 From The Superintendent, Reformatory School,
 Chungking.

To
 The Director of Public Instruction, Madras.
 Sir,

With reference to your Proceedings dated 23rd
 November 1895, No. 12554, I have the honour to
 report that Mr Mahony came over this morning
 to receive instructions about the additions and
 improvements to be effected.

2. Mr Mahony informed me that as no mention
 had been made about providing ^①accommodation
 for the Tailoring class or erecting a
 suitable Kitchen ^② according to a scientific
 plan in G.O. dated 15th June 1895, No. 1279, he
 could not prepare plans and estimates
 for these additions.

3. As these additions are also necessary I
 request that the Consulting Architect
 may be addressed to include these also in the
 list of improvements to be effected.

To The Director of Public Instruction,

Sir, In reference to paragraph 2 of your Proceeding dated 2nd April 1895 no. 3959, I have the honour to state that the time has arrived for taking up the question of improving the latrines attached to this school as recommended by the Sanitary Commission. There should be two main latrines, one for the Senior Division and the other for the Junior one. The two present latrines attached to the main barrack may be demolished and rebuilt on some standard plan for the use of the Junior Division. For the Senior Division I would suggest that the hospital latrine be enlarged and improved.

2. When the hospital is removed to the Sub-Tail building, the small latrine attached to that building, which was recently built, may be retained for the use of the pupils in hospital.

3. As the Public Works Department is now engaged in preparing plans and estimates for the extension of the school buildings I beg to suggest that that Department be addressed

addressed on the subject of latrines also, so that they may be included in the above plans and estimates.
4. Another needful addition which should also be provided for in the above plans is a set of out-houses for the Deputy Superintendent. At present there is not a single out house attached to that officer's quarters; and the inconvenience that Mr Lewis and his family have been thereby put to is great. Mr P. Mahony, the Assistant Engineer who visited the school to-day to take notes for the plans and estimates has been told where the out houses could be built. A kitchen, cow-shed, stables, a poultry room and latrine are all that is required. Mr Mahony requires your instructions to provide for the above out-houses in the plans and estimates.
