--P--

I submit herewith a copy of Municipal Council Resolution No. 772 dated 28-10-1949, on the Government Memorandum quoted above, for favour or information. The council has decided to adopt the Government Scales of pay for all the teachers in the secondary schools in this Municipality with effect from 1-4-1950. The extra cost in this direction may come to about Rs. 1,750/- per year, for both the boys and girls high schools maintained by this council. Necessary provision in the budget estimate for the year 1950-51 will be made. I, therefore, request that the Government may be pleased to accord their sanction for the adoption of the Government scales of pay for all the teachers in the Municipal Secondary Schools maintained by this council.

On the basis of the B.E. of the Pollachi M.L. cl. for 1949-50, the total ordinary receipts exceed the total ordinary expenditure under the general accounts by Rs 3160/-. It does not seem advisable to permit the council to incur an additional expenditure of Rs 3,000 per annum. The question may be examined again after the B.E. for 1950-51 is received.

This may be examined with refce to the cl's B.E. for 1950-51 which will be received shortly. Exp. H may send this again to L.A. after a month.

LAD (Bud I)

On the basis of the B.E. for 1950-51 the net ordinary receipts (Rs 3,93,360) of the Municipal Council exceed the ordinary expenditure (Rs 3,76,960) by Rs 16,400/- and the financial position of the M.L. cl is satisfactory. The entire cost involved in the adoption of the Govt. council scales of pay can be met from the funds of the Municipality.

The file may be returned to E & P.H. Deptt.

25/1/50  
25.1.50

The surplus of Rs.16,400/- referred to at the bottom of p.3 above is arrived at, after taking credit for a profit of Rs.7,000/- from the Electric Licence Scheme of the municipality. If the electrical undertaking of the municipality is acquired by the Govt., <sup>(as it will be done at a later)</sup> the surplus will be reduced. As stated on p.2 above, the B.E. of the M.L. Cl. for 1949-50 showed a revenue ~~expenditure~~ <sup>surplus</sup> of Rs.3,160/- only. Though it may not be very difficult for the M.L. Cl. to meet from its own funds the additional expenditure of Rs.1,750/- per annum for the present and Rs.3,000/- per annum ultimately involved in the proposal to adopt the Govt. scales of pay for teachers in the Municipal High School, it does not seem to be desirable

to permit the council to adopt the Govt. scales of pay. The expenditure on Secondary Education has been on ~~an~~ the increase considerably (vide \*figures noted in the margin) and the proposal in the present case will increase it further. In 1950-51 (B.E.) it is nearly double that in 1947-48. The council should not be allowed to increase it further as any further increase will be detrimental to other services. The council cannot undertake recurring commitment on Secondary Education under the present circumstances. This Deptt. may therefore advise against the proposal to permit the council to adopt the Govt.'s scale of pay.

With these remarks the file may be returned to the

Please see the L.A. Dept's note on the previous page. Figures in regard to the increase in the expenditure on secondary education alone have been given, but no reference has been made to the increase in the receipts under Secondary education including Govt grants. From 1-1-47 teaching grants are paid on the basis of one half of the approved net cost of maintenance of secondary schools instead of fixed lump sum subsidies which were being paid previously and grants are also paid towards one half of the expenditure on payment of dearness allowance and also compensation towards the loss of fee income. Further, local bodies have been permitted to levy ten instalments of school fees instead of eight as before. In order to form a correct estimate, it is necessary to take into account only the increase in the net expenditure from municipal funds on the maintenance of the schools taking into account the income from school fees, Govt grants etc. L.A. may be requested to furnish figures in this regard.

(\*) Increase due to opening of a middle school  
Even after taking credit for increased grant under

Secondary Education both in the R.E. for 1949-50 and in the B.E. for 1950-51, it will be observed that the net expenditure on Secondary Education in 1950-51 is on the increase.

Please see the stt above. The Pollachi Municipal

Council is now maintaining a high school for boys and a middle school for girls. The figures given in the stt above relate to the period after the introduction of the revised scales of pay. It will be observed from the last column that the net expenditure from municipal funds during the three years ending with 1949-50 is about Rs 26,000 and this cannot be said to be high. The increased expenditure in 1950-51 is due to the opening of a middle school. No credit has been taken under school fees for additional income on account of the opening of the school. If the opening of the school is permitted by the D.P.I. the council will become eligible

LAuo 5702-1-Bud I-50

a teaching grant for this school from 1951-52 and the net expenditure will not then be Rs 50, 520 <sup>for</sup> ~~as in~~ 1950-51. <sup>as estimated</sup> The figures for 1950-51 cannot therefore be taken as a guide for ~~negating~~ the proposal of the municipal council to adopt the Govt scales of pay for the staff in the secondary schools. The additional expenditure on this account can easily be made up by an increase in the rates of school fees or by other means <sup>to be decided by the Municipal Council.</sup> In the circumstances it is for consideration whether the council's proposal may be approved.
