To

The Director of Public Instruction,

Madras.

Sir,

With reference to your letter No 1079 dated 4th February 1897 stating that the acquisition of a piece of land belonging to private individuals was necessary for the construction of the Government Girls' school at Namakkal, I have the honour to inform you that the General Charge Deputy Collector was requested to take steps to acquire the land under the Act with reference to the notification published by Government at page 535 Part I B of the Fort Saint George Gazette dated 17th November 1896. During the enquiry the owners urged before the Deputy Collector that if the land in question which is a lane leading up to their house be taken up, the whole house intended to be used as watershed would become useless and that a large sum should be awarded as compensation. The Deputy Collector referred the point for the determination of the District Court under section 49 clause 1 para. 3 of the Act where it is still pending.

G.O. 702 Edn 11-11-96

2. I inspected the site in the course of my tour this month, and I find that if the lane is taken up the arguments of the owhers of the house hold good. The width of the lane is only 2 or 3 feet and Government will have to pay perhaps Rs. 2000 more than it would have otherwise to do so. The Executive Engineer thought the acquisition unnecessary. Under the circumstances even at the cost of slightly restricting the gymnasium (which presumably for girls under 13 would be of the most simple kind if any) I would suggest that the acquisition of the site be not proceeded with. I need hardly add that I agree with you as to the necessity of taking up the land when I only supposed that it would cost its actual market value of a few rupees but that I have changed my mind when I find that to acquire it involves lengthy litigation and a very large sum of money. If you concur with me I request that you will be good enough to ask Government to withdraw from the acquisition of the land under section 43 (1) of the Act and to cancel the notification
