Madras 7th July 1898

From.

Alfred Chatterton Esq, BSc.

Officer in charge, School of Arts
Madras.

To,

The Director of Public Instruction
Madras.

Sir,

I have the honour to bring to your notice the fact that owing to the rapid development of the Aluminium business in the metal working class of this Institution, the grant for many items in the budget for 1897-98 have proved totally inadequate and it has become necessary to apply for a greatly increased allotment under certain heads.

2. At the end of March, a sum of Rs 3800 was specially sanctioned to start the aluminium industry and the whole of that amount was spent in tools, labour and material before the end of the official year 1897-98. Receipts from the sale of articles manufactured only began to come in during April and the total amount

5th July was Rs 6618-1-4, made up as follows

Fees	296-8-0
Sales of aluminium	3711-2-4
Sales of other articles	1947-2-0
Advances for aluminium articles	663-5-0
	<u>6618-1-4</u>

On the 1st April the outstanding bills not yet paid were Rs 2139-4-4, on the 5th July they have increased to Rs 3890-6-8 being made up as follows

For aluminium work	1809-8-7
other work	2080-14-1
	<u>3890-6-8</u>

Summing up these figures, it will be seen that excluding fees, the work executed in the School during the past three months has been sold for Rs 8072-11-8. and the value of the stock has increased by a very large amount certainly not less than Rs 300. It would take a very long time to value all the half finished work in hand and the figures even then would only be approximate. The total value of the work turned out during the last 3 months is therefore about Rs 11,672-11-8.

The total expenditure since the 1st April excluding the Establishment charges has been Rs 7586-12-6, to which should be added the

618-1-4
296-8-0
6321-9-4

3890-6-8
2139-4-4
1751-2-4

6321-9-4
1751-2-4
8072-11-8

Rs 3,800 granted at the end of last year make a total of Rs 11,386-12-6. It is evident, therefore, that on the Industrial side of the school, we have had no loss in the working, a result which has never before been attained. The total value of the sales made during the last 3 years was.

1895-96	Rs 9293-0-7
1896-97	Rs 7404-3-3
1897-98	Rs 5195-4-5

Total Rs 21,892-8-3.

or an average of Rs 7,297-8-1 per annum as against Rs 8072-11-8, the sales of the last three months. On the Industrial side, the School is therefore turning out fully 4 times as much work as in previous years and as this rate is likely in the future to increase rather than diminish, I am compelled to ask for very large additional grants amounting to Rs 20,000 which have been entered in the 4th column of the Statement appended. This large increase in expenditure will of the course be a what bonding increase in the . . . In the meantime I would . . . there will . . .

an annual report which I recently sub-
mitted to you, I expressed the opinion that
progress in Industrial or trade teaching
could only be effected by carrying on opera-
tions on a larger scale and this I have
endeavoured to show can be done, as at
present, even excluding the aluminium de-
partment, there is much more work in
and in every Department of the School
than has hitherto been the case. This is
partly due to the prominent attention which
has been drawn to the School, during the last
few months and partly due to advertising
and issuing price lists. A price list has been
issued for the aluminium Department and
has resulted in a large increase in orders
and similar price lists are under preparation
for the cabinet making and wood carving
department and the Pottery Department.
When they are issued it is expected that
orders will flow in which will keep the School
fully employed, enable the number of appren-
tices to be increased and will justify an
increasing the Establishment ^{per} ^{three su} the provision of
finances.

Rs 7586-12-6, to which should be added, Poon

India, a very large amount of money has
been expended on equipping Technical Schools
with tools and machinery and I cannot help
thinking that in Madras we shall gradually
fall behind unless an effort is made to
remedy this defect. Of the native industries
metal working is, in Madras probably the
most important, but it is, I find already
suffering from competition with machine
made goods and I anticipate that unless
in the immediate future we take steps to im-
prove the methods of working of the artisans
in this Presidency they will suffer in the future
much as the weaving caste does now. A begin-
ning has been made by the establishment of a
Government Technical Examination in
metal working and it now seems to me desir-
able that a properly equipped metal working
Shop should be established either here in Ma-
dras as part of this Institution or as a mu-
nicipal Technical School in Kumbakonam.
If you consider the developments, I propose
to be feasible I shall be glad to submit a plan
and estimate of the cost of what I think
should be done. In the meantime I would

spectfully request that my application
 & increased allotments may receive early
 attention, otherwise the work will be
 seriously delayed.

I have the honour &c.

Memorandum D.P. No. 7866 of
20 July 1898.

CURRENT No. 968

OFFICE OF THE DIRECTOR OF
PUBLIC INSTRUCTION,
Madras, 26 July 1898

No. 7866.

From

THE HONORABLE MR. D. DUNCAN, M.A., D.Sc., LL.D.,
DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

THE SECRETARY TO GOVERNMENT,
Educational DEPARTMENT,

28/7/98

(Through the Accountant General) Fort St. George.

SIR,

39. Ed. Hg. No.
26-7-98

With reference to para 3 of my letter no 231, dated 14th January 1898, I have the honour to submit the enclosed copy of letter from Mr. Alfred Chatterton, the officer in charge of the School of Arts, no 866, dated 7th instant, in which he explains fully how the receipts and charges of the school on account of the manufacture of aluminium and other articles have been well nigh balanced and applies for an additional allotment of Rs 20,000 during the current year to keep the metal working industry well in hand, the budget provision under several heads having been almost exhausted.

