Sir,

With reference to the Acting Director's Endorsement No 0/709 dated 17th September 1894 on G. O No 627 of the 22nd August, I have the honor to explain that as the old Town School is situated in a very insanitary and somewhat disreputable neighbourhood the Lower Secondary classes taken over in February were removed to the Innespettah High School building which we continued to occupy at a rent of Rs 12/- subsequently raised to Rs 15/- per month.

Subsequently in July when the Inspector of Schools, Northern circle vacated his office which formed part of the premises occupied by the Normal School advantage was taken of the opportunity to procure these rooms in anticipation of sanction for the four divisions located in the High School at the same rent as paid by the Inspector viz Rs 15/- per month. Thus all the practising classes of the Normal School are well housed under one roof, the organisation is complete and working well. A Trained Telugu L.T Mr. S. Swityenjayakao is placed in charge and already a marked improvement is manifest in the work and discipline of all the classes. I may say this is the nearest approach we have yet made to a solution of the Educational difficulties we have so long had to contend with.

Government however seems to sanction the establishment required for a Lower Secondary School and prefers the Cooperation of the Municipality. The request therefore for an increased rent allowance need not be pressed although I should strongly advise the retention of the rooms for the use of the Normal students who are not too well accommodated and moreover a room might be given to the Sub-Assistant Inspector of Schools who I believe is in want of an office.

As I had assured myself that Government would never hesitate to sanction the arrangement all the fee receipts have been credited to Government while the cost of the additional Staff including rent of the necessary rooms has been met from the Committee's funds. It would therefore appear necessary to request from Govt the refund of the fees from the classes taught by the additional Staff or at least repayment of the amount spent in rent, Salaries, plus a fair share of the profits on the year's working, as the money will probably be required to re-establish the Lower Secondary Schools which Government does not desire to take over.

A Statement of fee receipts and expenses up to the end of September is appended with a view to determine the amount of the refund in question.

the establishment of a Lower Secondary school
is a necessity. If the Government is pleased
to approve of the proposal, the school will be
started from the commencement of the school
year (i.e.) January 1895.

"it is very improbable that such a large fee
income as Rs 1,500 anticipated by the Council
will be realized", I have the honor to submit
herewith the Financial statements of the Town

statements

statements show the average annual income of
the Town Branch of the High school was
Rs 1893 with grants and Rs 500 without grants,
previous to the amalgamation. I now expect
more income as there are no rival schools.

I therefore request that you will be pleased

SIR,

With reference to G.O., Educational, No. 627
dated, 22 August last, I have the honour
to submit the enclosed letters from the
Principal, Rajahmundry College, and the
Chairman, Municipal Council, Rajahmundry,
dated, 9 October and 16 ultimo, respectively.
2. The Municipal Council, Rajahmundry
still urges the necessity for the establishment
of a Lower Secondary school in the
old Town, and, if permitted, I prepare
to open it on the 1 January next.
But Mr. McCalfe apprehends that a
municipal

Municipal school in the old Town school building will not thrive, as it is situated in a very unsanitary and somewhat disreputable neighbourhood. He also states that the distance between Unnespetta and the old Town is only about 400 yards and not two miles.

3. Experience has shown that Rajahmundry is full of faction and that the unsatisfactory condition of Secondary Education in the District has all along been the result of unhealthy rivalry and competition. It is, therefore, indispensable that the middle school should be under efficient management. However, the Municipal Council may, for the present, be allowed to start the school

school early next year as an experimental measure for two years. The Town school building, together with all furniture, apparatus and appliances belonging to it have in this case to be transferred to the Council.

4. It will be seen from Mr. McCalfe's letter that in anticipation of the sanction of Government all the fee receipts of the Town school have been credited to Government, while the cost of the additional staff including rent, has had to be met from the Union School Committee's funds. The Committee's funds have to be made over to Government as soon as the Transfer deed is prepared by the Government Solicitor and if sanction be accorded for the disbursement from Provincial funds of the charges incurred on the Town

Middle school up to the date of its
transfer to the Municipal Council,
the necessary adjustments will be made
in the accounts before the close of
the current year.

