Note

The addresses dealing with
Educational matters are
marked with red tape.
There is nothing in them
which calls for any action
except perhaps pp. 334
p. 279.

Dr Barry's remarks are
open to misconstruction.
He would hardly deny
that it is better for a school to
be entirely "boarding," though it is
probably true that a day school
is the better for the presence of
boarders also. That the presence
of day boys is beneficial to the board
will hardly hold water. The converse
may be true.

p. 334 H's remarks re the
of native too in be pointed out to the
D.P.I. for industries taught see
p. 332.

Note.

The addresses dealing with
educational matters are marked with
red tape - There is nothing in them
which calls for any action except perhaps p. 334.

p. 279. Dr. Barry's remarks are open to misconstruction. He
could hardly deny that it is better for a school to be entirely boarding,
though it is probably true that a day school is the better for the
presence of boarders also. That day school the presence of
dayboys is beneficial to the boarders will hardly hold water.
The advantage of boarding is the use of native implements.

p. 334. Dr. E's satisfaction as to the use of native implements
by the pupils in learning the various industries, in his report
to the West, with the beneficial result that when
the pupils went home, they could earn their livelihood
with the implements available near at hand, for the industries
taught see p. 332 of the report. The matter might be brought
to the notice of the D. P. I.
