Note. It would have simplified matters considerably if the D.P.I. had stated in his previous letter about Mr. Hurman all that he states now. In his previous letter the D.P.I. made no recommendation as to which rules should govern the ensuing examination.

OFFICE OF THE DIRECTOR OF
PUBLIC INSTRUCTION,
Madras, 28th October 1898.

No. 12271.

From

THE HONORABLE MR. D. DUNCAN, M.A., D.S.C., LL.D.,

DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

The Secretary to Government,
Educational Department,
Fort Saint George.

SIR,

With reference to G.O.No. 669 Educational, dated 21st October 1898, I have the honour to state that the Acting Principal considers it almost impracticable to give effect to the orders of Government, as arrangements have already been made to conduct the ensuing examination (to be held in December) under the old rules, Government having distinctly sanctioned the new rules ^{with effect} from 1st January 1899. This is the view which I also took, when the Principal referred the matter to me in September last. The new rules require that Euclid Book XI should also be brought up in Geometry and that candidates for admission should bring up an extra subject, viz, Elementary drawing. As sufficient notice has not been given to intending candidates, it would be hard to conduct the examination of this year under the new rules. Further, to give effect to the order, a fresh notice would have to be issued and this would necessitate the date of examination being deferred to January and there would then be delay in the formation of the new Engineer class of 1899. I beg to request, accordingly, that the ensuing examination be ordered to be conducted on the old rules and that the candidate on whose behalf Government was addressed be specially exempted from the age restriction to appear for the examination, as he will have

College in January next.

I have the honour to be,

Sir,

Your most obedient servant,

J. Durand

Director of Public Instruction.
