GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—again the following papers:—

G.O., dated 1st June 1894, No. 381, Educational.

ABSTRACT.—Passing orders on the question of transferring the Madras Industrial School to "Grassmere" or to the Civil Orphan Asylum buildings.

G.O., dated 22nd October 1894, No. 801, Educational.

ABSTRACT.—Considering it unnecessary to provide additional accommodation in the Military Female Orphan Asylum buildings on account of the inmates of the Civil Female Orphan Asylum, and requesting the Sanitary Commissioner to report as to the extent of the accommodation available for boys of the Industrial school in the building to be vacated by the Civil female orphans.

READ—also the following papers:—

From Surgeon-Lieut.-Col. W. G. KING, D.P.H., Acting Sanitary Commissioner, to the Chief Secretary to Government, dated Calicut, 15th November 1894, No. 2008-S.

With reference to G.O. No. 801, dated the 22nd October, Educational, I have the honour to express regret that the proposals regarding the Civil Female Orphan Asylum were not entered into in sufficient detail. Government in its order No. 381, Educational, dated 1st June 1894, desired that it be informed whether accommodation could be obtained for 100 resident pupils plus 60 as day scholars, making a total of 160 for whom workshop space was to be found. Having settled the fairly safe minimum cubic capacity of 600 feet per head as the standard measurement desirable for dormitories, it was found that the requirements of resident pupils could be met by distributing 74 in the dormitory of the main building, and the remainder in the upper floor of the female hospital. It was further considered that in the lower floor of the hospital, allowing 400 cubic feet per head, 40 pupils engaged in sedentary or light labour could be received; thus 120 pupils had still to be arranged for.

2. From information supplied, it was estimated that one-third of the total number of pupils would be instructed in trades demanding light labour, whilst two-thirds would be trained as blacksmiths, carriage builders, and in other trades requiring considerable muscular exertion.

3. Seeing that no suitable buildings for the latter purposes existed on the premises, it was proposed to erect a shed, of an economical description, of old rails and tiles, at a cost of Rs. 1,800. The only further expenditure suggested was the alteration, at a cost of Rs. 300, of the latrines and lavatories rendered necessary by the contemplated increase of population.

4. It was found that the utilization of the female hospital for the purposes specified, would not cause inconvenience, the General Hospital having hitherto been resorted to by the Industrial school pupils, although there would be room available in the hospital attached to the Male Orphan Asylum for the treatment of emergent cases.

5 In its order No. 801, dated 22nd October 1894, Educational, Government desired it to be ascertained whether accommodation could be provided for 50 pupils. As, however, a workshop must, both under this and the original scheme, be arranged

for, I would respectfully suggest, in view of the explanation now afforded in the preceding paragraphs, that the small amount estimated under this head by the Consulting Architect would be spent with great advantage, in that the existing costly dwelling accommodation could be fully utilized, and thus the original scheme of a total of 100 resident *plus* 60 day pupils could be adhered to.

6. The resident staff at present attached to the Industrial school consists of an European Superintendent and an Assistant master. Rooms for two persons of the latter class can be provided, but suitable quarters for the former are not available on the premises.

From H. IRWIN, Esq., C.I.E., Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Chepauk, 30th November 1894, No. 2609.

With reference to G.O. No. 2848 W., dated the 8th instant, I have the honour to submit a rough estimate, amounting to Rs. 3,820, of the cost of fitting up the hospital of the Civil Female Orphan Asylum into a workshop.

ENCLOSURES.

ROUGH estimate of the cost of fitting up the hospital of the Civil Female Orphan Asylum Madras, as a workshop for the Industrial school.

	RS.
Petty alterations to the main building, removing cross walls, &c.	100
Cost of tools and plant required to fit up the hospital as ascertained from the Honorary Secretary, Industrial school, details attached ..	1,920
Heavy labour workshop	1,800
Total ..	3,820

(Signed) J. PENNYCUICK, Colonel, R.E.,
Secretary to Government, P.W.D.

6th December 1894.

ORDER—dated 22nd January 1895, No. 53, Educational.

