GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

Read—the following paper :—

From Diwan Bahadur V. KRISHNAMA CHARIAR, Registrar of Books, to the Director of Public Instruction, dated Madras, 1st June 1898, No. 167.

I have the honour to send on for transmission to Government copies of the catalogue of publications received for registration during the first quarter of 1898.

2. The total number of works registered during the quarter is 270, of which 221 are classed as *books* and 49 as *periodicals*. Though the number is large both relatively and absolutely, yet at the risk of repetition the fact must be recorded that school books reign supreme during the cold season of the year—a season of delight to authors, publishers and booksellers and their agents when numerous orders are booked not only for text-books, but keys, notes, summaries and other short cuts to knowledge which are greater favourites than ever among school boys.

3. Classifying the registered works according to languages, 87 are in English, 66 in Tamil, 57 in Telugu, 8 in Malayalam, 13 in Kanarese, 1 in Tulu, 2 in Arabic, and 36 in Sanskrit, including bi-lingual and those published in Grandha and Nagari characters. More than 28 per cent. of the entire number catalogued are works intended for educational purposes.

4. Among vernacular works there are evidences of the popularity of fiction and drama especially in the Telugu language; and the Royal Jubilee Literature, to which attention was directed last year by the commemoration of Her Majesty's long reign of 60 years, has also been a favourite in this season. The ever increasing output of magazine literature or serial, publications devoted to religion still finds a purchasing (if not reading) public. Among the religious books published in English, Swámi Vivekananda's lectures on Hindu philosophy, delivered in America, England and India, seem to have a fair share of popular favour.

5. Brief notes on the contents of these and other registered works are entered in the column of remarks.

6. The number of works copyrighted is 94, which is noticeable as the record figure for a quarter. The usual extract of entries of copyright registration is annexed and includes 13 works delivered during the previous year but whose copyright has been secured by their proprietors during the first quarter of 1898.
