To

The Director of Public Instruction.

Sir,

With reference to your letter No 5827 dated the 18th May 1898, I have the honour to state that the work referred to will be classed as Original work and will cost over Rs.2000. I therefore request that you will be so good as to obtain sanction of Government for the preparation of estimate.

From

THE HONORABLE MR. D. DUNCAN, M.A., D.SC., LL.D.,
DIRECTOR OF PUBLIC INSTRUCTION,
Madras,

To

THE SECRETARY TO GOVERNMENT,
~~Educational~~ DEPARTMENT,
Fort St. George.

SIR,

With reference to the enclosed copy of a letter from the Consulting Architect No 720 dated 6th ultimo, I have the honour to request that you will be good enough to obtain the sanction of Government for the preparation of an estimate for laying a three-inch pipe in the Old College Park. The water supply from the existing two-inch pipe has of late been very scanty, and as it emits a most disagreeable smell, it may be dangerous to the health of the members of the establishments of the several offices located in the Old College premises.

I have the honour to be,

Sir,

Your most obedient servant,

D Duncan

Director of Public Instruction.

CURRENT No 1367

Office of the Director of Public Instruction,
Madras, 15th ~~October~~ 1898

No. 11751

From

The Honorable Mr. D. DUNCAN, M.A., D.SC., LL.D.,
Director of Public Instruction,
Madras,

To

The Secretary to Government,
Educational Department,
Fort St.George.

Sir,

With reference to official Memorandum No 1934, dated 9th instant, I have the honour to state that the estimate of Rs.62-4-0 sanctioned in 1890 was for laying pipes in the outhouse occupied by the Madras School Book and Vernacular Literature Society in the old College Compound, and that ~~this~~ amount was paid into the Bank of Madras by the society to the credit of the Consulting Architect to Government.

2. The estimate referred to in my letter No 7169, dated 2nd July last, is for improving the water supply in the College Park. In September 1889, when the Red Hills water was first introduced into the Park, the late Mr.Grigg returned countersigned to the Superintending Engineer, Vth Circle, an estimate for Rs.1275 for the work and ~~the~~ two additional pipes were laid in 1891. The Consulting Architect will be able to give an account of the actual expenditure incurred on the existing pipes.

3. The water supply from the service pipe in the Old College Park has of late been very scanty, which is probably due chiefly to the pipe being but 2 inches in diameter and to its being connected with the main pipe near the Anderson's bridge, which is at a distance of not less than 200 yards. I beg, therefore, to request that the necessary arrangements be speedily made for laying a three inch pipe and for connecting it with the main

pipe that has been lately extended up to the premises now occupied by the Honourable Mr. Justice Benson. Want of good drinking water is very much felt by the members of the establishments of the several offices located in the old college premises and by the general public, who come on business to the offices of Registrar of Books, Commissioner for Government Examinations, Inspector of schools, Central Circle, and the Assistant Inspector of schools, Presidency Division.

I have the honour to be,

Sir,

Your most obedient servant,

D Duncan

Director of Public Instruction.