The papers read above relate to Mr. Monro's scheme for the amalgamation of the female branch of the Civil Orphan Asylum with the Military Female Orphan Asylum, and the removal of the Industrial School into the buildings now occupied by the girls of the Civil Orphan Asylum. Further orders cannot be passed on this subject until a detailed scheme has been laid before Government, and, for the purpose of obtaining such a scheme, the Government resolves to appoint a committee consisting of the following members:—

- (1) the Director of Public Instruction (Chairman);
- (2) the Hon'ble Mr. A. T. Arundel;
- (3) two members of the governing body of the Military Female Orphan Asylum;
- (4) two Directors of the Civil Orphan Asylum;
- (5) a member of the committee of the Madras Industrial School;
- (6) the Consulting Architect.

The Government Solicitor will also be requested to assist the committee in regard to any legal questions that may arise.

2. The committee will be invited to notice specially in its report the following points:—

- (1) the initial outlay requisite and its distribution among the different institutions concerned;
- (2) the suitability of the present system of aid by Government;
- (3) the industrial instruction to be imparted to the boys of the Civil Orphan Asylum and the Industrial School;
- (4) the organization of a joint committee for the amalgamated female orphan asylums;
- (5) the rules for the future management of the amalgamated female orphan asylums and of the Male Civil Orphan Asylum and the Industrial School, so far as these two institutions are combined;
- (6) the re-organization of the establishments; and
- (7) the future financing of the institutions concerned.

3. From the latest correspondence before Government it would appear that the accommodation which will become available on the transfer of the civil orphans to the Military Asylum will be ample for the Industrial School boys and that little more will be necessary than to provide a cheap shed and plant for the use of the boys engaged on heavy labour. For those employed on light work the hospital will apparently afford more than sufficient accommodation, and the upper floor will probably be available for the use of the European Superintendent. It will also be possible, in all probability, to accommodate some of the members of the staff in the buildings vacated by the girls. If quarters for all the staff cannot be found on the premises, the Superintendent might receive a house allowance and live outside. These, however, are matters for the committee to decide.

Sir,

With reference to G. O. No 801 dated the 22nd
Oct Edl., I have the honour to express regret that the proposals
regarding the Civil Female Orphan Asylum were not entered into
in sufficient detail. Government in its Order No 381, Edl
dated 1st June 1894, desired that it be informed whether accom-
modation could be obtained for 100 resident pupils plus 60
as day scholars - making a total of 160 for whom workshop space
was to be found. Having settled the fairly safe minimum cubic
capacity of 600 ft per head as the standard measurement de-
sirable for dormitories, it was found that the requirements of
resident pupils could be met by distributing 74 in the dormitory
of the main building, and the remainder in the upper floor of
the Female Hospital. It was, further, considered that in
the lower floor of the Hospital, allowing 400 cubic feet per
head, 40 pupils engaged in sedentary or light labour could be
received; thus, 120 pupils had still to be arranged for.

2- From information supplied, it was estimated that one-third
of the total number of pupils would be instructed in trades de-
manding light labour, whilst two-thirds would be trained as
blacksmiths, carriage builders, and in other trades requiring
considerable muscular exertion.

3--- Seeing that no suitable buildings for the latter pur-
poses existed on the premises, it was proposed to erect a
shed - of an economical description - of old rails and tiles -
at a cost of Rs 1800. The only further expenditure suggested
was the alteration, at a cost of Rs 300, of the latrines and

lavatories -rendered necessary by the contemplated increase of population .

4--- It was found that the utilization of the Female Hospital for the purposes specified , would not cause inconvenience -The General Hospital having hitherto been resorted to by the Industrial School pupils ;although there would be room available in the Hospital attached to the Male Orphan Asylum for the treatment of emergent cases .

5--- In its Order 80I , dated 22nd Oct 1894 ,Ed. , Government desired it to be ascertained whether accommodation could be provided for 50 pupils . As , however , a workshop must both under this and the original scheme be arranged for , I would respectfully suggest - in view of the explanation now afforded in the preceding paras. - that the small amount estimated under this head by the Consulting Architect would be spent with great advantage , in that the existing costly dwelling accommodation could be fully utilized , and thus the original scheme of a total of 100 resident plus 60 day pupils could be adhered to .

6-- The resident staff at present attached to the Industrial School , consists of an European Supt . and an Asst . -Master . Rooms for two persons of the latter class can be provided , but suitable quarters for the former are not available on the premises .

