To
The Secretary to the Surgeon General
with the Govt of Madras.

With reference to the above, I beg
to append a list of articles that can be
shared from the stock of this depot and
to request that if these articles are to be
taken by the Medical College, arrangements
may be made for their transfer at
a very early date as if they are not
taken over at once, I cannot guarantee
that they will be available at a
future time. Further the retention
of these articles will seriously interfere
with the preparation of the next
Home Indent in which Expenditure
"Established proportion" and Balance on
hand have to be entered very accurately.
2. The indent is returned herewith.

With the exception of Sp. Rect. there is no article
in the list which can safely be substituted. We have
had acids (mineral) before from the Med. Store, said to be
'chemically pure', but which are not pure enough for
quantitative work. Glycerine may be all right, but I
cannot be certain, & the quantity is decided for by my small.

Atropine Sulphas,
Cocaine Hydrochloras,
Ether, sp. gr. 0.735, and
Mercury

have been struck off the Indent
as the Medical Stores supply will be
insufficient for my purposes, but the
acids and the Bicarb. of Soda are
quite unreliable, judging from past
experience. I therefore request that
these articles may be obtained from
Home, instead of from the Med. Stores.
