THE LUTHERAN HIGH SCHOOL
P. CHARLES, B.A., B. Ed.
Headmaster
Manager & Correspondent

8 NOV 1949

29th October 1949.

To The District Collector,
East Godavary District,
Kakinada.

Sir,

Sub:- Relief requested for the damages and loss sustained by the Lutheran High School buildings and sheds Sakhinetiapalle Razole Taluk as a result of the recent cyclone.

Our Lutheran High school and Ele: School are 700 strong and is catering the needs of the poor people of ten villages in the locality. It contains 95% of its strength of the depressed classes. The school was established in the year 1948 as a result of the strenuous efforts of the poor labourers. About 2 lakhs of burnt bricks were prepared by them. With their meagre subscriptions and free labour the sheds were erected. The labour of so many poor people has gone to ashes within few minutes on the 27th inst by the cyclone.

The following are the details of the damages:-

1. Four blocks with burnt brick walls and thatched roofs.(21x20 ft) each room) total rooms being 13. completely collapsed and major part of the material blown off.
2. Main tiled pucca building with six rooms each room being 18x16 ft roof along with tiles blown off.
3. Assembly Hall 66x20 ft. tiled pucca building roof with tiles blown off and part of the northern wall fallen down.

The total loss is estimated to be Rs .20,000/-

Previously no help has been received from the rich classes of the locality. the above buildings and sheds were constructed only by the efforts of the poor labour as stated above and that labour is now helpless, starving for food without shelter. As such no help can be expected from them.

Now 700 children of the depressed classes will be without education unless some immediate arrangement is made, so we request your honour to grant a sum of atleast Rs 10,000 to erect thatched temporary sheds to serve the educational needs of the depressed classes. We further request your honour to pay a personal visit to look into the matter.

Yours sincerely
P. Charles

Enclosures

Sir,

Sub: Schools - Secondary - Aided - Damage to buildings
and sheds by the recent cyclone - report.
Ref: Government Memo. No. 86843 B1/49-1 Education dated
10th November, 1949.

With reference to the Memo. Cited above the Joint
Director toured the affected areas to assess the extent of damages
to instructions due to cyclone.

2. It is not possible for one officer to assess the damage
as it is spread over a big area and covers all grades of institu-
tions particularly Elementary Schools, it is therefore necessary to
wait for individual reports. The inspecting officers have been
requested to submit details of the damage which is widespread in
certain areas. On receipt of the particulars I shall consolidate
them and submit a detailed report.

2. The following give a rough idea of the damage done:-

p.t.o

5
-2-
W.G.College, Bhimavaram. --- Rs.30,000/-
U.L.C.M. High School, Bhimavaram. Rs.15,000/-
S.G.High School, Bhimavaram. --- Rs. 7,000/-
A.F.D.T.High School, Malikipuram. Rs.20,000/-
Luthern High School, Sakhinatipali Rs. 20,000/- (The
Collector has kindly agreed to send a report on the subject.

Yours faithfully,

D. O. Paulanah

To

The Secretary to Government,
Education and Public Health Department

Rc 3123 B2/49 dated 24-11-49

Sir,

Subject: Grant to be paid to the aided elementary schools
for the damages caused by the recent cyclone
Reference Government Memorandum No. 86843 B1/49-1 Edn
dated 10-11-49

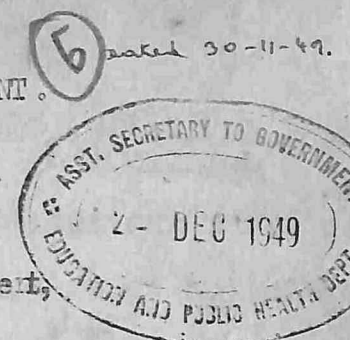

I have the honour to report that about 50 applications have so far been received from various managements for grant to be paid to them for the damages caused by the recent cyclone and the total claim with the data available so far comes to Rs 53,992 or Rs 54,000.

