SEPTEMBER.

Reformatory School, Chingleput.

Considering that there is at present no necessity for extending the available accommodation for European and Eurasian lads in the —; and accepting the recommendations of the Surgeon-General as regards the diet and clothing to be provided for them.

GOVERNMENT OF MADRAS.

EDUCATIONAL DEPARTMENT.

READ—the following papers:—

From the Hon'ble Mr. G. H. STUART, M.A., Acting Director of Public Instruction, to the Secretary to Government, Educational Department, dated Madras, 17th April 1899, No. 4435.

I have the honour to report that the Superintendent of Prisons, Madras, inquires whether European and Eurasian boys may be admitted into the Reformatory School, Chingleput.

2. The Reformatory Schools' Act of 1897 does not seem to exclude European and Eurasian youthful offenders from the school; but their admission will necessitate special arrangements for their sleeping accommodation, diet and clothing. At present provision can be made for the sleeping accommodation of three boys only. The Consulting Architect may be instructed to submit a plan and estimate for providing separate quarters in the new buildings for ten such boys. I beg to request the orders of Government as to the particular diet to be adopted and clothing to be used by this class of offenders. The Superintendent thinks that these boys should be fed on rice diet and provided with plain clothing.

1st May 1899.

To the Inspector-General of Prisons.

From Lieutenant-Colonel W. O'HARA, I.M.S., Acting Inspector-General of Prisons, to the Chief Secretary to Government, dated Madras, 20th May 1899, No. C-227.

In returning the enclosed paper, I have the honour to report that, in my opinion, there does not appear to be at present any necessity for extending the available accommodation for European and Eurasian lads in the Reformatory School at Chingleput. It has been ascertained that, during the five years ending December 1898, there were only two such lads committed to Her Majesty's Penitentiary, Madras

(see Statement A attached), and these, from the nature of their offences and periods of sentence, were probably not eligible for admission to the Reformatory. The Acting Director of Public Instruction states that sleeping accommodation for three Eurasian or European boys is now available, and, under the circumstances, I would not advocate any further extension of accommodation for these classes.

2. As regards the diet to be adopted, I would recommend the scale now in force in the Civil Orphan Asylums, Madras, and which would probably not exceed in cost Rs. 6 per mensem for each juvenile (scale attached marked B).

3. In respect to clothing, the following half-yearly issues are recommended:—

White drill trousers	..	..	..	..	..	..	3
" sheeting shirts	..	..	..	..	..	..	3
" drill coats	..	..	..	..	..	..	2

No. 295.

Referred to the Surgeon-General for report as to the suitability of the diet proposed by the Inspector-General of Prisons for the European and Eurasian boys admitted into the Reformatory School.

12th June 1899.

To the Surgeon-General.

(Signed) A. EDGINGTON,
Acting Assistant Secretary.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Educational Department, dated Camp, Ootacamund, 26th August 1899, No. I. 8-486.

In returning herewith your endorsement No. 295, dated 12th June 1899, I have the honour to state that the diet advised by the Inspector-General of Prisons will serve the required purpose very well, provided that the quantities laid down represent the diet given daily. The Sanitary Commissioner, who was consulted in the matter, is of opinion, in which I concur, that some slight difference in nutritive value and less approach to luxury might be obtained by using crushed wheat, in monetary value equivalent to the cost of the 2 ounces of bread and coffee in the form of gruel for the early-morning food.

2. A distribution statement of the diet table, prepared at my instance by the Inspector-General of Prisons, is herewith forwarded, from which it will be seen that sufficient variation of diet from day to day is provided for.

3. In regard to clothing, I think at least two flannel banians should form part of the kit allowed.
