Sir,

Having passed the Intermediate Examination of the Madras University (Reg. No. 7701 of 1948 from the Government College for Muslim Women) in First Class with distinction in all the three Science subjects of Part III I applied for admission to (1) The Medical College and (2) The Presidency College for iii B.Sc. (either Chemistry or Botany as main). Much to my chagrin, I have not been selected in either of the colleges.

2. In the Medical College, the selection of candidates for the M.B.B.S. Course was done entirely on merit. I wasn't given a seat in the Medical College probably because there were more deserving students

2

Sir,

Having passed the Intermediate Examination of the Madras University (Reg.No.7701 of 1948 from the Government College for Muslim Women) in First Class with distinction in all the three Science subjects of Part III I applied for admission to (1) The Medical College and (2) The Presidency College for iii B.Sc.(either Chemistry or Botany as main). Much to my chagrin, I have not been selected in either of the colleges.

2. In the Medical College, the selection of candidates for the M.B.B.S. Course was done entirely on merit. I wasn't given a seat in the Medical College probably because there were more deserving students. In the Presidency College, however, my friend R.Lalitha, a Brahmin, who passed out in the second class from the same College, is given a seat for B.Sc. Chemistry main. I represented the case to the Principal of the Presidency College. He desired that I should wait till today, and if any vacancy were to arise, he would give me a seat. But today, I was given to understand that I don't stand any chance whatsoever.

3. I feel a grave injustice has been done to me. I therefore represent the case to you with the hope that you would assist a deserving candidate.

4. I give below some particulars that may be necessary:-

Reg. No. of my application for B.Sc.: 844.

Marks obtained in Intermediate examination:

Chemistry	106 out of 150.
Physics	99 out of 150.
Natural Science	90 out of 150.

2/

~~16x~~ ~~-2-~~

[illegible] to A

5. I shall ever be grateful to you for your kind and immediate intervention in the matter.

Yours faithfully,
S. Mira Bai

GOVERNMENT OF MADRAS

Fort St. George,
6th July 1948.

3

Dear Sri Avinashilingam Chettiar,

Herewith I am sending a complaint from a Harijan student who was first given a seat in the Honours class in the Presidency College and later on refused admission and another caste Hindu student who obtained less marks than the Harijan student was admitted. I request you to take necessary action and see that the Harijan boy is given a seat in the Honours class.

Yours sincerely,
V. Kurmayya
7-7-48.

Hon: Sri T. S. Avinashilingam Chettiar,
Minister for Education.

S. Logesan (Harijan) applicant for a seat in the III B.A. (Hons) Politics - in the Presidency College - Registration No 336 - was selected by the head of the department of Politics - a seat was assigned on confirmation by the Principal. A memo was issued to S. Logesan calling on him to pay the necessary fees. All paid.

The next day the Principal cancelled the previous order and assigned a seat in III B.A Pass Course. Another applicant M. Ponnuraj, son of a Circle Inspector of Police who got less number of marks namely 380 as against 393 of S. Logesan was given a seat in the III Year B.A. Hons - Politics - M. Ponnuraj is a Caste-Hindu Student.

5.7.48.

To
The Honourable Sri T. S Avinashilingam Chettiar
Minister of Education, Government
of Madras.
Thro' Honourable ~~[illegible]~~ Sri V Kurmayya
Minister for Harijan uplift.

CONFIDENTIAL

SECRETARY, EDN. AND P. H. DEPT.
15 JUL 1948
GOVERNMENT OF MADRAS

To
[illegible] Secretary,
Education and Public Health Department,
Government of Madras,
Fort St. George.

ASST. SECRETARY TO GOVERNMENT
52512
16 JUL 1948
EDUCATION AND PUBLIC HEALTH DEPT.

Sir,

Sub:- Government Colleges - Presidency College, Madras - admissions to Courses of study - irregularities etc - request to examine.

pp 8-9 infra

I herewith enclose a copy of my letter dated 9-7-48 to the Principal, Presidency College, Madras, which will speak for itself. I have not so far received any reply or even an acknowledgement from him though I enclosed a stamped and addressed envelope for the purpose. I am, however, reminding him by sending a copy again per Regd post.

