(Medical)

Simla, the 5th April 1899.

Sir,

I am directed to refer to your letter No. 35, dated the 26th January last, asking for the sanction of the Government of India to the payment of an honorarium of Rs. 1000 to the Professor of Physiology in the Madras Medical College for delivering a course of lectures in Practical Physiology and Physiological Chemistry as a temporary measure pending the appointment of a permanent professor.

2. I am to state that the Government of India do not fully apprehend the nature and scope of the proposals made in your letter, and will be glad to receive a more detailed explanation of the matter. At first sight it would seem to be part of the duty of the Superintendent of Ophthalmic Surgery at the Medical College who holds the appointment of Professor of Physiology as a collateral charge, to give such instructions as is necessary in Practical Physiology and Physiological Chemistry in the Medical School.

I have the honour to be,

Sir,

Your most obedient Servant,

A. H. L. Fraser

Offg. Secretary to the Government of India.

BACK PAPERS.

G.O.	No.	Department.	Date.

FURTHER PAPERS.

G.O.	No.	Department.	Date.

No 38.

1st May 1899.

To

The Director of Public Instruction,

Madras.

Sir,

In compliance with your endorsement No 4868 dated 26th April 1899, I have the honour to forward the following detailed information regarding the two courses of Practical Physiology and Chemical Physiology delivered for the first time in this College during the last Spring session.

2. The necessity for these two courses arose in connection with the revision of the bylaws of the Madras University as regards its Medical degrees which came into force in session 1897-98 and which was sanctioned by Government in its order E.No 166 dated 20th March 1897 Educational. It was absolutely necessary that these courses should be given in the spring session, January to March 1899, as the second year M.B. and C.M. students had to appear for the Second M.B. and C.M. Examination in the following April and in which examination these two courses are included. It was fortunate for the reputation of the College that there was an officer on its professional staff who, from having filled the office of Demonstrator to the late Professor Rutherford, was capable of lecturing on these subjects and I personally feel indebted to Lt. Colonel T.H. Pope M.D., I.M.S. for extricating the College authorities from a very awkward position in connection with the due carrying out of the bylaws of the University.
3. Since G.O.G.L. No 370 dated 4th April 1867 came into force the collateral duties of the Superintendent of the Ophthalmic Hospital are to give a course each of Ophthalmology and Systematic Physiology in the Autumn session and a course of Histology in the Spring session. Hitherto this work has been considered quite sufficient for one officer to perform and I think it would be impracticable to attach these two courses to his other work. It is true that Lt. Colonel Pope performed the duties this year, but, as said above, it was because he came to the rescue on an emergency and with no intention of continuing to go through these courses in future. In the Medical College Re-organization Committee's Scheme, provision is otherwise made for these lectures, but no orders on

the revision have yet been published. These courses, although they may be considered a part of Physiology are so far as I am aware not included in the systematic course on Physiology in any College or University, but always as separate subjects. They are also generally separately mentioned in the list of subjects in a curriculum and may be given either by the Professor of Physiology or by one of his Demonstrators.

4. In my letters bearing on the subject of these two courses the honorarium recommended was Rs.1000 for each course in accordance with the ^{precedence} ~~procedure~~ followed in the case of the *Course of* General Biology and not Rs.1000 as mentioned in letter No 555 dated 5th April from the Officiating Secretary to the Government of India. Had these courses been given either in the Calcutta or Bombay Medical College, the remuneration that would be asked for would have been on the scale of a minor Professorship for each course, viz, Rs.200 per mensem.

I have &c &c

OFFICE OF THE DIRECTOR OF
PUBLIC INSTRUCTION,

Madras, 29 May 1899

No. 5810

From

THE HONORABLE MR. J. DUNCAN, M.A., D.Sc., LL.D.,

DIRECTOR OF PUBLIC INSTRUCTION,

Madras,

To

THE SECRETARY TO GOVERNMENT,

Educational DEPARTMENT,

Fort St. George.

SIR,

In returning your endorsement No 208 dated 24th April last, referring to me for report letter No 555 dated 5th ^{April} ~~idem~~ from the Government of India, Home Department (Medical) in which detailed information is called for in regard to the courses of lectures to be delivered in Practical Physiology and Physiological Chemistry in the Madras Medical College, I have the honour to state that, as already pointed out in this office letter No 7752, dated 18th July 1898, read in G.O. No 645 Educational, dated 13th October 1898, the two subjects have been newly prescribed by the University for candidates for degrees in Medicine, and that lectures in these subjects have had to be delivered for the first time during the session of 1898-99. Not only the Professor of Ophthalmic Surgery and Physiology, who is also the Superintendent of ^{the} Ophthalmic Hospital, but also the Principal of the Medical College and the Surgeon General, are of opinion that it would be utterly impossible for the Professor of Physiology with his present attached hospital duties to teach the additional branches up to the required standard. I now submit copy of a letter from the Principal of the Medical College No 38, dated 1st instant, explaining fully how the necessity for two courses of lectures in Physiology has arisen and why it is impracticable to attach these two courses to the post of Superintendent of the Ophthalmic

Hospital, whose professional duties embrace a course of lectures in Ophthalmology and Systematic Physiology in the autumn session, and a course of Histology in the spring session.

