No. 6111

From

THE HONORABLE MR. D. DUNCAN, M.A., D.SC., L.L.D.

DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

THE HONORABLE THE CHIEF SECRETARY TO GOVERNMENT,

Local & Municipal Department, FORT ST. GEORGE,

SIR,

With reference to G.O.No 375 Educational dated 15th November 1895, I have the honour to submit for sanction and transmission to the Public Works Department the enclosed plan with estimate amounting to Rs. 4500 for the construction of a new schoolhouse for the Government Girls school, Namakkal, in the Salem District. The building has been designed similar to the one erected at Dharmapuri and will accommodate 150 pupils.

2. In the preliminary issue of the Provincial Civil Works Budget for 1897-98 this work has been included under class B works. As the Inspectress of Girls' schools, Western Circle, reports that the school has long been suffering from poor and insufficient accommodation, I request that this work may be transferred to class A works if practicable, and the necessary funds may be provided for commencing the work as soon as possible.

I have the honour to be,

Sir,

Your most obedient servant,

D. Duncan

Director of Public Instruction.

THE HONBLE MR. BLISS, C.I.E.

THE HONBLE MR. GROSE, C.I.E.

SUBJECT

A new school-house for the
Govt. Girls' School, Namakkal.

FOR ORDERS.

The current was lying over for want of G.O. no 875 Ed & 15th Nov. 95. It is not forthcoming yet but a copy thereof has been obtained and put up.

In June 1893 the D.P.I. reported that the Namakkal School house was "insufficient even for the present numbers" and obtained sanction for the preparation of plan and estimate for raising the walls of the building, for putting on a complete tiled roof and for the erection of an addl. room. vide G.O. no. 435 Ed & 29th June 1893 - File A.

In October 1895 the D.P.I. reported that on account of "the smallness of the site, it was im-

X Where is it?

It is not forthcoming.
M. 11/11/96

It is not in the file + another search is being made for it.
11/11/96

impossible to effect any improvements to the existing building so as to provide accommodation for 150 pupils" and that "it would be necessary to erect an entirely new building on a different site". He also reported that a new site costing Rs 240 had been selected and that the construction of a new school house capable of accommodating 150 pupils would cost Rs 5000 approximately and obtained sanction for the preparation of the necessary plan and estimate - vide G.O. no. 875 Ed & 15th Nov. 1895

The site above referred to was subsequently found to be unsuitable and the site of the present school house has been enlarged by acquiring certain lands adjoining it at a cost of Rs 28-12-0. vide G.O. no. 702 Ed & 11th Nov. 96.

In the current under notice the D.P. I. submits a plan and an estimate amounting to Rs 4800 for the construction of a

"nearly 100"
Flag D.

The cost of dismantling
the building is
mentioned

Flag E.

a new school house. It is to be built on the site of the present building. The design of the building is said to be similar to the one erected at Dhannapuri. The Dhannapuri building is capable of accommodating 100 pupils and cost Rs 2970 vide G.O. no. 675 Ed & 9th Aug. 1895.

The present building has, perhaps to be dismantled but nothing is said about it in the papers.

The plan and estimate may be approved and transferred to the P.W.D.?

In the final issue of the Prov. Civil works budget for 1897-98, the work is included under class B. works and an allotment of Rs 3000 is made. The Director requests that as the school has long been suffering from want of sufficient accommodation, the work may be transferred to class A works. Orders are solicited as to whether, in view of the present financial position, the P.W.D. should be asked to transfer the work to Class A & treat it as urgent.

7/11
21/9/97

What has been the average attendance at the school in the past 4 or 5 years?

8/2
16/8/97

The average attendance at the Namakkal Government Girls' School, as ascertained from the reports as Public Instruction are as follows:

	No on roll on 31st March	No. on the rolls	average daily attendance
1892-93	140	133	115
1893-94	115	127	93
1894-95	114	122	87
1895-96	122	111	72

For the Dharmapuri school for 100 pupils cost Rs 3000. the proposed Namakkal school for 150 scholars is estimated to cost Rs 4800. This seems comparatively high. But I suppose we must approve the plan & estimate with an injunction, perhaps, to make any possible contract as far as possible so as to keep the way open to transfer if they can.

Ask why the building is to cost 60% more than the similar building at Dharmapuri.

I suppose the S.P. Engineer has the plan?

Why cannot the original proposals for improvements be carried out? They were only requested because the site was too small (to 15.11.95) Now it has been added to.

Why is no entry made in the est. of the cost of dismantling the present building? How many pupils can be accommodated in the present building?

Ed. Sept

no 677 497

DM. N. 1944 of 20 Sept 1897

With ref to his letter no. 6111 of 9th June 97, the D.P.S. is requested to be good enough to explain (1) why the proposed new building for the Namakkal Girls' School which is to accommodate 150 pupils is to cost sixty per cent more than the similar building at Dharmapuri which provides accommodation for 100 pupils, (2) why the original proposals for improvements to the present building, which were given up because the site was too small, cannot now be carried out, the site having been enlarged since then, and (3) why no entry is made in the estimate of the cost of dismantling the present building.

The Director is also requested to state how many pupils can be accommodated in the present building.

CURRENT No. 178

OFFICE OF THE DIRECTOR OF
 PUBLIC INSTRUCTION,
 Madras, 7 February 1893.

No. 1202

From

THE HONOURABLE MR. D. DUNCAN, M.A., D.Sc. LL.D.,

DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

The Secretary to Government,

Educational Department.

SIR,

With reference to memorandum No 1944 Educational dated 20th September last, I have the honour to give below an extract from a letter of the Executive Engineer, Salem division, which explains why the proposed building for the Namakkal girls' school costs more than the similar building at Dharmapuri.

"The Dharmapuri girls' school was designed to accommodate 90 pupils at 3 sq. feet per pupil. The Namakkal building is designed to accommodate 150 pupils. The cost of the Dharmapuri school is Rs. 2970.

Pupils	Pupils	Rs.	Rs.
90	150	2970	4950

The Namakkal building is estimated to cost Rs. 4800, so that it is cheaper per pupil accommodated than the Dharmapuri school. The foundations allowed for the Namakkal school are much deeper than the Dharmapuri school, which adds to the cost of the building."

The present building at Namakkal is reported to be in such a dilapidated condition that it cannot be well repaired or enlarged.

2. A sum of Rs. 50 appears to have been entered in the Abstract estimate for dismantling.

3. Only 117 pupils can be accommodated in the present building,

while

while the strength on the 30th June last was 130.

I have the honour to be,

Sir,

Your most obedient servant,

J. Duncan

Director of Public Instruction.
