*Fort Saint George, Financial Consultation, 1st Feby. 1859.*

No. 1. MINUTE OF CONSULTATION,—No. 43; dated 26th January 1859.

It is observed that the amount of Silver and Copper small Coin now in the Treasury is very large, being in value Rupees 9,56,615, and Rupees 4,22,311 respectively.

2. It has occurred to Government that it would be a convenience to the parties concerned, and at the same time tend to distribute small Coin about the country if the Railway Agent and Manager and the Superintendent of Electric Telegraphs were allowed the option of taking a part of their advances in small Coin.

3. The Accountant General will be pleased to communicate with those Officers, if he sees no objection and arrange accordingly. It must of course be clearly understood by them that the issue to them of small Coins would be only for the sake of accommodation, not as a matter of right; and that it must depend altogether on the state of the Treasury and the requirements of the Public Service.
