Simla, the 22nd September 1898.

Sir,

With reference to your letter No. 428, dated the 15th July last, I am directed to say that the Government of India are inclined to the opinion that the allowance of Rs. 200/- a month which it is proposed to grant to the Superintendent of the Lunatic Asylum in Madras for the delivery of lectures on mental diseases at the Medical College and for giving clinical instruction is somewhat high when compared with that granted for the several minor professorships at the College. It seems to the Government of India that the work which will be imposed on the Superintendent of the Asylum is likely to be lighter than that entailed by the duties of an ordinary minor professorship, whilst the allowances paid for these professorships are in general less than Rs. 200/- a month.

2. The Government of India will be glad if the Government of Madras will consider the question from this point of view.

I have the honour to be,

Sir,

Your most obedient Servant,

A. H. L. Fraser

SIR,

With reference to your memorandum No. 2, Educational, dated 7th October 1898 referring to my remarks Copy of a letter from the Government of India regarding the rate of allowance proposed to be granted to the Superintendent Lunatic Asylum, Madras for the delivery of lectures on mental diseases at the Medical College, I have the honor to state that, in addition to a delivery of a formal course of lectures at the Medical College the Superintendent will be required to impart clinical instructions at the Lunatic Asylum for a period of nine months in the year. Thus his work will not be of a lighter character than that appertaining to other Senior Professors and the pay suggested is, therefore, by no means too high.

2. I understand from the Principal Medical College, Madras, that in not a single instance in either of the Medical Colleges

Bombay has any Professor drawn less
 Rs 200 per mensem for a Professorship
 & he does not see any valid reason why the
 above college should be singled out in this
 vidious manner as regards the remuneration
 enjoyed by its Professors who belong to the
 same service and carry out the same duties.
 The Director of Public Instruction also agrees
 in this view and I fully concur with both
 of them.

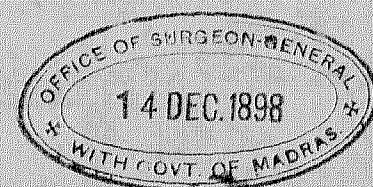

I have the honor to be,
 Sir,

Sir,

In returing your endorsement No 12346, dated 31st ultimo, I have the honour to inform you that the work proposed for the new Professor of Mental Diseases will consist not only of delivery of a formal course of lectures at the Medical College but will also entail clinical instruction at the Lunatic Asylum for a period of nine months in the year. It will thus be seen that the work will not be of a lighter character than that appertaining to other Minor Professorships and therefore the pay suggested is by no means too great.

2. Even apart from the exact amount of work to be done, I beg to draw attention to the fact that I have been informed that in not a single case in either of the Medical Colleges of Calcutta or Bombay has any Professor drawn less than the sum of Rs.200 per mensem for a Professorship in the respective Medical Colleges and I venture to submit that there is no valid reason why the Madras Medical College should be singled out in this invidious manner as regards the remuneration enjoyed by the Professors who belong nearly universally to the same service and carry out the same duties.

he should be given an allowance

In Home Dept. letter no. 1300 Mad

stated that they were inclined

College and for giving clinical instruction was somewhat high when compared with that granted for the several minor professorships at the College & that it seemed to them that the work which would be imposed on the Superd was likely to be lighter than that entailed by the duties of an ordinary minor professorship the allowance paid for which was in general less than Rs 200 a month. The Govt of I. asked that this Govt would consider the question from the above point of view.

The G. G. & the D. P.
