*Proceedings of the Madras Government, Financial Department,
4th February 1862.*

No. 25. Proceedings of Government, dated 4th February 1862, No. 99.

The Government observe from the report of the week ended 25th instant, that there are at present nearly 3½ lacs worth of copper coin in the General Treasury, besides what there may be in the Mint. They request that the Accountant General will inform them what measures are taken in his Department for circulating this coin in the Provinces—how much has been sent from the General Treasury into the Mofussil during the past year—to what Districts, and by what means of conveyance—how much, if any, has been taken by the Railway Companies under the discretion allowed them in the Government Order dated the 26th January 1859, No. 43, and what arrangements he would propose to make for bringing into circulation the large amount now in hand.
