	B. Tirabhadra	Passed	Temp. class on Rs 15
	C. Preeramulu	Unpassed	DO
	D. Lakshmi	Unpassed	DO
	P. Subbarayudu	Unpassed	DO

Letter from the Executive Engineer
District Northern Division, to the Superintendent
-ing Engineer. 2nd Circle, 11th April 1887

I have the honour to forward to you
- with a table showing the changes among
the overseers in this division. The
reason for these repeated changes is the
difficulty in obtaining passed men
to fill the temporary posts. ^{Passed candidates will not apply for the} posts in
of the way places on a salary of Rs 15
with little or no ^{chance} of promotion.
Passed men not being forthcoming
unpassed men are appointed, exemption
- ion for three months applied for and
application renewed until refused.
When exemption is refused, which it
is as a rule at the end of 6 or 9
months, and that unpassed man
has to be appointed, no passed man
being available and exemption again
applied for. Changes have been so
frequent that efficient administration
is becoming increasingly difficult.
Enclosure of the enclosed table

will show that I shall probably have
several vacancies (including actual vacan-
cies) in the near future, these places
may again be vacant 3 months hence
or not according to the number of
exemptions granted as I have ^{only} got
unpassed men on the list of appli-
cants. Only one passed man has
hitherto applied and refused the
appointment offered having mean-
while obtained something better.
I never know when exemption in any
particular case may be refused
and have often to make arrangements
at very inadequate notice. I would
therefore suggest that you will obtain
sanction for the permanent exemption
of unpassed candidates so long as
they hold temporary posts.

This means that
the exemption rules should
not be made applicable
to temporary appoint-
ments -

N^o 94 Kt -
10-74-96

Forwarded to the Chief
Engineer, D. W. Department with a re-
quest that sanction may be ob-
tained for the permanent exemption
of unpassed D. W. D. clerks in the District
so long as they hold temporary posts.

2. The present system seriously
interferes with work, for as soon as a
man knows his duties, he is liable
to be refused further exemption, and
his place has to be taken by another
unpassed and inexperienced man.

This will
never occur

+ 80. 1303W
27-6-95

interferes with work, for as soon as a
man knows his duties, he is liable
to be refused further exemption, and
his place has to be taken by another
unpassed and inexperienced man.

3. With the Concession which is
now asked for, many of the unpassed
men would continue their studies
and eventually become qualified.

4. A reference is invited to this office
N^o 414 K. S. of 16th May, 1895, in which
the difficulty of obtaining passed
men for small appointments in the
District was pointed out, and the table
of changes submitted by Mr. Keeling
with his letter shows that the difficulty
is a very real one & must have a
very injurious effect upon the work-
ing of his Division.

List of unpassed candidates
employed as temporary clerks
in H.V. —

Forwards a — with
recommendation that they
may be exempted as long
as they hold temporary
clerk posts for reasons given

The proposal of the Executive Engineer, District Northern Div., is in other words, is that the Exam. rules should not be made applicable to temporary appointments. There seems to be no necessity for such a wide concession. Where there is a real ~~new~~ difficulty in getting passed men, exemption may be given for a longer period than is now done.

The question seems to be a difficult one. It appears evident that the operation of the Exam. rules in these temporary appointments is at present rather to hamper the administration than to improve it by obtaining men of better qualifications.

Perhaps exemptions might be granted in future in temporary

MA

o.L.5.15 R.27/11

appointments for such time as a
passed candidate was not available,
is ordered to terminate as soon
as a passed man appeared. It is
not certain, however, that if this
was done the D.P.S. would take
real pains to get passed men. They
do not like the exam. rules. No
other course suggests itself. Orders
are solicited.

W. 29/5/96. That is suggested above is a
good idea though arrangements
but I share the doubts of the
U.S. The H.D. in the department
which seems to put more than
any other in getting passed men even
for that not requiring scientific
knowledge.

LD
27/5/96.

CS. Order N^o 335-85-6-96.

The Superintendent Engineer's suggestion
amounts to a proposal that the examination
rules should apply to any temporary
appointments. The Govt. is not prepared
to make such a wide concession. If, however,
in future cases it is shown that every effort
to obtain passed men has been made & in vain,
the Govt. will be ready to take into consideration
the desirability of granting exceptions in tempo-
rary appointments for longer periods, or until a
passed candidate is available.
