Dear Friend,

It has been decided to hold the sixth All India Basic Education Conference on April 8, 9, and 10, 1950, at Angul, Dist. Dhenkanal, Orissa. The special feature of this year's Conference will be that it is being organized not as an educational conference only, but as an integral part of the Sarvodaya Sammelan (All India Conference of Constructive Workers) to be held at Angul (Orissa) from the 6th to the 13th of April 1950. Problems of National education, therefore, will be discussed against the wider background of the constructive programme as a whole.

**Programme of the Conference :-**

The discussions of the Educational Conference will centre round the problems connected with the five main stages of 'Nai Talim' or New Education, of which 'Basic Education' forms a part. The following provisional programme has been drawn up:-

- |      |               |                                                                                                                        |
|------|---------------|------------------------------------------------------------------------------------------------------------------------|
| 8th: | 8 to 11 a. m. | Pre-Basic Education (or education for children below the age of 7 years).                                              |
|      | 2 to 5 p. m.  | Eight years programme of Basic Education (or education of boys and girls of 7 to 15 years)                             |
| 9th: | 8 to 11 a. m. | Post-Basic or Adolescent Education.                                                                                    |
|      | 2 p. m.       | University Education and Research work as a continuation of the programme of Basic Education and Post-Basic Education. |

( 2 )

( N. B. In this meeting the recommendations of the University Commission Report on Rural Universities will be considered. )

10th: 8 to 11 a. m. Social or Adult Education.

2 to 5 p. m. Findings of the Conference.

Besides these general discussions it is also expected that the delegates to the Conference will discuss in small groups special problems of Basic Education, such as the training of teachers, the technique of correlated teaching, the technique of craft teaching, the teaching of special subjects such as art, music, etc., techniques and standards of assessment in Basic Education, preparation of literature, etc. An attempt will be made to make the programme of the Conference elastic so as to afford full opportunities for these discussions.

An Educational Exhibition will also be organized as a part of the Conference.

The final invitation to the Conference and Exhibition will be sent in due course on behalf of the Reception Committee. I am sending this early invitation so that the necessary sanctions may be issued in time for the deputation of educational officers and teachers to the Conference and participation in the Exhibition,

#### **Deputation of Workers of Basic Education and Educational Officers to the Conference.**

We suggest that the following minimum number of workers may be deputed to the Educational Conference :-

1. Director of Public Instruction
2. Special Officer of Basic Education
3. Officer of Social Education
4. One representative from training institutions of Basic Education.
5. Two representatives from among teachers of Basic, Pre-Basic, or Post-Basic Education.
6. One Worker of Social Education.

( 3 )

As regards expenses, it should be mentioned that the Reception Committee is going to offer free hospitality to all delegates. The Government may, therefore, waive the existing rules regarding travelling allowances for officers and sanction actual travelling fare.

The Educational Exhibition will be a part of the General Sarvodaya Exhibition. The Exhibits and officers in-charge should, therefore, reach Angul at the latest by the 4th April 1950.

#### **Educational Exhibition :-**

It is hoped to make the Exhibition an effective part of the Educational Conference. The following general suggestions are, therefore, made regarding the contributions from your province to the Exhibition :-

1. The exhibits ( charts, models, literature, or products of craft work ) may be reduced to the minimum selecting any original or significant contribution that a particular institution may have made to Basic Education. Our past experience has been that the workers bring too many exhibits of unequal value.

2. Only new material with special reference to work of the year 1949-1950 should be sent to the Exhibition. It is necessary to mention this as the same material has often been exhibited by institutions at every succeeding Exhibition of Basic Education.

3. Due intimation regarding requirements of wall space etc., should be sent in time to the Organizer of Basic Education in Orissa, District Dhenkanal, P. O. Angul.

4. All textiles to be exhibited should be hand-spun and hand-woven.

Yours sincerely

A draft letter to the Chairman of the Board of Basic Education and a draft D.O. to the D.P.I. are submitted for approval. Please see the communication from the Secretary, Hindustani Talimi Sangh. It will be seen therefrom that the Reception Committee will offer free hospitality to all the delegates.

2. The Chairman of the Board of Basic Education recommends that non-officials in the field of Basic Education may also be deputed by Govt. It does not seem necessary for the Govt. to depute non-officials. If they are deputed, the expenditure connected with travelling allowance may have to be met from Provincial funds. Perhaps the D.P.I. may be asked to bring to the notice of all the private agencies working in the field of Basic education the Conference to be held at Augul. It may be left to the individuals concerned to attend the Conference at Augul.
