For Orders

May the D.P.'s proposal be approved?

Apparently it is not part of Mr. Chatterton's duty to lecture on Chemistry to the Students of the College of Eng. but the A.G. seems to hold a contrary view - vide his letter recorded in G.O. no. 223 of 13th April 1897 - Flag B. Although it does not appear to be part of Mr. Chatterton's duty to lecture on Chemistry, it is submitted that the recommendation of the I.D.P. may be accepted as a temporary arrangement pending the submission of his proposals for strengthening the staff which he may be asked to expedite.

To the Principal

Re Chemistry Lectures &
Chemical Laboratory work.

While I was away the Chemistry
lecture was given by Mr Keeling
and the laboratory work was in
charge of Dr Wilson's assistant.
In the proposed time table this work
again falls to me and will occupy
roughly $\frac{1}{5}$ of my time, without
counting any time that I may
devote outside the hours scheduled
in the time table to the preparation
of experiments for lectures and
laboratory work. For Rs 35 or 40
per month Dr Wilson's Assistant
is prepared to take up all this work
in the early mornings or on Saturdays
and as I believe I can fully utilize
the

No. 520

From

THE HONOURABLE MR. D. DUNCAN, M.A., D.Sc. LL.D.,

DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

The Secretary to Government,

Educational Department.

SIR,

File A

In its order No 668, Educational, dated 30th October 1896, Government sanctioned the appointment of M.R.Ry. T.K.Hanumanta Rau, Assistant to the Professor of Chemistry in the Presidency College, to lecture on Chemistry to the students of the College of Engineering during Mr. Chatterton's absence, on an allowance of Rs.25 per mensem. But the work that was actually entrusted to Mr. Hanumanta Rau was only Laboratory work for which alone he could spare time, while the lecturing proper was given by Mr. Keeling. Mr. Chatterton has since returned from furlough, but he not only recommends for reasons stated in his note, enclosed, the continuance of the arrangement, under which the laboratory work was in charge of M.R.Ry. T.K. Hanumanta Rau, while the lecturing proper was given by the Professor of Engineering, but also requests that he may be relieved of the lecturing work, saying that for Rs.35 or Rs.40 per month, M.R.Ry. Hanumanta Rau would take up all the Chemistry work in the College of Engineering. The Principal supports the request of Mr. Chatterton as he considers that the Professor of Engineering has far more work to do than he can efficiently perform and recommends that M.R.Ry. Hanumanta Rau's remuneration be increased from Rs.25 to Rs.35.

2. Mr. Chatterton is no doubt in need of an efficient Assistant and his time could be more profitably employed than in teaching elementary chemistry; but pending the question of strengthening ~~the~~ the staff regarding which proposals will be submitted shortly, M.R. Ry. Hanumanta Rau may be permitted to continue to do the laboratory work in the College on an allowance of Rs. 25 while Mr. Chatterton may give the lectures as Mr. Keeling was doing. The extra charge can be met from general savings in the College.

I have the honour to be,

Sir,

Your most obedient servant,

J. Duncan

Director of Public Instruction.
