*Proceedings of the Madras Government, Financial Department,
11th January 1862.*

No. 50. Read the following letter from J. J. FRANKLIN, Esq., Superintendent of Marine; to T. PYCROFT, Esq., Chief Secretary to Government, Marine Department, Fort Saint George, dated 17th December 1861, No. 3,489.

1. I have the honor to acknowledge receipt of the Proceedings of Government of the 14th instant, No. 421, returning my Marine Budget Estimate for revision, and in re-submitting it corrected as required, to state that the roofing of the coal shed at Cochin being a work of a trifling nature, to be undertaken by the Master Attendant at an expense of only 70 Rupees, it was not considered as coming under the denomination of a "Public Works" estimate, and thus the mistake in exhibiting it in the Budget. The item has now been expunged.

2. The item (3,000 Rupees) for deepening the bar at Mangalore has likewise been omitted as directed. The Chief Engineer informed me that certain works were about to be undertaken at that port with a view to increasing the scour over the bar, and asked what portion of the expenses could be met from the Port Fund. I named 3,000 Rupees, and inserted this sum, as the Accountant General had desired me to enter in the estimate for 1861-62 a sum (8,050 Rupees) to be similarly expended in improving the rivers at Cocanada, Negapatam and Tellicherry.

3. These are the only two items of the nature alluded to in the Proceedings under acknowledgment.

4. After communicating with the Chief Engineer I will forward with the least possible delay a statement of the Marine Works contemplated at the different ports and rivers in this Presidency, distinguishing the charges as directed.

No. 51. ORDER THEREON, 11th January 1862, No. 34.

With the foregoing letter the Superintendent of Marine re-submits the Budget Estimate for 1862-63 revised according to the Orders of the 14th ultimo, No. 421. Compared with the Estimate for 1861-62, the net decrease is Rupees 80,903 occurring chiefly under the head "Miscellaneous" in the item of "value of coal to be received from England payable in India," for which no provision is made in the present Budget.

2. The Government are of opinion that provision should be made in the Budget for the payment of subsidy contingent on the continuance of the Mail Contract during the ensuing year. It is not now possible to state for what period of the year the Contract will have to be continued, the whole or a part, and indeed whether it will have to run into 1862-63 at all. It is necessary however to be prepared for the contingency of the Contract lasting the whole year. The same sum, 33,000 Rupees, will therefore be entered for the ensuing year as for that now current, and explanation given in the column of remarks.

3. So much of the Budget as relates to the Marine Department in North Canara will have to be struck out, as that Province will shortly be made over to the Presidency of Bombay.

4. With respect to the item of "Pensions," Rupees 2,553, it does not appear to the Government to be necessary, under the ruling of the Government of India, to provide for new grants, as lately intimated to the Accountant General.

5. With these remarks, the Government direct the transmission of the Marine Budget to the Accountant General.

(Signed) T. PYCROFT,
Chief Secretary.