It is not possible to report now the exact amount that would be required for payment as grant, as applications are still being received and the applications that have been received so far from the managements have not been scrutinised by the District Educational Officers or by the Public Works Department.

3 Government may sanction in general the payment of grant on half the net cost basis to all the damaged schools similar to those sanctioned in G.Os MS 1816 Edn dated 21-7-48 and 1817 Edn. dated 21-7-48.

p.t.o.

From The Director of Public Instruction,
Madras.

To The Secretary to Government,
Education and Public Health Department,
Fort St. George, Madras.

Sir,
Sub: Schools - Secondary - Aided - Damage to building
and sheds by the recent cyclone - Report.
Ref: Govt. Memo.86843-B1/49-1 Education dated 10-11-49.

In continuation of my letter Re.No.608-D2/49 dated 22-11-49
I submit that the reports promised by the Collectors and Inspecting
Officers have not yet been received with complete particulars
as required. I am addressing the Inspecting Officers in the
matter.

2. As the matter is extremely urgent and as the affected
managements are not able to run the school for want of accommo-
dation and also since any delay might mean further deterioration
to existing wreckage involving possibly larger rehabilitation costs,
I request that Government may be pleased to permit ~~me~~ to empower
the managements to execute their repairs wherever necessary to
facilitate the running of the school.

3. As there is no time to get the estimates for the repairs,
approved by the Joint Consulting Architect, the repairs may be
executed supervised by a qualified engineer and to the satisfac-
tion of the Inspecting Officer. The grant may be based on the
actual expenditure incurred certified by the engineer incharge
and the Inspecting Officer. I presume the local Public Works
Department Officer might not have enough time to inspect and
issue a valuation certificate on the repairs executed.

4. The people of the locality have sustained great loss of
property and hence they may not be able to help the management
financially to meet the cost of repairs to school building.
In the circumstances the management will find it impossible
to meet even half of the cost of repairs. Hence I request
that Government may be pleased to hold out a promise of a full
grant towards the cost of repairs.

5. As the expenditure cannot be met from the current years'
appropriation under Building Grants to aided secondary schools,
Government will be addressed in due course for necessary additio-
nal funds. However the expenditure may be permitted pending
provision of funds. Attention is in this connection invited to
G.O.No.Ms.1020 Education and Public Health dated 22-5-46.

Yours faithfully,

J. O. Paul

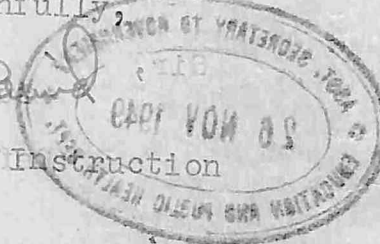

for Director of Public Instruction.

Copy to B2 and G Sections.
BR,30-11.

1.12.49
J. O. Paul

I shall submit my final report in the matter after
the receipt of full reports from the Inspecting Officers,
District Educational Officers and District Collectors.

Order Ms No *77* Education dated *10-1-1950*

The Govt approve the proposal of the D.P.I. that grants
may be sanctioned as a special case towards the cost of repairs
to or reconstruction of buildings of ~~aided~~ educational

institutions under private managements which were damaged by
the recent cyclone in Andhra districts. The grants will be
sanctioned subject to the following conditions:-

(1) Elementary schools: Grants will be ~~sanctioned~~ *paid*
towards onehalf of the actual expenditure incurred or to be
incurred by ~~the~~ managements of elementary schools subject to
the limits specified below on
production of vouchers or a certificate from an officer of
the Revenue Department not lower in rank than that of a
Deputy Tahsildar to the effect that repairs have been
carried out ~~the~~ and that the cost of the repairs is reasonable.

Lower Elementary schools - Rs 5,000 *4000*

Higher Elementary schools - Rs 7,000

(2) Secondary schools *or Junior*. The special grant will be limited to
onehalf of the actual cost of repairs/or reconstruction of
buildings subject to a maximum of Rs 35,000 in each case.

