The Chief Engineer,

Public works Dept.

SIR,

ENCLOSURES.

With reference to G.O. No 239 W dated 31st January 1895. communicating G.O. Educational, No 65 of the 24th idem, exempting V. Virabhadra Pillai from the examination rules, in view to his appointment as a clerk on Rs 15-20 in the Public works Department, I have the honor to inform you that the man is now employed as clerk II class 1st Grade and has been reported to be doing his work satisfactorily and consequently looking forward for promotion to higher grade. But under the G.O. in question I am of opinion that the clerk cannot be

be promoted to a post carrying a salary of above Rupees 20.

2. Mr. Joyce, the Executive Engineer, Madurai Division, under whom the clerk is employed speaks in very high terms of the man, in his letter no 785 S.B. dated 25th March 1898, copy enclosed. Under the circumstances I request that you will be good enough to obtain the sanction of Government exempting the clerk from the examination rules unconditionally, so that he may be eligible for promotion to higher grade.

3. Mr. Medlicott's letter referred to by Mr. Joyce in the concluding sentence of his letter has been submitted to your Office with this Office no 735 M.O. dated 7th September 1894.

Enclosure no I 5 letter no 521 M.O. 7/8/98.

Letter from A. Joyce Esq: Executive Engineer, Madurai Division, to the Superintending Engineer II Circle, Trichinopoly, dated 25th March 1898, no 785 S.B. :—

With reference to your endorsement no 345 M.O. dated 9th March 1898, herewith returned, I beg to remark as follows:—

This clerk is over twelve years standing and it will be very hard upon him indeed if he can never rise to any higher grade. He has been exempted from the examination for holding an appointment of 15-20 Rupees. But surely having once got such an appointment, it is not intended to deprive him of any further hopes or ambitions, that is any more promotion

The

The clerk has held acting appointment of Rs 20-30 without any objection from the Examiner. I believe for over twelve months too.

I can speak very highly of this man as hard working, painstaking and industrious. He now almost invariably accompanies me about in camp. I find that he is the only clerk not too high up in the office who is not a Brahmin. On first coming to this office I found that the camp clerk was always being changed. This was very inconvenient for me as papers were not kept in such good consecutive order (I am more than half my time in camp); and also the Brahmins were managing to go in camp only to the places that suited them. Even then they were always grumbling chiefly at the water - now there

there are a good many places to which I have to go which natives do not like. This clerk goes to all of them the rough as well as the smooth and never complains. This I think only fair.

I should therefore take it as a favor if you would refer this matter to the Examiner in order to discover if Government rules admit of this clerk holding such superior appointments. If the Examiner sees any objection I would wish the matter referred to Government with a recommendation for favorable consideration. I think that Mr Hughes the present Chief Engineer for Irrigation knows this clerk well. I would refer you also to Mr Medlicott's letter no 383 S.B. dated 3-9-94.