FOR ORDERS.

Reference is requested to the note for orders under cover of G.O. 8 22nd Aug-94 no 627 Ed.

The Municipal Council, Rajahmundry, is still prepared to amalgamate its two Primary Schools in the old town and to raise the amalgamated institution to the status of a Lower Secondary School. It is requested that, in the event of Govt approving the proposal, the old Town School building and the furniture, apparatus and appliances pertaining thereto may be transferred to the Municipal Council.

Mrs. Metcalfe says that the old Town School is situated in a very insanitary and somewhat disreputable neighbourhood and this is the only objection now raised against the proposal.*

The Director is prepared to allow the Municipal Council to open a Lower Secondary School as an experimental measure

*Except that Mr. Metcalfe himself considers the existing arrangement preferable. Govt has however decided not to maintain a Lower Secondary School.

Wf 111

for two years and recommends the transfer of the old Town School building together with its furniture apparatus and appliances to the municipal council. The Director's proposals may be approved? The transfer of the buildings etc, it is submitted, should be on the condition that they should be made over to Govt. when the municipal council no longer maintains a Lower Secondary School in the building.

The Director also solicits sanction of Govt to the disbursement of the charges incurred on the Old Town Middle School. From Mrs Metcalfe's letter it appears that no middle school was maintained in the old town and that the Lower Secondary classes there were immediately removed to the Innespettah High School. Mrs Metcalfe, however, appears to have continued to employ the teachers in anticipation of sanction. * As the school fees realized have all been credited to Govt, the payment of the teachers salaries which were paid in the first instance from the Union School Committee's funds may now be sanctioned?

In Cno. 1414 the D.P.I. submits plans and estimates amounting to Rs 15,600 for

FOR ORDERS.

MS 17/1/95

* Mention was made of the retention in the last sentence of para. 2 of the D.P.I.'s letter read in G.O. of 22 August 1894, No 627.

This expenditure appears to be in excess of Rs 2000 sanctioned (apparently from L. Fund) in G.O. 5715-W. The total expenditure 18.2.92

on building, will therefore come to Rs 36,600, the whole of which will apparently have to be borne by Govt. But I don't find anything in the papers of so large an expenditure contemplated when the establishment of a training college at Rajahmundry was sanctioned. I don't know how far my hon. colleagues are aware of this large expenditure, I suppose not. But it seems true that, without the help of us & the strength of the Training College, High School & other classes in this combined institution, without any material support (I assume) from the Government, it is not possible to undertake so large an expenditure on buildings. The institution is in my opinion firmly established. The distance was hardly too

main reason. The difference in the standards of the two schools is even more important. In the papers, however, the impression left on my mind is that though the two divisions of the town are only 400 yds apart, the distance between the schools is much greater.

* before we proceed to discuss it at so large a cost. JG 17/1

This idea of building a women's & union school at a cost of Rs 21,000 was relinquished. In para 4 of the letter recorded under G.O. 5719 D.P.I. can make how it fell through & he repeats the objection in the current. In the note under which or else it was pointed out that this building (which was earlier planned) would cost about Rs 21,000 & so the Govt thought it would be "worth the money". I am sure this is true. The building seems

the construction of a building for the Training College; they may be approved and transferred to the P.W. D.?
Mr Metcalfe is reported by the D.P.I. to describe Laneepeta as only 400 yards distant from Old Town & not two miles as represented in the D.P.I.'s letter disposed of in G.O. of 22 August 1894 No 627. The Director however passes this over without comment. If Mr Metcalfe's statement is correct, many of the reasons which led to the passing of that order have no sound basis. It was ^{mainly on} the assumption that the schools were two miles apart that Govt based the conclusion that there was no likelihood that a municipal lower secondary school in old town would starve the practising department of the Training College; ~~that~~ the objection "felt by the people to sending their children two miles to school" falls to the ground if the distance is only in yards. It is however to be observed that the expression used in both the former letter is "the distance between Laneepeta & Old Town".