The grants will be disbursed on production of a certificate
of valuation from the local P.W.D. authorities.
(3) Colleges. The grant will be limited to onehalf of the
actual cost of repairs to or reconstruction of buildings
subject to a maximum of Rs 50,000 for each second grade
college and Rs 75,000 for a first grade college. The grant
will be disbursed on production of a certificate of valuation
from the local P.W.D. authorities.

2. In view of the urgency, the ordinary procedure prescribed for sanctioning grants for the construction of or repairs to buildings aided under the Grant-in-Aid Code will be dispensed with and the grant will be disbursed subject to the conditions laid down in para 1 above. The D.P.I. is requested to ~~not~~ permit the managements of the aided educational institutions to carry out the necessary repairs and claim the grant after the repairs are carried out. The Director is requested to take steps to estimate the cost involved and to obtain the necessary additional funds. The Accountant General, Madras, is authorised to admit the expenditure in audit pending provision of funds.

3. No compensation will be paid for loss of equipment, ~~furniture~~ ~~science articles etc~~ damaged by cyclone.

SUMMARISING NOTE.

Payment of special grants to educational institutions under private managements towards the cost of repairs to or reconstruction of buildings damaged by the recent cyclone in Andhra Desa.

The Joint Director of Public Instruction was deputed to inspect the area affected by the recent cyclone in the Andhra Desa in order to assess the extent of the damage caused. He reported that the build-

ings of all grades of educational institutions were damaged particularly those belonging to elementary schools and furnished a list of institutions which had already applied for financial assistance. He has promised to send a complete report later on.

2. As it is necessary that the repairs to the buildings damaged by cyclone should be carried out immediately to ensure the continuous running of the educational institutions, the Government ^{have} empowered the Director of Public Instruction to permit the management concerned to carry out the necessary repairs. The Govt. ^{have} also ^{agreed} ~~took~~ to sanction, as a special case, grants to the managements of the affected institutions towards ~~the~~ half of the cost of repairs to or reconstruction of buildings damaged by the cyclone, subject to the limits already fixed for new constructions. The grants will be paid to the managements of the aided elementary schools concerned on production of vouchers in support of the expenditure actually incurred on repairs or a certificate from an officer of the Revenue Department not lower in rank than that of a Deputy Tahsildar to the effect that the repairs have been carried out and that the cost of the repairs is reasonable. In respect of aided colleges and secondary and training schools, the grants will be disbursed on production of a certificate of valuation of the repairs carried out from the local Public Works Department authorities.

3 As the grants promised to the managements of aided educational institutions towards the cost of repairs to or reconstruction of buildings damaged by ~~provisions~~ the recent cyclone are not admissible under the ordinary provisions of the Grant-in-Aid Code and as the total non-recurring grant payable is likely to exceed Rs.50,000, the proposal should ordinarily be treated as a 'New Service' and placed before the Standing Finance Committee and the Cabinet. In view of the extreme urgency, orders were issued after circulating the case to H.M.(E & L.), H.M.(Fin.) and H.Pr. This note is circulated to the other Hon'ble Ministers, the Chief Secretary and the Finance Department for information.

S.V.M.

to ensure the continuous running of the educational institutions, the Government empowered the Director of Public Instruction to permit the management concerned to carry out the necessary repairs. The Govt. also undertook to sanction a special grant towards the management of the affected institutions towards the cost of repairs to or reconstruction of buildings damaged by the cyclone, subject to the limits already fixed for new constructions. The grants will be paid to the managements of the aided elementary schools concerned on production of vouchers in support of the expenditure actually incurred on repairs or a certificate from an officer of the Revenue Department not lower in rank than that of a Deputy Magistrate to the effect that the repairs have been carried out and that the cost of the repairs is reasonable. In respect of aided colleges and secondary and training schools the grants will be disbursed on production of a certificate from the Director of Public Instruction to the effect that the repairs have been carried out and that the cost of the repairs is reasonable.

p18

From the D.P.G. Re. 3123 B2/49 d/24-11-49.