No. 2609

From
Henry Irwin, Esq., C.I.E.,
Consulting Architect
to the Government of Madras,

To
The Chief Engineer
Public Works Department.

Sir,
With reference to G.O. No. 2848 W
dated the 8th Instant, I have the honor to
submit a rough estimate amounting to
Rs 3820/- of the cost of fitting up the Hospital
of the Civil Female Orphan Asylum into
a workshop.

2 Enclosures.

I have the honor to be,
Sir,
Your most obedient Servant,
Henry Irwin
Consulting Architect to Govt.

Provision that ample accommodation will be available in the vacated part of the C.O.A., & that the cost of adapting it, viz R300 for altering windows & and R1200 for a hand-labour shed will not be excessive; so the Committee may be approached at once. The C.A. estimates the cost of fitting the Female Hospital for hand-labour work at R3020, but this will not be required, though no doubt something will be wanted for it for light-labour work. More accommodation will be available in the hospital than is wanted, & it is possible that the Capt & Asst Master of the Industrial school may get quarters there.

JG
25/12

Two Asst Masters can be quartered in the main building of the C.F.O.A. now occupied by the girls, in the rooms now allotted to the Master & Asst Master (?), while the upper floor of the Female hospital shd do for the Capt - The proposed Committee might be asked about this (intention) - If quarters for all these men cannot be found on the premises the Capt will have to get houses & live outside.

RS
7/1/95

C. No 1290 & 1378 & D.Q.N. 633

For Orders

These were detained by the office pending receipt of the replies about the utilization of 'Grasmere'; but that is a matter which can be best disposed of separately.

It now appears that the dormitory vacated by the girls will accommodate 74 boys; there is certainly then no need to use the upper floor of the hospital as a dormitory.

Allowing for 160 pupils, the San. Com. estimates that heavy labour will engage about 100; light the rest.

The light labour boys will be provided for in the hospital & they will probably need both floors, for the San. Com. says the lower floor will accommodate only 40.

For the heavy labour boys a shed is to be run up at a cost of R1500.

~~Under the shed there will be a large room for the~~

There seems nothing to do but appoint the Committee (Mr. Arundel has consented to serve) & ask it to

report at an early date on the subject of ways & means & the other matters referred to in para. 5 of the Note for Orders in S.O. 22/10/94, No 801.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—again the following papers:—

G.O., dated 1st June 1894, No. 381, Educational.

ABSTRACT.—Passing orders on the question of transferring the Madras Industrial School to "Grassmere" or to the Civil Orphan Asylum buildings.

G.O., dated 22nd October 1894, No. 801, Educational.

ABSTRACT.—Considering it unnecessary to provide additional accommodation in the Military Female Orphan Asylum buildings on account of the inmates of the Civil Female Orphan Asylum, and requesting the Sanitary Commissioner to report as to the extent of the accommodation available for boys of the Industrial school in the building to be vacated by the Civil female orphans.

READ—also the following papers:—

From Surgeon-Lieut.-Col. W. G. KING, D.P.H., Acting Sanitary Commissioner, to the Chief Secretary to Government, dated Calicut, 15th November 1894, No. 2008-S.

With reference to G.O. No. 801, dated the 22nd October, Educational, I have the honour to express regret that the proposals regarding the Civil Female Orphan Asylum were not entered into in sufficient detail. Government in its order No. 381, Educational, dated 1st June 1894, desired that it be informed whether accommodation could be obtained for 100 resident pupils *plus* 60 as day scholars, making a total of 160 for whom workshop space was to be found. Having settled the fairly safe minimum cubic capacity of 600 feet per head as the standard measurement desirable for dormitories, it was found that the requirements of resident pupils could be met by distributing 74 in the dormitory of the main building, and the remainder in the upper floor of the female hospital. It was further considered that in the lower floor of the hospital, allowing 400 cubic feet per head, 40 pupils engaged in sedentary or light labour could be received; thus 120 pupils had still to be arranged for.

2. From information supplied, it was estimated that one-third of the total number of pupils would be instructed in trades demanding light labour, whilst two-thirds would be trained as blacksmiths, carriage builders, and in other trades requiring considerable muscular exertion.