Confidential

I wish to state that certain students have informed me that, though their marks have been low and they did not obtain a [illegible] they were granted admission on the 26th June itself [illegible] of students who had offered only Physics, Chemistry and Logic for the Intermediate examination and passed the same in parts obtaining low marks being granted admission to the B. Sc. Chemistry or Physics in the first instance itself because, I am told, they could influence the

Principal. I am also told that certain high placed gentlemen in the Education Department were able to secure admission for their friends and relations; but evidence of this is bound to be almost nil, since they would either have talked personally or obtained it over the phone.

I request, therefore, that Govt. may be pleased to at once call for and examine:-

(i) The applications for admission to the Science Groups in the B.Sc. and Intermediate classes;
(ii) The admission lists;
(iii) The Despatch Register;
(iv) The Fees Register (to show when fees were paid).

Yours faithfully

T.K.T.N.R. Tatachari

17.7

Sir,

Sub:-- Admissions - Presidency College - Applications for - results of disposal.

...

In regard to the above, I have to state that my daughter, T.K.T.Sri Devi, had applied for a seat in the B.Sc., Chemistry class. You may remember that I interviewed you in this connection on the 26th., June last and that you were pleased to tell me orally that she was granted admission to the B.Sc., Mathematics or Physics; that, since you were very busy, you could not tell me which subject exactly, particularly as the final list was being just then typed. When I asked you further as to whether she could not be given a seat in Chemistry, you were so good as to tell me that it might be possible since you expected that some of the seats would fall vacant owing to some of the selected candidates joining professional colleges.

2. In view of the above, I returned home expecting official intimation of her having been admitted to the B.Sc., Mathematics or Physics. But till to-day no admission card has been received by her. I do not know what it means. She has taken a First Class in the Intermediate Examination held in September, 1947, (in her first attempt) and has stood 5th in rank in the Presidency. I do not know till now as to what her fate is. I suppose it is one of the business-like methods adopted by the educational institutions to tell applicants officially by a card as to whether they have been granted admission. The Christian College, the Loyola College, the Queen Mary's College and every other institution promptly lets applicants know their position. But from my alma mater I am having an experience which I never even witnessed as a student.

3. The matter has worsened for me as I see from the Indian Express of to-day that the Director of Public Instruction has issued orders to the effect that Principals of Colleges may treat candidates who do not attend classes for five consecutive days after admission as having vacated their seats. Under the above circumstances, would I have to take it that an oral empirical statement made by you that my daughter has been given admission into the B.Sc., Mathematics or Physics class means that a seat was given to her on the 26th., June itself (on which date the final list of selections was not even typed much less published)? Further, would you have me take it that I should have hanged on to seek another interview of you in the most distressing circumstances in which educated parents and hopeful undergraduates and even students of your own institution have had to put up with one of the worst inroads on their self-respect caused by your peon owing to your making yourself inaccessible? Of course, it was a small mercy that I was granted an interview without difficulty. But a sight of what others were getting would have made any reasonable parent to come to the conclusion that whatever education might be afforded by your college, certainly culture and the development of a sense of self-respect to its fulness and the integrity of the dignity of a citizen of a free country are not parts of it.

4. I am writing this not with a view to secure a seat for my daughter. I have decided not to put any of my children or suggest to others your college so long as this method of interviews and admissions are followed. As a citizen and a public man I am writing to you since I wish to agitate for a more dignified treatment of students in a free country; for, they must form the backbone of the future and not people who continue with the same outlook (or probably worse outlook) which made a servile stock of every one of the students that was found possible hitherto. Kindly, therefore, take it from me that I am not sending my daughter to your college even if you should give her a seat in the Chemistry Class or a better one than that.

