Government of Bombay.

Simla, the 25th September 1894.

Department of
Revenue and Agriculture.
(Agriculture)

Sir,

With reference to paragraph 7 of Mr. Vidal's letter No. 6004 of the 16th July last, I am directed to inform you that an application has since been made by the Madras Government for the services of the Assistant Agricultural Chemist to deliver an annual course of lectures at the College of Agriculture at Saidapet, during the months of February to March. Under these circumstances I am to express a hope that the College of Science at Poona will restrict their demand for the services of the Assistant Agricultural Chemist so as to allow of the wishes of the Madras Government

Government also being complied with. The services of the Assistant Agricultural Chemist can be made available for the Saidapet and Poona institutions from November to June inclusive, and I am to suggest that the Bombay Government might arrange direct with that of Madras the precise period during which he should be employed at each of the two institutions.

2. I am to add that if the requirements of the two Governments in question should not embrace the whole of the 8 months specified above, it will be convenient to arrange if possible so that the time during which the chemist is not wanted either at Poona or at Saidapet shall be continuous with the term for which he is required at the Imperial Forest School at Dehra, namely from 1st July to 31st October. It is understood that at each place, viz. Saidapet and Poona the Assistant Agricultural Chemist will be allowed to make use of the laboratory of the College in which he is lecturing, for the analytical work which he is required to perform in connection with agricultural enquiry generally.

3. I am finally to say that for purposes of pay and allowances, the Assistant Agricultural Chemist will be kept on the Imperial establishment for the whole year round, but that the Governments of Madras and Bombay will contribute their share of his emoluments at a lump estimated sum by the usual process of adjustment.

I have the honor to be,
Sir,
Your most obedient servant,
(Signed) E. D. Maclagan.
Under-Secretary.

TO

The Chief Secretary
to the Government of Madras.

SIR,

With reference to the letter from the Under Secretary to the Government of India in the Department of Revenue and Agriculture, No. 2583-144 dated the 25th September 1894, (copy of which is herewith enclosed) on the subject of the utilization of the services of the Assistant Agricultural Chemist at the College of Science, Poona, and the College of Agriculture at Saidapet, I am directed to state, for the information of the Government of Madras, that the services of the Assistant Agricultural Chemist are wanted at the College of Science at Poona from the middle of November

November to the middle of April, and that it would be inconvenient to dispense with them before the latter date. I am therefore to inquire whether the Madras Government can utilize his services from the middle of April to the end of June.

I have the honor to be,
Sir,
Your most obedient servant.

Madras College of Agriculture

To,
The Hon'ble the Director of Public Instruction,
Madras.

Sir,

I have the honour to submit the remarks called for in your endorsement No. 11,354, dated, 23 November 1894, (herewith returned).

2. I fear it is not possible to utilize Mr. Collins' services at Saidapet from the middle of April to the end of June for the following reasons:-

1st. The College of Agriculture is closed for the summer vacation during May and June, these months having been specially chosen for the vacation by the Committee on Agricultural Education. Practical work on the Farm, after ceasing

ceasing from April to June, usually recommences in July. It can thus be seen that the Committee chose May and June for the vacation for a very good reason.

2nd. The Technical Examinations begin about the middle of April. If the senior class (3rd year's men) is to have a set of special lectures, they should be delivered before and not after the examinations.

3rd. The 2nd year's men are not prepared to receive Mr. Collins's lectures in May and June.

3. If Mr. Collins cannot be spared in February and March, I trust it will be possible for us to secure his services in March only. By delivering 2 lectures a day (and this should not be considered difficult work) he should be able

Agriculture.

he cannot be spared even in March, I fear it will be necessary for the college of agriculture to forego his lectures. I need hardly, I think, say that the services of Mr. Collins even for one month viz. March will be of great advantage to this institution.

incipal, College of Agriculture,
idapet, stating when the
rvices of the Asstt Agrl.
hemist to the Govt. of India
n be utilized at the College.

From,

The Director of Public Edul Dept

Chemist are wanted at [illegible]
Dhun from the 1st July to
the 31st October. From November
to June the officer will be at
the disposal of the Bombay &
Madras Govts. The Bombay
Govt. says that the A. A. Chemist
is required at Poona from the
middle of Nov. to the middle of
April and enquires whether
Madras Govt. can utilize his
services from the middle of
April to the end of June. It
also says that it would be
inconvenient to spare the
services of the Aptt Agr. Chemist
before the middle of April.

The Principal College of ~~[illegible]~~ Agr
says that the College is closed
during May & June and that it
is not therefore possible to utilize
the services of the Chemist from
the middle of April to the end of
June. He requests that, if it is
not possible to spare the services
of the Chemist in Feb & March
they may be made available
during the month of March only.

