N^o 299C

Dated 26th July 1895

From

The Principal
College of Engineering,
Madras.

To

The Director of Public Instruction,
Madras.

Sir,

5. In 1893 the Consulting Architect inspected the College building with the view of deciding how the accommodation could best be increased, and the lighting improved. Mr. Invern then contemplated the erection of a new external wall, with substantial verandah, along either the west or east front, or both fronts, and the provision of balconies in the quadrangles. These alterations would greatly improve the lighting and protection from the weather, and they would to some extent increase the accommodation. I suggest that the Consulting Architect

Architect be asked to again inspect the building, and submit a plan and estimate of the arrangements he deems best calculated to meet the existing want. I may remark that when the Honourable Mr. Bliss inspected the building in 1893, he expressed the opinion that new quarters should be built for the Superintendent of Military students, and that the present quarters should be made available for the military students.

Director of Public Instruction

N^o 215C

Dated 25th June 1895

From The Principal
College of Engineering,
Madras

To The Director of Public Instruction,
Madras.

Sir, Referring to paragraph 13 of your Proceedings N^o 5670, dated, 13th May 1895, I have the honour to state that the receipts from tuition fees were practically the same in 1894 as they were in 1893, as will be seen from the following statement.

Year	Tuition fees	Examination fees &c	Total
1893	11,601	4,356	15,957
1894	11,395	2,422	13,817

2. The difference of nearly Rs 2,000 occurs under Examination fees &c. The item of Rs 4,356 for 1893 includes a sum of Rs 1,931 belonging to 1892 which was not paid into the Bank until

until March 1893. Further the item Rs 2,422 does not include a sum of Rs 683 which, though received at the end of 1894, was not paid into the Bank until March 1895.

3. Allowing for those late payments, the corrected figures are:— 1893 Rs 14,026; 1894 Rs 14,500.

4. The cause of late payment is the insufficiency of the permanent advances authorized by the Accountant-General and the necessity of keeping a sufficient sum in the cash chest to meet the bills incurred.

Current No 1036

OFFICE OF THE DIRECTOR OF

PUBLIC INSTRUCTION,

Madras, 28th August 1895.

No. 9355

From

THE HONORABLE MR. D. DUNCAN, M.A., D.Sc.,

DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

THE HONORABLE THE CHIEF SECRETARY TO GOVERNMENT,

FORT ST. GEORGE.

SIR,

Adverting to G.O. No. 521, Educational, dated, 21st June last, I have the honour to report that the Principal has taken special measures this year to encourage the study of 'Estimating' especially in the Draftsman Class. The College syllabuses have been thoroughly revised by a Special Committee appointed by me and these have been referred to the Chief Engineer. On receipt of his views, the question of fixing separate qualifying minima for Board and College examinations will be dealt with in the recommendation.

recommendations to be submitted to Government shortly.

2. With reference to the enclosed extract from a letter of the Principal, I beg to request that the Consulting Architect be instructed to prepare plans and estimates for the necessary additions and improvements to the College buildings.

3. I am addressing Government in a separate communication regarding a site for the hundred-ton testing machine.

4. Copy of Major Love's letter explaining the apparent large decrease in the fee income is enclosed. It will be clear from the revised figures that the fee receipts rose slightly. His explanation for the late payment of fee collections into the Bank is not, however, satisfactory and ~~it~~ ^{such delay} will be guarded against in future.

5. Proposals for shortening the course of training for the Soldier Students of the College were submitted to Government in this office letter N^o. 8189, dated, 31st July 1895.

CN^o 907

6. The final revision of College rules will be taken up immediately after the receipt of the orders of Government on my recommendations to shorten the course for Engineer Subordinates and the views of the Chief Engineer on the revised syllabuses. I beg to state that the delay in the submission of the revised rules was unavoidable, as several questions of importance affecting the working of the College have arisen since the revision was commenced and have not yet been decided.

I have the honour to be,

Sir,

Your most obedient servant,

J. D. B. B. B.

Director of Public Instruction.
