Education.

Simla, the 18th July 1895.

SIR,

THE Compiler of the second quinquennial review of the progress of education in India, in submitting his work, brought to the notice of the Governor General in Council the difficulty of ascertaining from the several Provincial educational reports explanations of the differences which exist between the various educational systems throughout the country. He also observed that the Provincial reports being written for the information of Local Governments generally assumed a more or less intimate acquaintance with the departmental system and with the events of the year, and he further noticed that there was often a want of uniformity in the arrangement of the reports. He accordingly suggested that, in future, a quinquennial report on the state and progress of education should be prepared in each Province on a uniform plan, giving not only statistics, but also an account of the principal events of the period.

2. The Government of India have considered Mr. Nash's suggestions and are of opinion that they should be adopted. I am accordingly to request that, with the permission of His Excellency the Governor in Council, orders may be issued for the preparation and timely submission of quinquennial reports. These reports will take the place of the annual report for the last year covered by the quinquennium and general arrangement of matter and sub-division of the report according to subjects should be made to correspond, as far as possible with that adopted in Mr. Nash's review. The first Provincial quinquennial report should include the period covering the years 1892-93 to 1896-97.

I have the honour to be,

SIR,

Your most obedient Servant,

J. P. Hewett.

Offg. Secretary to the Government of India.