But as the Bombay Govt. may no
be willing to interrupt the course
of lectures in the middle, it is prop
to ask the D.P.I. whether it is

befor

[illegible] Nov &
December. In that case the Services of the Chemist will be available for Bombay from January to June – a continuous period of six months. The Bombay Govt may be willing to arrange the course of lectures at Poona accordingly and make the services of the Chemist available for Madras during the months of Nov & December.

A draft O.M. is submitted.

& 5 of 95

From

Dated 189

FOR ORDERS.

In para 7 (8) of G.O. D 22nd June 1894 no 460 Ed, the proposal made by the Bd of Rev that the Assistant Agricultural Chemist should deliver an annual course of lectures at the College of Agriculture at Saidapet was approved and an application was accordingly made to the Govt of India for the services of the Assistant Agricultural Chemist during the months of February and March. The Govt of I. said that the services of the Asst Agr. Chemist were wanted at Dehra Dhun from the 1st July to the 31st October and that from November to June the officer would be at the disposal of Bombay and Madras and asked the Bombay Govt to arrange direct with the Madras Govt as to the division of the A. A. C's time between the Poona and Saidapet Colleges. The Bombay Govt says that the A. A. Chemist is wanted at Poona from the middle of November to the middle of April and enquires whether the Madras Govt can utilize his services from the middle of April to the end of June. It is not convenient for the Bombay Govt to spare the A. A. C's services before the middle of April. The Principal of the Agr. College to whom the Bombay Govts letter was sent for remarks says that the services of the A.A.C. cannot be utilized at Saidapet from the middle of April to the end of June as the College is closed during May and June. On a further reference Mr Keess says that A.A.C's services can be utilized during November and December and if the Bombay Govt accepts this proposal, the A.A.C. can, as soon as he is relieved at Dehra Dhun, proceed direct to Madras and deliver his course of lectures from the middle of Nov. to the end of Dec. And as soon as the course of lectures at Saidapet is over, he can proceed to Poona. This would prevent any interruption in the course of lectures to be delivered at Poona.

If this arrangement is approved, the present class III of the Saidapet College which completes its course in April next cannot have the advantage of Mr Collin's instruction; the Principal therefore requests that an application may be made for Mr Collin's services for a month during 1894-95, beginning from the middle of March 95.

In C no 1469. the Bombay Govt enquires whether its proposals are accepted & requests that the reply may be wired.

The following reply is suggested:-

~~To Bombay~~

"Your letter no 2325 dated 9th Nov. 94. Your proposal ~~cannot be accepted~~ impracticable as Saidapet College ~~being~~ is closed during May and June. Can you arrange to spare Collin's services during November and December in future years and for ~~a~~ one month ~~due~~ from ~~the~~ middle of March next, letter follows ~~during the current official year. Collins may go to Poona as heretofore~~".

DESPATCHED ... 95 IN M.S

Sir,

Adverting to my telegram of the 1st instant, noted in the margin, I am directed to ~~inform~~ state ~~you~~ that it is not possible to utilize the services of the Asstt. Agricultural Chemist at the Saidapet College from the middle of April to the end of June as that ~~College there~~ institution is closed for the summer vacation during the months of May and June. 2. The third year students now receiving instruction at the College, for whom the course of lectures to be delivered by the Asstt. Agr. Chemist is intended, complete their course in April and in order that they may have the benefit of Mr Collins' ~~the~~ lectures ~~might be of use they must be~~

"Your letter no 2325 dated 9th Nov. 94. Your proposal impracticable as Saidapet College is closed during May and June. Can you arrange to spare Collin's services during November and December in future years and for one month from middle of March next. Letter follows."

m to ask whether your Govt. could arrange to spare that Gentleman's services for one month from the 15th March next ~~delivered to those Students before~~ April. ~~The second year Students of the College are not considered fit to receive the lectures.~~

~~I am therefore to enquire whether the Bombay Govt can arrange to spare the services of the Asst.-Agr. Chemist during the months of November and Dec.~~

~~As this proposal if accepted, will prevent the present third year Students of the Saidapet College from being benefited by Mr. Collin's instruction, I am further to request that, if convenient, the services of Mr Collin may be made available for the Saidapet College for only one month, beginning from the middle of March next, during the current year.~~

3. As regards the arrangement to be followed in future years I am to suggest that Mr. Collin should be deputed to work in this Presidency from the beginning or middle of November until the end of December. This will render it possible to utilize his services at Poona during the continuous period January to June. The only other practicable arrangement as far as this ~~Presidency~~ Govt. is concerned would be to have a course of lectures at Saidapet in March; at the close of which the lecturer might return to Poona. This would, however, involve a break in the continuity of the lectures to be delivered at the latter place

I am &c
