FINANCIAL DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from L. BOWRING, Esq., Commissioner for the Government of the Territories of His Highness the Maha Rajah of Mysore; to the Chief Secretary to Government, Fort Saint George, dated Bangalore, 2nd April 1863, No. 58.

In order to carry out the intentions of the Government of India expressed in the Proceedings marginally quoted, I have the honor to submit for the favorable consideration of His Excellency the Governor in Council the following proposition.

No. 1,577, Extract from the Proceedings of the Government of India, Financial Department, dated 28th February 1862.

2. There is at present in the various Treasuries of this Province, Copper Coin of the stamped value of Rupees 41,574-9-0 as per enclosed Statement, which, being held in deposit as obsolete, is entirely withdrawn from circulation. The substitution and issue for circulation of British Copper coinage, will, among other advantages, afford to the large number of British settlers in the planting Districts in these territories by whom the deficiency of Copper currency is severely felt very desirable facilities for paying their laborers. I understand however that were the Coin referred to tendered to the Mint, it would be received only at the intrinsic value of the metal, while its coinage into British currency will afford the Government a profit of above 100 per cent., I am therefore induced to solicit the assent of His Excellency in Council to the money being minted free of profit, or, should there be any hesitation in according this, I have then to beg that an exchange may be effected at such moderate premium as the Government may be pleased to fix.

Statement showing the number and value of Copper Coins not of British coinage, remaining in the various Treasuries of the Mysore Territory.