5. I should have preferred talking to you about this at leisure. But the minimum of human dignity of a free citizen is repulsed by the every humiliating methods of approach through wry-faced, ill-mannered, bad tempered peons enforced on your, by no means inferior, visitors. In every other college, the Loyola, the Christian, the Engineering, the Queen Mary's etc., one can easily contact the Principal and get to know his position without any humiliation. But the premier institution run by Government presents only stiff joints. In this connection I may suggest to any one really keen about learning to interview candidates or their parents to undergo a course of training under Lt.Col.S.Paul, Principal of the Engineering College. Though not the Principal of an institution for General Education (who is expected to be the model of refinement) he has evolved a very praiseworthy, least inconvenient and quick method of seeing candidates. He has put up boards on either side of his door-way "Please do not wait even if some one is talking. Knock and enter." He has been able to see, speak and satisfy every one, even those to whom he had to refuse admission. There was never an unseemly crowd before his room, no peon driving away men like cattle and never were there more than three people at a time inside his chamber. Please do not think that my daughter has secured a seat in that College and that is why I praise him. She is not even in the provisional list. The Rev.Father De Souza has a similar method. He stands and people pass along in the order of their arrival. Each one is told what his position is. No one to-day expects any favour unduly. Understanding this they do not obstruct people from seeing them.

6. I request not to be taken amiss for writing frankly about what every one that came to see you experienced. I admit that you are as much an Indian as any one else; and, being in charge of an institution have a greater opportunity and, probably, desire to mould the future Indian. Still this aspect might not have presented itself to you or you to it.

7. I enclose a stamped and addressed envelope with a prayer that you may condescend to reply so as to enable me to understand your view point and come to a decision whether the matter has to be agitated with benefit.

Yours faithfully,

(Sd) TKT N R Tatachari

P.S.: Please let me know if you have not in the first instance itself(i.e., before 26th June) granted admission in B.Sc., Chemistry class to candidates who obtained 440 marks and even less.

The Principal is being requested to submit the report referred to in para (2) of your Telephonic Message before the 10th instant.

Joint Director of Public Instruction.

Copy of Extract referred to above. B/6/X.

The Principals of this College have been following certain traditions and conventions in the matter of admission of students into this College. In the case of girls, usually students who are likely to complete the course are preferred to those who have chances of getting themselves married and leaving the course in the middle. It has been the experience of the Principals of this College and also of the Principals of Women's Colleges that many of the well-to-do students marry in the course of their studies and discontinue the course, thus leaving permanent vacancies.

I have the honour to enclose herewith a copy of the report Rc.No.634/48 dated 13-10-1948 from the Principal, Presidency College, Madras, on the admissions made to the several classes during the current academic year, together with a statement showing the number of applications received (community-war) for admission and the number of candidates selected in the first instance. The Government Endorsement No.52512 A/48 dated 16-7-1948 is herewith submitted.

p 7 ante

Yours faithfully,

for Director of Public Instruction.

KHR.26-10.

3/26/x.

Copy of Rc.No.634/48 dated 13th October 1948 from the Principal, Presidency College, Madras.

----

1. I have the honour to submit my report on the admission to the Presidency College in June-July of this year.

(1) Admission of women students.

2. The strength sanctioned by the University of Madras for Women students of this College is 265 and all the seats have been filled up.

3. In connexion with the admission of women students into this College, it may be pointed out, that the Principals of this College have been following certain traditions and conventions. In the case of women students for the Honours Course, particularly in science subjects, where laboratory accommodation is limited, usually students who in the opinion of the Principal are likely to complete the course, are preferred to those who have chances of leaving the course in the middle by marriage, etc. It has been the experience of the Principals of this College that many of the well-to-do students marry in the course of their studies and discontinue the course thus leaving permanent vacancies which may

however, in the pass classes. It has also been the intention that facilities should be given for higher studies to those who come from areas where there is no provision for higher studies, due regard being paid to the equitable representation of all communities.

(II) General admissions.

4. Whilst making admissions, the seats were distributed to different communities as classified in Government orders. Preference was, as usual, given to back-ward communities. In a large number of cases, i.e., over 90 per cent of selections, the merit of the candidates in each community was taken into consideration. In a few cases, the Principal selected students on considerations other than marks (Please vide my report for last year).

5. In the first selection, no special consideration was shown to the students of this College as against other applicants, but in all subsequent vacancies preference was given to the students of the Presidency College. It was the intention to see that different communities under the categories prescribed by Government are fairly represented in all departments, particularly in the science departments.

6. As has been pointed out in my last year's report on the admission to this college, much of the early work of admission is wasted as a result of many of the students to whom Memos of admission were sent getting seats in the professional Colleges. Anticipating similar disappointments this year also, and with a view to seeing that no seat is left vacant, Memos of admission were issued to a greater number of students than the number of seats available in each group. In spite of this procedure adopted, it was found subsequently that there was a big drop in the admission to the Chemistry courses. Most of the students selected for admission to the Chemistry courses for which there was originally a heavy rush, had got seats in the professional Colleges, and as a result a large number of vacancies arose in Chemistry and these vacancies were as far as possible filled by students of this College who could not get seats in the first selection.

