Sir,

With reference to G.O. No 210 M, 20-2-89, I have the honor to forward

forward herewith 2 copies of resolution of the Council noted in the margin for approval and sanction of Government of the same. The subject matter of these two resolutions is with reference to 2 applications for grant of sites in this municipality.

The petitioner No 1 applied for certain site in front of his house in this municipality and the same was granted accordingly free of any charge in the year 1888, prior to the G.O. under reference coming into force and he was put in possession of the same formally by some members of the Municipal Council that

were

were appointed specially as a Sub Committee for the purpose to giving possession of the site to the applicant. The members of the Sub Committee went to the spot and simply showed the site without actually measuring it then. The applicant thought that he got the whole site then he applied for. But when it was actually measured subsequently the site that was given to him as stated above fell short and without which he could not live there with any convenience having every accomodation necessary for good enjoyment of the same. Hence he made the present application for the site which was comprised in the grant already given by the Council. This petition was referred to 2 Sub Committees on 2 occasions. They recommended it in strong terms. The neighbours also were consulted and they consented. The Council granted the request subject to the sanction of the Government. The site to be given to him is the block marked B measuring 15½ yards from east to west & 5½ yards from south to north of block A as described by M. R. Ry. C. Ramasamy Pillai Avergal

and

and G. Pitchayya Setty Garu the members of the sub Committee in the plan that accompanied their report.

The other petitioner applied for a site near the Municipal Hospital for sinking a well for the use of the public as a matter of charity. The town being noted for the scarcity of water the Council granted the request readily and recommended the same to Government for its sanction.

From

The well site is all right
The other does not seem so
very objectionable. The lane
on which it abuts is still 18
feet wide & leads nowhere except
to the well just beyond. I
think it may be allowed

18/6

FOR ORDERS.

The proposed grants in both c
seem to be objectionable as they are distinc
encroachments on the streets, which are
— — not wide enough to bear them,
(12 ft only). The grant of the land for the well may perhaps
be conceded as a useful public work, that for extending
the first petitioner's house seems very objectionable.