p18

On a representation ^{received} from the Headmaster and Correspondent of the Lutheran High School, Sakthimeti pally, that the school buildings and sheds have been considerably damaged during the recent cyclone, resulting in an estimated loss of Rs 20,000/- to the management, the D.P.G. was requested to depute the Jt. D.P.G. or one of the Dy. D.P.G. to inspect the affected area to assess the extent of the damage caused by the cyclone and submit a report in the matter.

p18

p18

2. The Director has reported that buildings of all grades of educational institutions have been affected by the cyclone, those belonging to elementary schools being particularly hard hit. Because of the widespread damage it has not been possible for the Jt. Director who toured the area to assess the exact extent of the damage. The D.P.G. states that further reports are awaited and that the collector has also promised a report.

para 2 of 48

p18

p18

3. As regards elementary schools, the Director has received applications from 50 managements for grants ^{for Rs 50,000} towards repairs to buildings necessitated by the recent cyclone. He ~~recommends~~ recommends that grants towards half the cost of repairs may be sanctioned to all the damaged schools. The question of sanctioning grants may be considered on receipt of the consolidated report from the D.P.G. Extracts of pp 6-7 of will be given to C. Section for taking necessary action.

29/11/49

30/11/49

30/11/49

A further report received from the D.P.G. has been

added to the current file. The Director states that full particulars have not yet been received. But as the repairs to the buildings are extremely urgent, to ensure the continuous running of the secondary schools, he requests that he may be empowered to permit the managements to execute the repairs wherever necessary. The Director suggests that the actual cost of repairs may be certified by the engineer in charge and the Inspecting Officer as the P.W.D. authorities in the area may not have time to inspect the same and issue valuation certificates. As the people of the area have been hard hit by the ravages of the cyclone, the Director recommends that the entire cost of repairs to buildings of secondary schools may be met by Govt. as the managements may not be in a position to meet their half of the expenditure in the absence of public contributions if the grants were restricted to the usual half the cost. In view of the extreme urgency, it is for consideration whether the proposal of the Director that he may be empowered to permit managements of secondary schools to execute repairs wherever necessary and that the entire cost of the repairs may be met by Govt, may be accepted.

5. Pending receipt of the exact extent of damages and the number of schools involved, the file may be sent to Finance and P.W.D. U.O for remarks on the proposal of the D.P.I. referred to in para 4 above

Finance (Exp.A.) Deptt.

Please see the notes on pp.1-3 above.

The D.P.I. has made the following proposals in regard to the payment of grants to educational institutions towards repairs to buildings damaged by the recent cyclone.

I. Aided Elementary Schools. The D.P.I. has stated that about 50 applications have so far been received from various managements for grant to be paid to them for the damages caused by the recent cyclone and that the total claim with the data available so far comes to Rs.54,000/-. He has also stated that it is not possible to report now the exact amount that would be required for payment as grant, as applications are still being received and that the applications that have been received so far from the managements have not been scrutinised by the District Educational Officers or by the Public Works Department. He, therefore recommends that the Government may sanction in general the payment of grant on half the net cost basis to all the damaged schools. He has promised to submit his final report in the matter after

para 1, p6 CF

ibid

para 2, p6 CF

para 3, p6 CF

para 4, p6 CF

the receipt of full reports from the Inspecting Officers, D.E.O's and Dt. Collectors.

II. Aided Secondary Schools. The D.P.I. has stated that the following give a rough idea of the damage done ^{for as information is available:-}

	Rs.
W.G. College, Bhimavaram ...	30,000
U.L.C.M. High School, Bhimavaram...	15,000
S.G. High School, Bhimavaram ...	7,000
A.F.D.T. High School, Malikipuram	20,000
Lutheran High School, Sakhinetipalli	20,000
	<u>92,000</u>

The D.P.I. requests:-

(i) that, as the matter is extremely urgent, and as the affected managements are not able to run the Schools for want of accommodation, the Govt. may be pleased to empower him (the D.P.I.) to permit the managements to execute the repairs, wherever necessary to facilitate the running of the schools;

(ii) that, as there is no time to get the estimates for the repairs approved by the Joint Consulting Architect, the repairs may be executed, supervised by a qualified engineer, and to the satisfaction of the Inspecting Officer, and that grant may be based on the actual expenditure incurred as certified by the Engineer-in-Charge and the Inspecting Officer, (He presumes that the local P.W. Officer may not have enough time to inspect and issue a valuation certificate on the repairs executed).

