Enclosures 2.

Sir,

With reference to your No 803 dated 28th June 1897 I beg to report that the Headmaster Government Training School, Salem tells me that a building comprising of 3 rooms each 20 X20 are required for black board exercises.

From the sketch accompanying it will be seen that the open space at the entrance is used as play-ground and at the south of the main building A, there are two other structures and a latrine. Any additional building at the south of A and West of B will bring the detached building close to each other.

I am therefore of opinion that it is not advisable to erect a separate building, but if additional space be required the building B can be extended 25 feet on the North and 15 feet on the south side of it.

The Headmaster's prayer made in paragraph 4 of his letter No 297 dated 22nd April 1897 can be complied with by erecting a verandah 6 feet wide all round the building A.

I have &c