JG 18/2

which is not necessarily the same as the distance between the two schools. It is probable that the discrepancy in the two statements is due to the transfer of the Innaepeta High School from the old rented building to the office building of the Inspector vacated in July last (vide Mr. Metcalfe's letter in this current). This is a change which may affect matters vitally & it is for consideration whether the decision to permit the establishment of a Municipal & Secondary School should not be cancelled.

9 Jan 95.

The municipal Council asked leave to open the school from the 1st inst. but the Director's letter was only received shortly before the Christmas holidays.

14/1/95

From 3 of the letters received the 20.2.95 22.9.93 by 2 D.C. can say: The Union High School is accommodated in a rented building about as ill suited for a school as it is possible for a building when there is nothing to show the same building is by D.D. & Mr. M. 28/1/95

(For orders)

Under the 2 years approved proposed by the D.D. may be allowed. It is very undesirable that Govt. should have an L.S. school.

In the absence of a map it is very difficult to understand the matter - But I think it very doubtful if this measure would leave the Training College without proper practical classes. I don't say it will, because the material for a decision is manifestly insufficient. But until it is proved that it will not I certainly think we ought not to spend a lot of money on buildings - The Union School at Mr. Metcalfe is content to call it, seems to be suitably housed already - at least he makes no complaint of its housing while he says that all the training classes thereof are "well housed" - So why we should spend Rs 3000 on building I can't quite see.

We must call for the plan from the Union High School 17/1/95. It is not clear by whom the plan is to be submitted. It is not clear whether the plan is to be submitted to the D.D. or to the Hon. Mr. Bliss.

Circulars 1405 & 1414 of 1894 of 12 Decr.
1894 from the D.H.

Order of 2 Feb. 95, No. 87A

The Govt approves the Director's pro-
posal that the Municipal Council
should be allowed as an experimental
measure to open a Lower Secondary
School for two years. The transfer to
the Council of the old Town School
building together with its furniture
apparatus & appliances will be per-
mitted on the condition that they shall
be ~~made over~~ restored to Govern-
ment, if the Council ~~after~~ ceases to
maintain a Lower Secondary school
in the building.

2. It is recommended by the Director
sanction will be accorded for the
disbursement from Provincial funds
of the charges incurred on the Town
School up to the date of the transfer
to the Municipal Council.

3. The estimate now submitted to
the Director provides for the release
of the original Normal & Union Sch.
the construction of which was sanctioned
in G.O. No 515 W of 18 February 18
so as to render the building suitable
for the accommodation of the ITC
College. The first proposal involved
an expenditure of Rs 21,000 from
Funds. The Normal School has now
been transferred to the Education

fund^s to the extension now proposed
is to cost Rs. 15,000, the total sum
required is Rs. 36,000.

Rajahmundry Training
College.

4. Before sanctioning so large an
expenditure, the Govt. desires to be
satisfied as to its absolute necessity.
at present ~~Govt.~~ has no information
as to the strength of the Training College,
the upper secondary & the classes, to
be housed in the combined institution.
Nor is it possible to form any ^{reliable} opinion
as to the probable permanence of the
institution. It is by no means unlikely
that the experimental measure sanctioned
in the first paragraph of this order may
have the effect of leaving the Training
College without proper practising school
classes, especially as the Director
reports that the distance between
Tanampeta & the Old Town is only
about 400 yards & not ^{of} two miles
as was previously stated. Moreover
Mr. Metcalfe ~~now~~ speaks of the
practising classes ^{as} being now well
housed under one roof. The ~~re~~
consideration under it doubtful
whether Govt. would be justified in
sanctioning for the present at least
large expenditure proposed. The
Director will accordingly be requested
to report further on the subject, with special
reference to the remarks made above; this
report should be accompanied by a map drawn to scale
showing the relative positions of the various
buildings, & the site on which it is
proposed to erect the new training college.
