Read—the following paper :—

Resolution of the Government of India, Public Works Department (General), dated Simla, 16th May 1898, No. 1289 G.
[Ineligibility of students of the Engineer class of the Thomason Civil Engineering College under practical training to an increment of pay under Public Works Department resolution, No. 1521 G., dated 9th June 1893.]

Read—

Public Works Department resolution, No. 1521 G., dated the 9th June 1893.
" " " " 2297 G., " the 26th August 1897.

Resolution.—In Public Works Department resolution, No. 1521 G., dated the 9th June 1893, it was decided that, if an apprentice appointed to the Engineer branch of the Public Works Department or the superior establishment of the Indian Telegraph Department from an Indian Civil Engineering College has given complete satisfaction during the first six months of training, his salary may, with the sanction of the Local Government, be increased from Rs. 100 to Rs. 150 per mensem. Since the issue of that resolution, the conditions for the practical training and appointment to the department of passed students of the Engineering class of the Thomason Civil Engineering College, Rurki, have, in the resolution of the 26th August 1897 read in the preamble, been changed.

Under the orders contained in the latter resolution, such students have now to undergo a course of practical training for a period not exceeding three years, but not less than one year; and, while under such training, receive, if Europeans or Eurasians, a stipend of Rs. 100, and if Natives of Rs. 50 a month. Further, between two apprentices appointed for practical training to the same list, no final decision as to the respective merits of each can be made until the end of the first year, and on that decision, subject to certain considerations, the selection of the apprentice for permanent appointment to the department depends.

Under these circumstances, the orders of 1893, which would ordinarily involve the selection of one of the two officers for an increase of pay after six months' training and would therefore practically determine the selection of the same officer for the one appointment available before the expiry of the first year, are incompatible with those of 1897 so far as apprentices of the Thomason College are concerned.

The Governor-General in Council is therefore pleased to direct that the terms of Public Works Department resolution, No. 1521 G., dated the 9th June 1893, shall not apply to students of the Thomason College appointed as apprentices to the Provincial service of the Engineer branch of the Public Works Department under Public Works Department resolution, No. 2297 G., dated 26th August 1897.

The Governments of Madras and Bombay, Public Works Department, General and Railway Branches.
The Governments of Bengal, the North-Western Provinces and Oudh, and the Punjab.