2. As pointed out by the Principal of the Medical College in paragraph 4 of his letter the honorarium recommended is Rs. 1000 for each course and not for the two courses together, as the letter of the Government of India seems to imply (vide this office letter No 14069 dated 13th December 1898 and Memorandum (Educational Department) No 85, dated 17th December 1898).

I have the honour to be,

Sir,

Your most obedient servant,

Director of Public Instruction.

Educational DEPARTMENT.

C. Nos. 566 & 810 of 99

SUBJECT.

Lectures in Practical and Chemical Physiology at the Medical College.

FOR ORDERS.

In G.O. no. 34 Ed D the 26th January 1899 (Flag B) the Govt approved the proposal of the D.P.I. to depute the Professor of Physiology at the Medical College to deliver two courses of lectures in Practical Physiology and Chemical Physiology on an honorarium of Rs 1000 for each course and solicited the sanction of the Govt of India to the arrangement.

In Cuo 566 the Govt of India observe that it seems to be part of the duty of the Supdt of Ophthalmic surgery at the Medical College who holds the appointment of Professor of Physiology as a Collateral charge to give such instruction as is necessary in Practical Physiology and Physiological Chemistry in the Medical College.

school and state that they do not fully apprehend the nature and scope of the proposals made by this Govt and ask for a more detailed explanation of the matter.

The D.P.I. to whom the letter of the Govt of India was referred for full report states that the Principal of the Medical College, the Surgeon General and the Professor of Ophthalmic Surgery and Physiology are of opinion that it would be utterly impossible for the Professor of Physiology with his present attached hospital duties (i.e. those of the Superintendent of the Ophthalmic Hospital) to teach the additional ~~standard~~ branches up to the required standard and refers Govt to a letter from the Principal of the Medical College in which that officer states that Lt-Col. Pope came to the rescue of the College on an emergency and performed the additional duties this year but he has no intention of continuing them in future - He also states that although the Courses in Practical and Chemical Physiology may be considered a part of Physiology, they are

they are, so far as he is aware, not included in the Systematic Course on Physiology in any college or university but always treated as separate subjects and separately mentioned in the curriculum. He says that instruction in these subjects are given either by the Professor of Physiology or by one of his Demonstrators. If that be the case in other colleges, it is not explained why at the Madras College instruction in these subjects should not be given by the Asst to the Professor of Physiology.

Orders are solicited as to whether the Govt of I may be informed on the lines of the reply given by the D.P.I. & the Principal of the Medical College.

The Govt of I. appears to think that sanction is solicited for paying a honorarium of Rs 1000 only to the Professor of Physiology - In the reply to be sent it may be pointed out that sanction is solicited for the payment of a sum of Rs 2000, the honorarium proposed for each course of lectures being Rs 1000.

H. L.

As suggested by H. E. the latter portion of para 2. may be restored.

Say performed the duty 6.7.99 10.7.99 12.7.99

Collateral duties of the Superintendent of the
Ophthalmic Hospital are to give a course of
lectures in each of the subjects of Ophthalmology
and Systematic Physiology in the autumn
session of the College and a course of Histology
in the Spring session. Although the courses of
Practical Physiology and Physiological Chemistry
may be considered as part of Physiology, they are,
as is known,
so far as can be ascertained not included in
the systematic course on Physiology in any
College or University, but always treated as
separate subjects and ^{as it is believed generally} separately mentioned
in the list of subjects in a ^{curriculum}. Even if otherwise, the

Superintendent of the Ophthalmic Hospital,
the Principal of the Medical College and the
Surgeon General ~~are all of opinion that it~~
~~would be utterly impossible for the Superintendent with his present attached Hospital duties~~
to undertake courses of lectures in Practical
Physiology and Physiological Chemistry
^{in addition to his other duties}
~~also up to the required standard. It is true~~
~~Lieut Col Pope & Mr. [unclear] performed this duty~~
~~last year but it was to meet an~~
~~emergency and with no intention of~~
~~continuing them.~~

I am to add that the proposal of this
Govt is to pay Lieut Col Pope & Mr. [unclear] an
honorarium of Rs 1000 for each course and
not for the two courses together as your letter
seems to imply.

it would, I am to say, in the
opinion of the

and with this opinion
H.E the Govt in Council fully concurs.

The Professor of Physiology

To. H. M.
H.E. the Governor.