7. A few of our science students whom we could not provide in science groups, were advised, as they were anxious to get themselves admitted, to join, in the first instance, in subjects other than science and, as and when vacancies arose in the science groups, they were taken in, in the order of their marks. Several students were thus changed from Arts to Science groups.

8. As a result of late admissions in the professional Colleges, admission in this College went on till about the middle of August and even to-day stray vacancies are arising in this manner, as a result of being called up from reserved lists in the professional Colleges in this and other Presidencies.

9. As a rule, preference to the community in which the vacancies have arisen was shown in filling up the vacancies, but it has not always been possible to do so.

10. Whilst inviting your kind attention to my letter R.C.551/47 dated 15th September, 1947, on the subject of admission last year, I have the honour to state that many of the statements made therein would equally apply to admissions made this year. The procedure followed last year has been followed in the main this year, too.

11. I am also herewith submitting a statement showing community-war particulars of admission.

Number of admissions finally made after filling up the vacancies caused by the dropping of a few students as a result of their admissions to the professional Colleges.

four for students from Indonesia. But no seats have been reserved for students coming from Burma.

(g) 85 c.f. in L.F.

2. Though four seats were reserved last year in the Govt. Engg. Colleges in this Province for students coming from Indonesia only one student actually joined and the other three seats were filled up by Provl. students. This year too, it is unlikely that all the four seats reserved for Indonesia will be filled up by candidates coming from that country. The G.O.I. may well nominate the Burmese student referred to in the D.O. letter on p.c 7. against one of the seats reserved for Indonesians. The G.O.I. may ~~perhaps~~ be informed accordingly. It may be made clear to them that it will not be possible to admit the candidate otherwise. The G.O.I. may also be asked to pay a contribution of Rs 900/- p.a. in respect of the candidate, as in the case of the

Copy of letter Rc.No.634/48 dated 10th February 1950 from the Principal, Presidency College, Madras to the Director of Public Instruction, Madras.

Ref: Your Proceedings Rc.No.995 K2/47 dated 25-1-1949 communicating Government Memo 50683-3-48 A Edn., dated 18-1-1949 on the subject referred to above.

Your Proceedings cited were communicated to Dr. S.G.Manavala Ramanujam who was the Principal of the College during 1948-49 for his remarks and his reply is submitted below.

"I have the honour to state that admissions were made in Presidency College according to the instructions issued on the subject by Government from time to time during the time I was Principal of the College.

p19-20 ante

Your attention is invited to my report on the subject of admissions submitted to you in my letter R.C.634/48 dated 13-10-48, in which the procedure proposed to be followed in connection with admissions was adumbrated. It may be stated in this connexion that there was a slight deviation only in a few cases from this procedure of making admissions on the basis of marks, taking into consideration the social environment and the illiteracy of the family to which the applicants belonged. Since there was no dissent on the part of Government in regard to this procedure being followed, it was presumed that the criteria followed in the matter of admissions were approved. Only in very few exceptional cases preference for admissions was given to the children of artisans, poorly paid workers, labourers and sons of menials like gardeners, stone-masons, fruit vendors who, in my judgment, require encouragement. In addition, preference was also shown to children of members of the College staff, particularly of the more poorly paid members like Pandits, etc. and to sons of Government servants in the Ministerial service who lived in the neighbourhood of Triplicane and other members of whose family were studying in the same college. It may be stated that the 'concession' shown in respect of marks was not more than about 5 to 10 per cent of the maximum marks obtained in most cases.

p6-9 ante

Regarding the allegations made by Sri T.K.T.N.R.Tatachari in his letter dated 10-7-1948, it may be pointed out that the Presidency College is primarily a Men's Institution and it has been the practice in the College to give preference to men students. It was not possible to find a seat in the B.Sc. Chemistry for his daughter in the first selection. The results of that year were so good that there was a tremendous rush of applications for admission from old students of this College who had obtained first classes. There were, I think, 95 first classes in that year. It was quite obvious that we could not admit even all our students though they were first class men.

p19-20 ante

As has been fully explained in my letter R.C.634/48 dated 13-10-1948 the admissions in this College have to be taken up only after the results of all the Professional Colleges have been announced and our attempt in the past to eschew such delay was futile for the reasons cited in my previous letter.