3. Seeing that no suitable buildings for the latter purposes existed on the premises, it was proposed to erect a shed, of an economical description, of old rails and tiles, at a cost of Rs. 1,800. The only further expenditure suggested was the alteration, at a cost of Rs. 300, of the latrines and lavatories rendered necessary by the contemplated increase of population.

4. It was found that the utilization of the female hospital for the purposes specified, would not cause inconvenience, the General Hospital having hitherto been resorted to by the Industrial school pupils, although there would be room available in the hospital attached to the Male Orphan Asylum for the treatment of emergent cases.

5. In its order No. 801, dated 22nd October 1894, Educational, Government desired it to be ascertained whether accommodation could be provided for 50 pupils. As, however, a workshop must, both under this and the original scheme, be arranged

The Secretary to Govt. P.W.D.
for the purpose of construction of workshop.

17/1

for, I would respectfully suggest, in view of the explanation now afforded in the preceding paragraphs, that the small amount estimated under this head by the Consulting Architect would be spent with great advantage, in that the existing costly dwelling accommodation could be fully utilized, and thus the original scheme of a total of 100 resident *plus* 60 day pupils could be adhered to.

6. The resident staff at present attached to the Industrial school consists of an European Superintendent and an Assistant master. Rooms for two persons of the latter class can be provided, but suitable quarters for the former are not available on the premises.

From H. IRWIN, Esq., C.I.E., Consulting Architect to Government, to the Chief Engineer, Public Works Department, dated Chepauk, 30th November 1894, No. 2609.

With reference to G.O. No. 2848 W., dated the 8th instant, I have the honour to submit a rough estimate, amounting to Rs. 3,820, of the cost of fitting up the hospital of the Civil Female Orphan Asylum into a workshop.

ENCLOSURES.

ROUGH estimate of the cost of fitting up the hospital of the Civil Female Orphan Asylum Madras, as a workshop for the Industrial school.

	RS.

No. 3904-C.

Transferred to the Educational Department, with reference to paragraph 2 of the orders in that department No. 801, dated 22nd October 1894.

(Signed) J. PENNYCUICK, Colonel, R.E.,
Secretary to Government, P.W.D.

6th December 1894.

ORDER—dated 22nd January 1895, No. 53, Educational.

The papers read above relate to Mr. Monro's scheme for the amalgamation of the female branch of the Civil Orphan Asylum with the Military Female Orphan Asylum, and the removal of the Industrial School into the buildings now occupied by the girls of the Civil Orphan Asylum. Further orders cannot be passed on this subject until a detailed scheme has been laid before Government, and, for the purpose of obtaining such a scheme, the Government resolves to appoint a committee consisting of the following members:—

- (1) the Director of Public Instruction (Chairman);
- (2) the Hon'ble Mr. A. T. Arundel;
- (3) two members of the governing body of the Military Female Orphan Asylum;
- (4) two Directors of the Civil Orphan Asylum;
- (5) a member of the committee of the Madras Industrial School;
- (6) the Consulting Architect.

The Government Solicitor will also be requested to assist the committee in regard to any legal questions that may arise.

2. The committee will be invited to notice specially in its report the following points:—

- (1) the initial outlay requisite and its distribution among the different institutions concerned;
- (2) the suitability of the present system of aid by Government;
- (3) the industrial instruction to be imparted to the boys of the Civil Orphan Asylum and the Industrial School;
- (4) the organization of a joint committee for the amalgamated female orphan asylums;
- (5) the rules for the future management of the amalgamated female orphan asylums and of the Male Civil Orphan Asylum and the Industrial School, so far as these two institutions are combined;
- (6) the re-organization of the establishments; and
- (7) the future financing of the institutions concerned.

3. From the latest correspondence before Government it would appear that the accommodation which will become available on the transfer of the civil orphans to the Military Asylum will be ample for the Industrial School boys and that little more will be necessary than to provide a cheap shed and plant for the use of the boys engaged on heavy labour. For those employed on light work the hospital will apparently afford more than sufficient accommodation, and the upper floor will probably be available for the use of the European Superintendent. It will also be possible, in all probability, to accommodate some of the members of the staff in the buildings vacated by the girls. If quarters for all the staff cannot be found on the premises, the Superintendent might receive a house allowance and live outside. These, however, are matters for the committee to decide.

(True Extract.)

E. GIBSON,
Ag. Chief Secretary.
