FURTHER PAPERS.

G.O.	No.	Department.	Date.

Madras 29 July 1896

From Surgeon Major J. L. Van Lelyvel M.B., F.R.C.S., F.R.C.P.,
Professor of Chemistry, Medical College

To The Principal,
Medical College, Madras.

Sir, I have the honor to request the favor of your bringing to the notice of the Public works Department that the following will have to be included in the works which they are carrying out in the New Practical Chemistry Laboratory of the College viz:-

1. Bottle racks for the working benches
2. Eight small special reagent shelves or tables (plan of which I shall submit)
3. The desks and bottle racks to be numbered in white paint.
4. The top row of windows should have ground glass panes instead of clear glass. Protection against direct sunlight is necessary, as the sun beats into the room, and more than half the class had to work past noon with their sun hats on.
5. Color washing the outside of the building of same color as the rest of the College buildings.
6. One storm water pipe from the roof requires continuation to floor level. This pipe was cut by the Public works department when the new verandah was being built, and should be replaced or a new piece of piping added. The verandah roof is getting damaged for want of it since waste water from the Chemical Examiner Laboratory is discharged into this pipe.

I have the honor to be,

Sir,

Your Most Obedient Servant
J. L. Van Lelyvel M.B., F.R.C.S., F.R.C.P.
Surgeon Major
Professor of Chemistry

Madras. 29 July 1896

From Surgeon Major J. L. Van Geyzel M.B., F.R.C.P.S.
Professor of Chemistry, Medical College

To The Principal,
Medical College, Madras.

Sir,
I have the honor to request that a new lecture table may be provided for the Chemistry class. The present one is only an ordinary table covered with lead sheeting, it is too small for present requirements, and has no fittings of any kind - not even a water trough for collecting gases. I shall be prepared to submit a plan of a suitable table, should you approve of my proposal. In this case I would also suggest that gas and water should be laid on to the new lecture table, as this will only require a few feet of piping to connect with the systems already laid in the adjoining practical class room.

2. A fume chamber in the lecture room is also a great want, for many instructive experiments cannot be shown for want of it and the few that are attempted have to be performed by the open window, away from full view of the class, and apparatus have sometimes to be set up on the veranda itself in order to prevent the filling the class room with noxious fumes.

3. Should you approve of these proposals it would be convenient if they can be given effect to at once so that the work might be completed before the commencement of the next Winter Session.

I have &c

J. L. Van Geyzel M.B., F.R.C.P.S.
Professor of Chemistry.

Principal Medical College.

Madras 4 September 1896

From Surgeon Major J. L. Van Geyzel M.B., F.R.C.P.S.
Professor of Chemistry, Medical College

To The Principal,
Medical College, Madras

Sir,
I have the honor to state that the discharge pipe from the silt boxes which receive the drainage from the sinks on the working benches in the new Laboratory is not sufficiently large and hence the silt boxes overflow into the cupboards. It will therefore be necessary for the Public Works Department to provide the silt boxes with a much larger pipe than that put at present. The 2 discharge pipes from the sinks are each $\frac{1}{2}$ inch pipe with a head of about 1 foot. While the overflow pipe from the silt box is also $\frac{1}{2}$ inch in diameter with a head of 3 or 4 inches and quite insufficient therefore to carry off the discharge from the sinks.

In addition to this, the gas stand pipes on the benches should also be made shorter. I therefore request the favor of your sending this on to the proper authority.

I have &c
J. L. Van Geyzel M.B., F.R.C.P.S.
Surgeon Major
Professor of Chemistry

OFFICE OF THE DIRECTOR

PUBLIC INSTRUCTION,

Madras, 17 October 1893

No. 11329

From

THE HONORABLE MR. D. DUNCAN, M.A., D.Sc., L.L.D.,

DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

THE HONORABLE THE CHIEF SECRETARY TO GOVERNMENT,

FORT ST. GEORGE.

SIR,

I have the honour to request that the Consulting Architect may be permitted to prepare, in consultation with the Professor of Chemistry, estimates for urgent works in connection with the Chemical Laboratory of the Medical College. Surgeon-Major VanGeyzel has explained the need for the works in the enclosed copies of his letters to the Principal.

I have the honour to be,

Sir,

Your most obedient servant,

D. Duncan

Director of Public Instruction.