(iii) that, as the people of the locality have sustained great loss of property and as they may not be able to help the managements ^{financially} to meet the cost of repairs to school buildings, and as the managements will find it impossible to meet even half of the cost of repairs, the Government may be pleased to hold out a promise of a full grant towards the cost of repairs.

It is presumed that ^{Presumably} E. & P.H. agree with the D.P.I. so far as ^{are concerned} Item I.

Elementary Schools separately. As regards Item II-

2. Aided Elementary Schools.
Following the precedents in G.O.Nos. 815 Edu. dated 15-4-1946 and 1816 and 1817 Edu. dated 21-7-1948, Finance may agree in principle to the sanction of a grant of one-half of the actual expenditure incurred, or to be incurred by the managements of Elementary Schools, on repairs to or reconstruction of school buildings damaged by the cyclone, the grant being disbursed in the manner laid down in para. 2 of G.O.No. 815 Edu. dated 15-4-1946, i.e., subject to the production of a certificate from an Officer of the Revenue Deptt. not lower in rank than that of a Deputy Tahsildar to the effect that repairs have been carried out and that the cost of the repairs is reasonable. At present, ordinary building grants ^{for new construction} are limited to one half of the actual cost, subject to a maximum of Rs. 5,000/- for lower elementary schools and Rs. 7,000/- for higher elementary schools. Perhaps a limit of Rs. 3,000/- for lower elementary schools and Rs. 5,000/- for higher elementary schools may be laid down in respect of the special grants now proposed for repairs to buildings damaged by the cyclone. No compensation ^{will} be paid for loss of equipment, furniture etc.

3. Aided Secondary Schools. The D.P.I. has recommended the payment of full grant towards the cost of repairs to Secondary School buildings damaged by cyclone. But in the precedent cited by him, viz. G.O.No. 1020

Edn. dated 22-5-1946, only a half grant was sanctioned as a special case, to certain secondary schools affected by cyclone, as in the case of Elementary Schools.

Following this precedent, Finance may advise that the special grant now proposed for secondary schools also may be limited to one half of the actual cost of repairs and that a suitable upper limit may also be fixed.

~~In view of the cost limit of Rs. 10,000/- for repairs, it seems that a suitable maximum would be Rs. 10,000/- for each school.~~ (The limit fixed for ordinary new buildings grant for secondary schools is Rs. 35,000/-.)

Finance may agree with the E. & P.H. that the valuation certificate should be by the P.W. authorities. ~~only but there would ordinarily be~~ no need to sanction special staff for the purpose, especially if the certificates of Revenue authorities, are accepted in respect of Elementary Schools, as suggested in para. 2/above. The

~~C.F. will surely come up for special staff if necessary, and the question may be considered then.~~

4. Financial procedure. As the grants proposed are not admissible under the ordinary provisions of the Grants-in-aid Code and are in the nature of special grants and as the total expenditure involved is large and exceeds the limit of Rs. 10,000/- non-recurring, the proposal should be treated as a "New Service." E & P.H. may be requested to follow the appropriate "New Service" procedure in this case. As the expenditure may well exceed Rs. 50,000/-, the matter should ordinarily be referred to the S.F.C. and the Cabinet. In view of the extreme urgency, pointed out by the D.P.I., there

Finance may agree to the short circuit procedure provided seems to be no objection to the procedure for such cases being followed.