Presidency College being a Government Institution, the principles of admission are governed, unlike private Colleges, by various rules and directions of the Government issued from time to time. Private Colleges are not in this position in the matter of admission. They can dispose of of the applications as and when they are received. In the case of the Presidency College, the Principal has to wait until the last date for receipt of applications has expired. The applications have then to be sent with a tabular statement to Professors in the case of Honours and post-graduate classes for their recommendations whilst the Principal takes up for consideration the admission for B.Sc. classes. Even here, the Principal can select only a few students in the first selection for the B.Sc. for he has to wait till recommendations are made for admissions to the Honours courses with a view to considering the cases of those students who have applied for admission to the B.Sc. Pass Course as an alternative to the Honours course and who by virtue of their rank in the University examinations deserve consideration. Only a very few students can be admitted to Science Honours courses. This procedure necessarily involves great delay. All things being considered, the Principal should take into consideration various aspects in connection with admissions, such as community, area or district to which the students belong, and the Institution and the proper distribution of students in the various science subjects.

After many provisional selections, a final list is drawn up. As and when subsequent lists are drawn up, fresh students are included. Admissions into the College continue even as late as the beginning of

p.t.o.

56

August every year and it would then have been possible to admit students who were not selected in the first or second list.

Such being the case, it is obvious that if a student waits for admission, in all likelihood he will have a chance of being admitted.

In his letter under reference, Mr. Thathachari has definitely stated that even if the Principal could find a way to offer a seat to his ward, his ward was not willing to join the College. Therefore, the question of giving favourable consideration to the student under reference naturally could not arise.

Intimations regarding the selections of students are sent only after final lists of admissions are drawn up".

From the D.P.I. No.995 K2/47, dated 7--9--1948.
From the D.P.I. ~~Nox~~ Post copies of T.Ms., dated 23-9-48 and 6-10-1948.
From the D.P.I. No.995 K2/47, dated 25-10-1948.

The current file contains certain allegations against the Principal, Presidency College, Madras, in connection with the admissions to the college for the academic year 1948-49. It also contains a detailed report submitted by the Principal on the admissions made to the college for 1948-49.

[illegible]

pp3-4 cf
p11cf

Admission of Logesan, a Harijan student to the Honours class:- He has since been admitted. So no further action is necessary in this matter.

pp1-2 & pp6-9cf

Admission of Miss S.Mira Bai and the daughter of Sri T.K.T.N.R.Tatachari, M.L.A.(Sri Devi):- The Principal's reply in these cases will be found on pages 10, 17, 19-20 cf. There is much in what the Principal says. It is more or less a fact that parents often send their daughters for College course pending marriage arrangements and as soon as these arrangements are complete they simply ~~withhold~~ withdraw them from the college. The only solution for this difficulty would seem to be to get an ~~indemnity~~ undertaking from the guardians or parents of ~~girl~~ women students that they would not ~~marry~~ give them in marriage till they complete the course ~~from~~ for which they are admitted.// ~~Further~~ From the figures of admission ~~were~~ furnished by the Principal it would seem that the Brahmin community has fared well and that they have ~~[illegible]~~ no cause for complaint.

'M' at p.20 c.f:

(1) Which is the portion in the last year's report to which reference is made here?

(2) Where is the reply to 'T' at pp.6-7 c.f?

M.V.S.,
6-1-49
Secy.

The portion referred to is on page 2 of G.O.at (A). The omission to reference this portion is regretted. It has now been done.

What exactly were the considerations referred to?
M.V.S.
7-1-49.

(2) The Principal's report does not contain a direct reply. But Mr. Tatachari's letter contains only vague allegations and does not contain any specific cases. So, the Principal did not probably consider it necessary to refer to this beyond stating that in a few cases he selected students on considerations other than merit. Further, Dr. Manavalaramunajam has left the College and it is doubtful whether any real purpose will be served by pursuing the matter.

The present Principal can ~~correct this~~ and send a reply.
