider Part II schemes. Finance have asked for circulation to HMC (Fin) also.

10-1-50

through the

University has furnished a forecast, which indicates, a deficit, I am rather inclined to agree with Finance that the University has funds which could meet the proposed increase in salaries. In any case, we can consider the grant next year after the introduction of the new scale is shown to cause a deficit.

33
E+P H (G2)

Please see the minutes of HM (Edu + Law) and HM (Fin) on p. 10 ante. Extracts of the minutes of HM (Fin) have been taken and added to the file regarding grant to the Annamalai University for the College of Engineering and Technology. This file may now be circulated to HM (E+L) for perusal of the minutes of HM (Fin) on p. 10 ante, and for orders whether the question of additional grant to the Annamalai University for revision of scales of pay of the teaching staff may be deferred for the present and the University be asked to renew the proposal next year (mid Aug 1950), after the introduction of the new scales of pay is shown to cause a deficit, ~~to be considered~~ ~~as a Part II scheme~~ for 1951-52.

19.1.50

19.1.50

The minutes of HM (Fin) on page 10 ante would seem to indicate that this question need not be proceeded with if additional grant is given for the Engineering College.

28/1/50

14.1.50 (E+L)

Tentatively are provided for in the budget

18/1/50

5/20

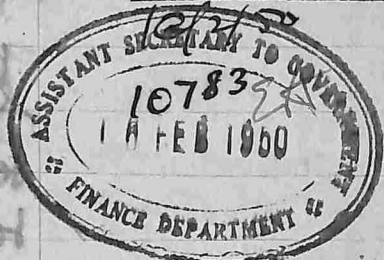

Please see the minutes of H.M. (E.&L) on p.11 ante. H.M. evidently refers to the provision of Rs. 3.5 lakhs towards the recurring grant for the University for the Engineering College in the B.E. for 1950. A draft letter to the University is submd. for approval. Finance may see before issue.

An addition provision of Rs 1 1/2 lakhs has been added to by the Cabinet.

(Previous Finance note on pp 5-8 ante)
The minutes of H.M. (Fin) on p 10 ante seem to exclude the necessity for even the deferred consideration of the question of giving a grant to the University for enabling it to revise the scales of pay of its staff, as is contemplated by E.P.H. The intention of H.M. seems to be that Govt. should not shoulder any additional burden on account of the salary revision of the staff of Annamalai University. In view of the increased grant towards its Engineering College, this department may therefore suggest that the University may be told that the Govt. cannot accede to its request for any additional grant for the reason of increasing the scales of pay for its staff. E.P.H. may be requested to amend the draft accordingly.

① They say the proposal be deferred that it may be reviewed if the introduction of new scales actually cause deficit
