Sir,

I have the honour to request that you will be good enough to permit me to include the following items of expenditure in the budget estimate of this College for 1900-1901.

- (a) Increase to the pay of the Nightwatchman.
- (b) Increase to the pay of the sweeper
- (c) Employment of a water/braman throughout the year
- (d) Employment of full time scavenger.
- (e) Municipal tax.

(a) The scale of pay originally sanctioned to the Nightwatchman was Rs.2 per mensem. As this is too small to invite a pensioner to solely perform the duties, Mr. Metcalfe employed a man, who is by profession a cooly, to be nightwatchman. The pay of Rs.2 being insufficient to maintain himself and family, the nightwatchman works during the day and is thus unfit to perform the duties for which he is engaged. I would therefore suggest

that the pay of the post be raised to Rs.5 per mensem which is the sanctioned pay of the Nightwatchman of the Arts section.

(b) The pay of the sweeper's post is Rs.2 per mensem and a cooly was employed to sweep the rented building which is comparatively small. The present building which is twice as large as the rented building, must always be kept scrupulously clean, and I would therefore suggest that the post be transferred to the temporary establishment and the salary attached to it raised to Rs.6 per mensem so as to admit of our employing two boy sweepers at Rs.3 each per mensem. These sweepers will, in addition, to their ordinary duties, be employed as punka-pullers during school hours.

(c) The want of a water/braman is seriously felt both by students and school boys, especially during the hottest part of the year. During the school hours, the pupils of the Practising school/indent upon the neighbouring houses for water,

and the people who buy water at the rate of nine pies a vessel, often complain of the hardship of having to supply water to the boys. This state of things, I think, should not be allowed to continue, and I therefore request you to be good enough to address Government on the subject. I would suggest the employment of a water/rahman on Rs. 3 per mensem. This post would of course come under the Temporary establishment.

(d) As the latrine is very small and requires to be cleaned out frequently during the course of the day, I would bring to your notice the necessity of employing a full time scavenger. The man now employed is paid Rs. 2 per mensem from contingencies and for this pay he cleans the latrine only twice a day. This I consider on sanitary grounds is not sufficient. The pay for a full time scavenger might be fixed at Rs. 3½ per mensem.

(e) The Chairman of the Rajahmundry Municipality assessed on this building a tax of Rs. 175 for the half year, and the Executive Engineer, Godavari Eastern Division, passed it as reasonable. I request you therefore to make provision for the tax in the next budget.

In connection with the above proposals, I beg to point out that Rs. 600, the amount sanctioned for the building rented as a Practising School, lapses to Government as the new building is now occupied. This saving will be sufficient to meet the expenses connected with my proposals.

As the budget has to be submitted shortly, I request that a reply at your earliest convenience be sent.

I have &c &c
