NOTE FOR THE CHIEF SECRETARY.

This file, which relates to the proposal of the Surge Genl to discourage the training of private Hospital Assistants by local bodies, was ordered to lie over till orders are passed on the general question of the future training of Hospital Assistants. Govt has passed orders on the latter question (please see the linked file), & considers that there should be no objection to proceed for the training of Hospital Assistants, that Govt should take the supply of medical subordinates into its own hands, & that local bodies with their Govt. It would seem therefore that Govt agrees with the view that the training of private Hospital Assistants should be discouraged, & that the supply of medical subordinates should be taken over by the Govt.

SUBJECT.

Proposal of the S. & to discourage
the training of private hospital
assistants by local bodies.

FOR ORDERS.

Flag B.

In para 9 of his letter No. 54 d 28th
Jan^r 1897 read with G.O. Min. No. 545
Public d. 12th May 1897, the S. &
expressed his opinion that unless
the training of private hospital
assistants by local bodies is
discouraged as far as possible,
the strength of Provincial reserve
could not be increased, & the
department would in consequence
be quite unable to bear the
drain on it during war or
other emergencies. The S. &
had previously remarked
in his letter No. 107 d 7th March
1896 read with G.O. Min. No. 236
Public d. 1st April 1896 that
the employment in local fund
service of men trained in
local fund schools is most

disadvantageous, as they are not available for the requirements of the department when emergencies arise, & that he considered that the tendency to employ private & locally trained hospital assistants by local bodies should, whenever possible be minimized in view of Provincial requirements & the State responsibilities.

In para 2 of G.O. No. 545 Public d. 12th May 1897, it was stated C. No. 674 that the question of the advisability of training of private hospital assistants by local bodies would be considered where the question of medical education is finally dealt with.

By 'private' hospital assist^{ts} the S.B. apparently means hosp^l assist^{ts} educated at their own expense, as opposed to Gov^t hosp^l assist^{ts} educated at Gov^t expense. It is submitted that the question now raised by the S.B., whose does not make any definite proposals

on the subject, has been considered by Gov^t in disposing of the question of the training of hosp^l assist^{ts} (a draft order on which is now in circulation). Gov^t has decided to open three schools for training hosp^l assist^{ts}, & proposes to take the supply of medical subordi^{nates} ^{required by local & municipal bodies} ~~into its own hands~~, leaving the S.B. to appoint them to the various ports & charging the local bodies with their cost. It is therefore, submitted that this matter may be recorded with the remark that the question raised by the S.B. has been considered in disposing of the question of the training of hosp^l assist^{ts}.
