No. 12. Despatch from the Honorable the Court of Directors to the Governor General of India in Council, dated London, 30th August, No. 67 of 1858.

1. We forward in the packet a copy of the report of the Master of the Royal Mint on the Pyx Coins of the several Indian Mints of the year 1857.

2. The Report is very satisfactory, "the Coins of all the Presidencies are closely exact in point of weight. The approximation of the Calcutta Coins (both Gold and Silver) to the Standard fineness (916.67) continues good, and in the other two Mints is closer than last year, and leaves little more to be desired."

3. We desire that you transmit a copy of the Report to the Governments of Madras and Bombay respectively.

1. The examination of the Pyx Coins of the Indian Mints transmitted to me by directions of the Lords Commissioners of Her Majesty's Treasury with your letter of 23rd June being completed, I have the honor to return the Bullion remaining and to report on the weight and fineness of the Coins.

2. The Coins were first weighed singly and then cut into halves and distributed, as on former occasions, to Dr. Hofmann and Dr. Miller, Assayers of the Royal Mint, by whom each Coin was separately assayed and reported upon. The Silver Assays are always made by the humid process.
