5/4/98 Note

The Board sets forth very cogent reasons for this
exemption as it will secure the services of a trained
mechanic who by supervising repairs of S. & A. machinery
of all kinds will enable the work to be done, at a great
saving, departmentally. He has passed the following
Technical Exams. Steam & Steam Engine (advanced)
Machine construction & fitter's work (intermediate)
Machine drawing (elementary)

Proceedings of the Board of Revenue

(Separate Revenue),

Dated 29th March 1898.

Mis No. 1271

Read application for the exemption of Mr. Durnhill from the examination rules submitted by the Deputy Commissioner, Central Division on 2nd March 1898.

Resolution

In Submitting herewith an application for exemption from the examination rules of H. E. R. Durnhill who has been appointed by the Deputy Commissioner, Central Division a sub-protem sub-inspector 3rd grade in anticipation of Government sanction, the Board begs to represent the circumstances under which it supports the same.

2. Large sums are spent every year in repairing machines, cash chests, locks &c belonging to the department which

which under present circumstances have all to be forwarded to a private firm which has the Board at its mercy more or less in the matter of rates and the Board is convinced that there is a very large saving to be made if it can be arranged that all the more ordinary repairs are carried out departmentally. A number of suggestions have been made from time to time to this end but have all been rejected on the ground of expense and the Board now proposes to attempt to do it simply by appointing one or two really good mechanics with sufficient general education to qualify them for other works, as Sub. Inspectors. Mr. Dunhill's appointment has been made in accordance with this resolution. He has a fair general education, though he has not passed the examinations necessary to qualify him for entry into Government Service. He has besides passed the following technical examinations, namely Steam and Steam Engine (advanced), Machine construction and fitters work (Intermediate) and Machine drawing (Elementary). He has also undergone an apprenticeship under the Engineer, Madras Municipality who.

who gives him a very good character. He is at present engaged in supervising the erection of the galvanized iron Store-shed at Kaniyam badi. As soon as it is completed, it is proposed to post him to the Madras Depot, where, in addition to the usual duties of a Sub. Inspector he will attend to all ordinary repairs to — machines which are sent in there for repair, to the Commissioner's Steam Launch &c. It is anticipated that his appointment will result in a considerable saving to — Government and in view of this fact and of the particular qualifications he holds, the Board trusts that no exception will be taken to his appointment.
