Sir,

In reference to memorandum No 4752 dated 19th September 1883 from the Surgeon General with the Government of Madras, a copy of which has been forwarded to me from your office, I have the honor to submit for the consideration of the Surgeon General the following statement.

2. I have consulted with the Medical Officers in charge of the Native Dispensary at Royapuram and the Egmore Female Dispensary, and have visited those institutions, and I find that at neither of them is there any accommodation for a Dental Surgeon, either in the matter of sufficient room or as regards the appliances necessary for the performance of Dental operations.

and

and that the number of patients applying to be treated there for Dental diseases is likely to be extremely small.

3. I understand, also, that my predecessor Mr. Gould, did not, mainly for the above reasons, attend at these hospitals during the time that he was in Madras.

4. I beg, therefore, to be allowed to assert my conviction that, in place of incurring the expense of supplying these several institutions with the furniture, instruments and materials necessary for the treatment of Dental disease, it would be, not only more economical, but also more conducive to the satisfactory carrying out of such treatment, that some of that expense should be applied to the improvement of the appliances &c in the Dental Department of the General Hospital; that dental cases from the Native Dispensary and the Egmore Dispensary - when there would be few or no students to demonstrate to - should be referred to the General Hospital; and that in order to provide for a possible

increase

increase in the number of patients, it should be arranged for the Dental Surgeon to attend there on three days in the week, instead of two as formerly. By this means, also, the conservative treatment of dental caries, to a larger extent than has hitherto been possible, might be undertaken.

I have the honor to forward for the favorable consideration of the Surgeon General.

2. I am strongly of opinion that in the interests, both of patients and students, it would be much better if the Dental Surgeon attended three days a week at the General Hospital, than if he attended here two, and one day at Egmore Dispensary and another

at

at Native Infirmary.

Educational DEPARTMENT.

SIR,

With reference to G.O. Nos 810 and 849 Educational, dated the 24th October 1894 and 7th November 1894 respectively, I have the honor to report that when Mr. Badcock reported himself at my office, I communicated to him the following orders of Government regarding his hospital duties as far as they concerned the Medical Department. — G.O. No 509 dated 30th August 1888, Educational, G.O. No 680 Educational, dated 10th October 1883 and a copy of this office Memo No 4752 dated 19th September 1883 (a copy of which is attached), and communicated them to the officers in charge of the different hospitals concerned.

2. I have since ascertained that the orders regarding the hospital duties have never been properly carried out and that Mr. Gould only attended at

The

the General Hospital where a properly equipped consulting room had been provided for him.

3. I now attach a true copy of a letter from Mr. Badoock with an endorsement by the Senior Medical Officer, General Hospital, for the favorable consideration of Government, as I am convinced that Mr. Badoock could do more useful work if his hospital duties were confined to the General Hospital on three days in the week.

4. I would also suggest that Mr. Badoock's position in relation to the Medical Department should be made clear by his being gazetted Dental Surgeon, vide G. O. No. 416 Enis, dated 27 June 1883, to the General Hospital and that he should become a member of the Staff of that Institution.

It will be seen that G. O. No. 849 Educational, dated 7 November 1894 was not communicated to me until I asked for it although Mr. Badoock has very important duties to perform in connection with the Medical Department.

I have the honor to be

THE HONORABLE THE CHIEF SECRETARY TO GOVERNMENT.

FORT ST. GEORGE.

SIR,

In submitting herewith the enclosed letter from the Surgeon-General, N^o. 126, dated, 9th instant to the address of Government, I have the honour to state that I do not consider it necessary that Mr. F. Badoek should be gazetted as suggested by the Surgeon-General as Dental Surgeon, General Hospital he not having been gazetted as Professor of Dentistry, Medical College, in the first place. In fact the names of none

of the officers appointed in England by the Secretary of State under a special covenant are gazetted by the local Government. Moreover, the designation which the Surgeon-General wishes to adopt, viz, "Dental Surgeon to the General Hospital" does not in my opinion adequately represent all the duties that may be required of him under the latter part of para 3 of his agreement communicated with G. O. dated, 7th November 1894, N. 249, Educational; Taking all the above facts into consideration, I think that it would suffice, for the present, if the Surgeon-General were authorized

authorized to issue a notification similar to that approved in G. O. dated, 10th October 1883, N. 680, Educational.
