CURRENT No. 642

Mr. Chatterton is also a professor in the engineering college, the notice is sent about his absence for that. If there is no objection on that account, the order may be issued.

From the Secy of Pub. Instruction, Head Current No. 642 D 17.5.98 from D.P.I.

Order mis

The proposal of the D.P.I. is approved.

The Govt. is prepared to permit Mr. Chatterton to visit Bombay & Poona in May or June to inspect the various institutions mentioned in his letter No. 223 D 30.4.98, enclosed in the D.P.I.'s letter under reference, and to arrange for the extension of the sale of aluminium manufactured articles in the Bombay Presidency. In view, however, of definite orders being passed, it should be clearly stated for how long and during what months his work with his classes will be suspended.

No 223.

From

The Officer in Charge of School of Arts,
Madras.

To

The Director of Public Instruction,
Madras.

Sir,

I have the honour to request permission to visit Poona and Bombay in June next. The art and Drawing Classes in the school will be closed and I can easily make arrangements for the efficient superintendence of the Industrial Classes for the short period I should be away. The objects of my proposed visit to the Bombay Presidency are: 1. To see the methods of metal working pursued at Poona especially in connection with the factories in which spinning and stamping machinery is used. 2. To arrange for the sale in Bombay of the aluminium work made in the School of Arts here. 3. To inspect the Victoria Technical Institute, the School of Arts and other technical and industrial schools. As you are aware we have taken up the manufacture of aluminium utensils on a fairly large scale and there is some prospect that it may become an important local industry here.

H. J.

I think it might be
order W. 329 & 27-5-98.
The Director's proposals
are sanctioned approved.

We have already supplied a few things to people in Bombay and I am assured that it will not be difficult to sell a very large number in Bombay if proper steps are taken to make the matter known. At the present we are spending between Rs 2000 and Rs 3000 a month in aluminium work and possibly in a short time it may be much more, so that I think it is only wise that I should take such steps as are desirable to establish this trade on a secure basis. This is the first attempt that has been made to establish metal working on a large scale in this Presidency, and it would greatly help us if we knew for certain what has been done elsewhere and this can only be done by a personal inspection of the systems of working which have been adopted.

My dear Goss

With reference to
the proposal that Mr.
Chatterton should visit
Poona & Bombay in con-
nection with metal work
industries, I may say
that this will not inter-
fere with his work at
the college of engineering.
The college is closed for