~~Finance may agree to the short circuit procedure provided seems to be no objection to the procedure for such cases being followed.~~

~~being followed.~~

A half grant seems sufficient. In fact the application on p. 1 of. is for a half grant. 26.12.46

SECRETARY TO GOVERNMENT 10/3/57 28 DEC 1949

The case relates to the payment of grants to educational institutions under private managements towards repairs to buildings damaged by cyclone. The Finance Department's note on pp. 3 to 6 ante which sets out the proposals may be perused. The points for decision are:

(i) Basis for payment of grant. As no private benefactions are likely to come in and as the managements may not be in a position to meet a portion of the cost of repairs from their own funds and as it is necessary to have the repairs carried out immediately, the D.P.I. has suggested that Govt may hold out a promise of a half grant towards the cost of repairs to the damaged aided elementary school/buildings and a full grant towards the cost of repairs to aided secondary schools and colleges.

(a) Aided Elementary schools The Finance Department agree in principle to the sanction of a grant of one half of the actual expenditure on repairs or reconstruction of school buildings damaged by cyclone subject to the condition that the maximum amount of grant to be paid on the above basis may be limited to one half of the limit fixed for new constructions, viz Rs 2,500 for lower elementary schools and Rs 3,500 for higher elementary schools and that no compensation need be paid for loss of equipment (furniture etc). They also suggest that the grants may be disbursed on production of a certificate from an officer of the Revenue Department that repairs have been carried out and the cost of the repairs is reasonable. The suggestion of Finance seems acceptable.

(b) Aided secondary schools and colleges Finance suggest that as in the case of elementary schools the grant may be limited to one half of the actual cost of repairs subject to a maximum of Rs 10,000 for each school and Rs 15,000 for each college - the limit fixed for new buildings being Rs 35,000 for aided secondary schools, Rs 50,000 for II grade colleges and Rs 75,000 for I grade colleges. They also suggest that the grants may be disbursed on

production of a valuation certificate by the P.W. D. authorities as proposed by this Dept instead of the

8
and the inspecting officer. The maximum limit for grant suggested by Finance
in the estimated cost of repairs to certain aided secondary schools
and an aided college. The cost is likely to ~~exceed~~ ^{maximum} when the repairs
are actually carried out. It is for consideration whether the limit
may be ~~raised~~ ^{May be accepted} to Rs 15,000 for secondary schools and to Rs 20,000 to
aided colleges to avoid further references in the matter to Govt.
3-1-50

3 Financial procedure- The liability involved ~~XXXXXXXXXXXX~~
cannot be estimated accurately at present, but it may safely be assumed
that it may not exceed one lakh on half cost basis subject to the
limits proposed. As suggested by Finance the D.P.I. may be asked
to permit the management of aided educational institutions to have the affairs conducted
to take steps to estimate the cost involved and to obtain necessary
additional funds. Meanwhile the A.G. may be asked to admit the
expenditure on payment of grants in audit. In view of the extreme
urgency, Finance have agreed to the short circuit procedure being
followed dispensing with the reference to the S.F.C. and Cabinet.
3 The file may be circulated to H.M.(Edn and Law), H.M.(Fin) and
H.Pr for orders on the proposals set out in forms 1 and 2 above.
18/1/50
21.50
3-1-50
AM
4/1/50
AST / S

Finance have agreed that a half grant towards the cost
of repair of schools damaged by the cyclone in Andhra may
be given subject to a limit which is half the limit pre-
scribed for new constructions. The total liability arising
is estimated not to exceed Rs 1 lakh.

It is for consideration whether the limit should be
half the usual one. In this connection it has to be
remembered that in connection with fresh constructions
the schools are able to draw on public generosity over an
extended period of time. The position now is that public
generosity will be affected by the same cyclone and that
the ~~new~~ constructions have to be made immediately. In the
circumstances it would appear desirable to allow the
maximum limit as in the case of new constructions. The
additional expenditure involved cannot be exactly esti-
mated; but at first it may not be more than 50 % of the

total as calculated with reference to half the usual 1.
