1/enclos. to D.P.S.
letter no. 544 7/96

Reformatory School, Chingleput,
20th April 1896.
From Surgeon Major H. A. H. Kiler, D.B.,
Superintendent, Reformatory School, Chingleput
To The Director of Public Instruction,
Madras.

Sir,
In reference to paragraph 2 of Government Order dated 10th March 1896, No. 138, forwarded to me under your endorsement dated 21st March 1896, No. 3500, I have the honour to state that none of the rooms in the Sub-jail building will afford sufficient accommodation for the Tailoring Class and its Instructor, due regard being had to supervision, room for creating store boxes, sewing machines unfinished garments etc.

2. The building now occupied by the Jail Police Guard and intended as a kitchen store room for the Reformatory, might be altered to suit the requirements of a tailoring room. It consists of two rooms, the main one 21' x 10.5' and a small one 12' x 10.5'. This latter can be used as a store room for machines, boxes etc. The main room, if supplied with a sufficient number of windows, can only accommodate 12 boys allowing 6' x 3' for each.

the verandah be so enclosed as to make it available
for use all the year round, especially in wet weather,
there will be, according to the above scale of measure-
ment, room for 11 boys. Allowing that the Instructor
will have at least the room occupied by 3 boys the
total accommodation afforded by the main room
and verandah will be for only 20 boys. At present
the tailoring class is a large one, but when the big
boys are separated from the small ones during the
industrial hours also, the class will necessarily be
smaller. If 20 be considered the maximum strength
of the tailoring class in each division, power should
be given to the Superintendent to restrict the class
to the maximum, a power which he does not now
possess under the rules in force.

3. As regards the new kitchen, I beg to state
that the present one was built only as a temporary
measure, pending the question of the final location
of the school. It is badly ventilated and much
cramped for room; and it is so built as to render
economy and economy in fuel an impossibility. It
has been condemned by the Sanitary Commissioner.

A kitchen on the model of that in the Vellore Central
Jail, as recommended by the Inspector-General of
Prisons, is what is wanted so as to provide for

See para 10
of the Sanitary Comm.
report in G.O.

OFFICE OF THE DIRECTOR OF
PUBLIC INSTRUCTION,
Madras, 16th May 1896.

No. 5447

From

THE HONORABLE MR. D. DUNCAN, M.A., D.Sc., LL.D.,

DIRECTOR OF PUBLIC INSTRUCTION,
Madras,

THE HONORABLE THE CHIEF SECRETARY TO GOVERNMENT,
FORT ST. GEORGE.

SIR,

In reference to para 2 of G.O. No. 138, Edl.,
dated 10th March last, I have the honour to
submit the enclosed copy of a letter from the
Superintendent, Reformatory School, Chingleput,
explaining the need for special accommodation
for the tailoring class and for a new kitchen,
and I am convinced of the necessity for the
additional accommodation required.

2. I am not sure that a kitchen on the model
of that in the Vellore Central Jail is the best.
When I visited the Vellore Jail in April last I
found that the new kitchen could not be used
owing to defects in its construction.

I have the honour to be,
Sir,
Your most obedient servant,

D. Duncan
Director of Public Instruction

MEMORANDUM.

Dated Madras, 7th October 1896.

With reference to Memo R 1434 Educational dated 27th August 1896, the undersigned has the honour to state that the plans and estimates for the Reformatory School buildings called for in G.O. R 138 Educational dated 10th March 1896, as well as those mentioned in para 2 of G.O. R 1279 Judicial dated 15th June 1895, were forwarded by the Consulting Architect to the Director of Public Instruction on the 18th August 1896; that they were returned by the latter officer for modification on the 11th September 1896, and that they were finally retransmitted by the Consulting Architect to the Director of Public Instruction on the 30th September 1896.

Alterations & additions to the
Reformatory School.

FOR ORDERS.

The plans & estimates
are approved

By
19/11/96

Plans and estimates received
from the D.P.I. for alterations
and additions to the Reformatory
School buildings are submitted
for orders. The estimates provide
for the following works:-

- (1) Converting the sub-jail into a
store-room and hospital - Rs 680
- (2) A workshop and dormitory
over the ramparts - Rs 17735
- (3) A weaver's shed - Rs 6880
- (4) Converting the Police guard room
attached to the sub-jail into
a Tailor's shed - Rs 535
- (5) A school house - Rs 8129
- (6) A new kitchen with circular
cooking range - Rs 3272
- (7) A compound wall & roadway - Rs 7034
- (8) 107 new cub les - Rs 9463
(19 in the hospital & in the new
dormitory - and no (2) above)

- (9) A Latrine for 20 Seats Rs 852
 (10) A Latrine for 16 Seats Rs 728
 (11) A Quarantine Shed Rs 3032
 (12) A Latrine for the Dy Supdt. Rs 387
 (13) A Kitchen & godown for the Dy Supdt. Rs 1150
 (14) A Stable & Cow shed for " Rs 915
 (15) A Blacksmiths workshop Rs 4137
Total Rs 64929

The preparation of plan and estimates for the works numbered 1, 2, 3, 5, 7, 8 & 15 was authorized in G.O. no. 1279 Jud. D. 15th June 95 and for the works numbered 4, 6, 9, 10, 12, 13 & 14 in G.O. no. 138 Ed. D. 10th March 1896. Plan and estimate for a quarantine shed (no 11) appear to have been prepared under the general authority conveyed in para 2 of G.O. no. 1279 Jud. D. 15th June 1895.

In G.O. no. 138 Ed. D. 10th March '96 the D.P.I. was requested to explain clearly the need for accommodation for the tailoring class and for a new kitchen. The explanation of the D.P.I. is contained in eno 648. The Supdt. states that none of the rooms in the Subjail building affords sufficient accommodation for the

the Tailoring Class and the D.P.I. states that he is convinced of the necessity for the additional accommodation required for the Tailoring class. Estimate no 4 provides for this additional accommodation; it costs Rs 535 only and may be approved!

As regards the new kitchen, the Supdt. states that the present one was built only as a temporary measure, pending the settlement of the question of the location of the school, & that it is badly ventilated and much cramped for room. The Consulting architect describes it as "an open shed with a lean-to roof which is too small for the purpose; in fact it is only sufficient for the fire place alone." Estimate no. 6 may therefore be approved!

A Quarantine Shed for the school appears to be necessary. It is to be constructed outside the Reformatory at the South Western corner of the Fort. vide plan no. 16. Estimate no. 11 may be approved.

Plan no. 16 shows the site of the Reformatory; in it is also

also shown the plan for the compound wall to which is related estimate no. 7.

The necessity for the rest of the works has already been admitted & they may be approved!

7/12
1914

H.M.

It has not been found practicable to place the dormitories, as originally suggested, on the top of the rampart, ~~which~~ which is of made earth. These however are to be placed in a second story over the new workshops to occupy the site of the present blacksmith & carpentry shops. They will be, as far as I can see, as high as the rampart & therefore have the advantage, which was the recommendation of the original suggestion, of free circulation of air at least above the ground.

I don't see the need for a gate in the new wall on the side of the Session Court. There should be no passage in that direction, but it is a detail. The plans & estimates may be approved 8/2/14/16
