Proceedings of the Madras Government, Financial Department,
15th March 1862.

No. 41. Read the following letter from Lieutenant Colonel C. A. ORR, Mint Master; to T. PYCROFT, Esq., Chief Secretary to Government, Fort Saint George, dated 11th March 1862, No. 318.

With reference to the Order of Government, under date the 4th instant, No. 182, and to the Despatch from the Right Honorable the Secretary of State for India of the 23rd January 1862, No. 2, desiring that Indents for Coal for all purposes may be annually transmitted in sufficient time to allow of tenders for its supply being invited during summer when it is cheapest, I have the honor to state that the Coal used in this Mint has hitherto been obtained on Indent from the Marine Department, and that, in my opinion, it will be advisable to continue that system as there is no means of stowing so bulky an article at the Mint, and it will be liable to much pilfering, as well as to rapid deterioration if stored outside. I would suggest that I be authorized to forward my requisitions for Coal through the Superintendent of Marine, and that he be directed to include the requirements of the Mint in the Indents for his Department.

No. 42. ORDER THEREON, 15th March 1862, No. 212.

The Mint Master is authorized to forward his requisitions for Coal through the Superintendent of Marine, who is directed to include the requirements of the Mint in the Indents for his Department.

Chief Secretary.

Sir,

With reference to the order of Government under date the 4th instant No. 182, and to the despatch from the Right Honble the Secretary of State for India of the 23d January 1862 No. 2, desiring that indents for Coal for all purposes may be Annually transmitted in sufficient time to allow of tenders for its supply being invited during summer when it is cheapest, I have the honor to state that the Coal used in this Mint has hitherto been obtained on Indent from the Marine Department, and that, in my opinion, it will be advisable

to

to continue that system as there is no means of stowing so bulky an article at the Mint, and it will be liable to much pilfering, as well as to rapid deterioration if stored outside. I would suggest that I be authorized to forward my requisitions for Coal through the Superintendent of Marine and that he be directed to include the requirements of the Mint in the indents for his Department.
