I have the honor to submit for favorable consideration.

2. The Principal's N^o. referred to overleaf is as follows -

"I have the honor to bring to your notice that though the wooden door asked for in this office N^o ⁹⁴ ₁₅₇₄ of 29th January 1894 has been put up, nothing has been done to protect the windows from sun and rain."

2. "Some protection is absolutely necessary, as the room is at present used for the library and also as a reading room for senior students. I would suggest a verandah, which could also be used as a covered way, instead of monkey tops to the windows."

I have the honor to forward for favorable consideration.

2. The Principal's letter referred to overleaf is as follows -

"I have the honor to bring to your notice that godowns in which furniture may be safely stored away when not required are very much needed in the Medical College. To meet this want, I would suggest that the old stables be utilized. With a little alteration and addition to it, this building could be made available for the purpose at a moderate outlay. I have therefore to request that the sub-divisional officer be directed to examine the building and frame the necessary estimate. The Senior Assistant of the College will show him the building and give him all the needful information regarding the addition that will be required."
