OFFICE OF THE DIRECTOR OF

PUBLIC INSTRUCTION,

Madras, 17th March 1896.

From

THE HONORABLE MR. D. DUNCAN, M.A., D.Sc.,

DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

THE HONORABLE THE CHIEF SECRETARY TO GOVERNMENT,

FORT ST. GEORGE.

(Through the Accountant General)

SIR,

In connection with the Chemical, Physical and Biological Laboratories of the Presidency College, which are now approaching completion, I have the honour to request you will be so good as to obtain the sanction of Government for the following increases in the establishment charges with effect from the 1st April 1896

(1) The pay of the attender in the Physics laboratory is at present Rs 15, while that of the attender in the ~~in the~~ Chemical and Biological laboratories is Rs 15 rising to Rs 20. As the work of the attender in all the three laboratories is similar in terms of amount and responsibility, it is but reasonable that the scale of pay should also be the same. I would, therefore, recommend that (a) an

the attender in the Physics laboratory be raised to Rs 20, which is the amount now drawn by the other two attenders. This recommendation is made in consideration of about ten years' service already put in by the present incumbent, who was transferred from the Kumbakonam College on the abolition of the Science classes attached to that institution. The pay which was considered sufficient for the Kumbakonam post is not adequate for the post at the Presidency College, where the work and responsibility are greater and the cost of living is higher. The incremental scale of pay for all the attenders may be discontinued.

(ii) The recent extension of the Chemical laboratory and the addition of a new wing for the Physical and Biological laboratories require the following additions to the menial establishment.

(a) The Professor of Physics requires the services of two persons, one on Ro. 9 and the other on Ro. 7, when the new wing is ready for occupation. The one now waiting on him belongs to the old establishment, and as his services will continue to be required in the main building, he will cease attend on the Professor of Physics.

The Professor of Chemistry and Biology each require

require an additional person on Ro. 7.

(c) The new wing requires an additional sweeper on Ro. 4 and a night watchman on Ro. 5 to look after it.

2. The increases alone proposed amount to Rs 44 per mensem and may be met during 1896-97 from the saving that will accrue in the salary of the Professor of Mathematics, consequent on the transfer of Mr. Middlemarch to Rajahmundry. The omission to provide for these increases in the Budget Estimate for 1896-97 was due to the want of information at the time of preparation of the budget as to the exact date of completion of the new ^{wing} building.

3. The necessary proposition statement is submitted.

4. I may here mention that when once the Physics laboratory is in full working order, a mechanic will be required to look after the machinery and apparatus and to execute small repairs. I am not seeking sanction for this appointment at present, partly because I have not got complete information as to pay and qualifications.