2. More capital is urgently needed if the

Industrial side of the school is to be fully developed and if Mr Chatterton is to be encouraged in the laudable work which is carrying on in connection with the manufacture of aluminium articles. I have cut down by one half, Mr. Chatterton's estimate of the additional allotment required, i.e., to Rs 10,000, as shown in the margin,

Head of Expenditure	Sanctioned allotment for 1898-99	Expenditure for 3 months up to 30 June 1898	Balance available on 1st July 1898	Additional allotment applied for
	Rs.	Rs.	Rs.	Rs.
Travelling allowance	400	182	218	500
Materials	4,000	3,197	803	4,000
Wages of coolies	4,000	2,775	1,225	4,000
Utilities of construction	100	"	100	500
Advertisements	50	"	50	500
Postage charges	65	76	-11	250
Petty carriage & coolies charges	30	58	-28	250
Total				10,000

which, I beg to request Government will be pleased to sanction at a very early date, treating the above amount more as an advance than an actual expenditure; for, I am, as Mr Chatterton is, quite sanguine that the outlay will be recovered.

from sale proceeds before the close of the current official year. I beg to add that I am unable suggest any other source

from which the additional allotment applied for can be appropriated.

3. I beg to solicit very early orders, lest the work of the industrial department of the school should come abruptly to a dead stop for want of the necessary funds.

I have the honour to be,
Sir,

your most obedient servant

J. J. G. G.
Director of Public Instruction

N: 3757

Yst. St. George,
Accountant General's Office,
25th July 1898.

Forwarded to the Secretary to Government, Educational Department. The additional allotment of Rs 10,000 applied for may be met from the provision of Rs 40,000 for "Students' Hostels" if it is not likely to be utilized before the close of the current year.

W. K. L.
Accountant General.

C. No. 968 of 1898.

SUBJECT.

An additional allotment for the School of Arts.

FOR ORDERS.

A large portion of the provision under "Allowances" "Supplies and Services" and "Contingencies" in the School of Arts budget (Vide pp. 34 to 36 of G.O. No. 1049 Financial dated 14th December 1897) having been expended during the last three months, mainly on account of the manufacture of Aluminium articles, the Director of Public Instruction applies for an additional allotment of Rs. 10,000. He states that the additional amount required may be sanctioned as an advance as it will be ~~xxx~~ recouped from the sale-proceeds of manufactured articles before the close of the current year and adds that unless the amount is sanctioned the work of the industrial department of the school will come abruptly to a dead stop. The Accountant-General reports that the additional allotment applied for may be met from the provision of Rs. 40,000 for "Students' Hostels" (Vide p. 42 of G.O. No. 1049 Financial dated 14th December 1897) if it is not likely to be utilized before

Page 140 C. B. S.

Order No 578 of 8-98

The additional grant as held for by the D.P.I. is sanctioned from the provision of Rs. 40,000 for "Students' Hostels". But it must be understood that the budget allotment should not be exceeded.

AG (From order)
16.8.98

21 Education. Miscellaneous.
(Page 143 C. B. S.)

To the D.P.I. } 2940
— AG } 1400
18/8/98

before the close of the current year.

It seems necessary to sanction the additional allotment applied for. As regards the provision of Rs. 40,000 for "Students' hostels", it has already been intimated to the Madras Students' Hostels' committee that the Government contribution of Rs. 25000 to the Victoria Students' hostel will be paid on their submitting a formal application therefor (Vide memo No. 1388 dated 22nd June 1898).

No application from the Committee has been received yet; but it may be presumed

that the amount will be paid before the close of the current year. Deducting this amount, there will remain Rs. 15,000

out of the provision of Rs. 40,000 for "Students' hostels". It is unlikely

that this amount will be required during the year for the Kumbakonam Students' hostel to which a grant of Rs. 25,000

has been promised (Vide G.O. No. 97, Educational dated 18th February 1897).

An initial difficulty having set in in making (available) the Tanjore Jubilee fund for the hostel scheme, the Committee

has not yet submitted the amended plan and the Memorandum and articles of association called for in G.O. No. 97

Educational dated 18th February 1897. The additional allotment required by the

Director of Public Instruction may therefore be met from the provision of

Rs. 40,000 for "Students' hostels".

It may be noted that Mr. Chellabhai asked for Rs 20,000, but the D.P.I. has cut it down to Rs 10,000

12/8/98

H.M. with note from Financial
The proposal may be
sanctioned on the understanding
that the amount will be paid before the
close of the current year. Deducting
this amount, there will remain Rs. 15,000
out of the provision of Rs. 40,000 for
"Students' hostels". It is unlikely
that this amount will be required during
the year for the Kumbakonam Students'
hostel to which a grant of Rs. 25,000
has been promised (Vide G.O. No. 97,
Educational dated 18th February 1897).

13/8/98

Vide 90335 Ed 8/4-6-97

H.T. To Financial for favour
of remarks.
H.T. 8/8/98

C. No. 968

NOTE FOR THE C.S.

The treatment of the additional grant as an "advance" is, it is submitted, out of the question, being contrary against the recognized budget principles. Educational is of opinion that the additional allotment can safely be found from the provision for "Students' Hostels" [22.I Education - Miscellaneous p. 143 of the C.B.P.]. in the budget for the current year, and there appears to be no objection to the grant being sanctioned on the understanding that the D.P.I. will be able to keep within his total budget allotment.

MS

15.8.98

The enclosed receipts in the current year will help to swell the Provincial balance, but the amounts realized as receipts cannot be utilized for expenditure during 1898-99
